Mr. Aaron Mathis, who has been blind for a number of years, died on Wednesday morning at his home. He leaves a widow who has the sympathy of many friends.

Miss Beryl Mathis, of Philadelphia, was called home on account of the death of her grandfather.

The teachers of the Public School have been attending the Burlington County Institute at Mount Holly this week.

Mrs. Mary J. Cramer is visiting relatives at Barnegat.

Miss Vesta Cramer is attending the Teachers Institute at Lakewood.

Mrs. C. T. Allen and Mrs. Milton Cramer were Philadelphia visitors on Monday.

Miss Sarah Mathis spent a part of last week in Absecon.

Rev. and Mrs. L. V. Brewin, Miss Margaret Adams and Mr. Charles Stackhouse motored to Camden on Saturday.

A number of our men went deer hunting on Wednesday but none successful in getting game.

Miss Elma Cramer was a Philadelphia visitor last week.

COMFORT KITS FOR THE SOLDIERS

By Joseph K. Ridgway

Everybody knits and sews for the soldiers and so they did in the days of the Civil war, but we hope the people will not make the same mistakes that the friends and relatives of the soldiers did in '61. A soldier is not supposed to carry quite as much as a pack mule, yet the junk that fond parents or sweetheart and wives brought to some of the soldier boys would have proved a good load for a government mule.

Most of the men from Ocean County were assembled on the old Monmouth battle ground near Freehold. In those days three weeks were considered ample time to equip and drill a regiment before sending it to the firing line. In those days it was "Going to the Front" and what a useless lot of junk there was in that camp when the order came to march.

Some fond mothers had provided their boys with enough underclothes to last at least two years, others had bought straw beds and two or three extra blankets or quilts, others had been provided with cedar boards cut in six-foot lengths, three of these were to be carried on the march so that the poor boy need not lie on the bare ground when halted for the night. Did these things get carried to the firing line? They did—not. And most of this junk was thrown from our train of Palace Cars ere we reached Philadelphia. Our Palace Cars had been built to carry cattle from the West to the Eastern markets, and evidence of their former use were plainly seen and smelt. Would our soldiers of today travel in cattle cars? Indeed they would if they knew the Nation was in imminent danger of invasion as Washington was when our orders came to march. Yesterday the papers stated that several regiments would be delayed in going to their allotted camps for the reason that not enough sleeping cars were available. Does a Civil war veteran remember seeing the inside of a sleeping car during the four years of that war? I know that our regiment slept on the side walk at the railroad station in Baltimore the first night after we left Jersey and it rained most of the night. The second night we lay on East Capitol Hill in Washington and that night it was also rainy and we had no tents. Our breakfast we got at the government saloon and consisted of two hardtack and a cup of coffee. Our uniforms were streaked with mud from our bed room, which was the whole District of Columbia. We were in active service, right from the first day after leaving home. We are glad that our soldier boys will be much better taken care of, for treatment such as we received soon fills the hospitals, but I did not start to write of our own experience while in Uncle Sam's service.

To those that wish to send little comforts to our boys we would say: Make only small and light articles, for every ounce added to this is a clog to the soldiers feet and detracts from his efficiency. Our first march was for five days and before it ended every extra ounce had been thrown into some wayside ditch or into the pines. Extra cartridges went first and little soapcakes and clothes followed.

I know that my knapsack seemed filled with lead and the extra twenty cartridges in my pockets seemed to weigh five pound each, so we say to all: Make your gifts to our soldiers very light, for on the long march every ounce counts and every extra ounce will be thrown away. The writer bought a very fine revolver for which he paid \$12.00, carried it two days and nights in a forced march, tried in vain to sell for 50 cents and then threw it out on the pines. Again we repeat: Make your gifts light or they will be worse than useless to our soldier boys!

WITH UNCLE SAMS MEN AT THE RADIO

It gives us pleasure to announce the promotion of William H. Day, Chief Machinists Mate, to the warrant rank of Machinist. We all rejoice in this promotion and extend to Day our heartiest congratulations and wish him much success throughout his continued career in the U. S. Navy.

Pvt. Jennings, Burhams and Zabriski who left this station last May for volunteer service in France have been promoted to Corporal.

Doc VanGausbeek is the head of the house now. Father-in-law is away, and he can sit at the head of the table; gets the extra rations too. Thats Doc motto, Plenty to Eat.

First Sergeant Paul F. Howard spent five days in Brooklyn celebrating his 5th birthday. He wont tell what number that birthday was; but we have every reason to assume that it takes three figures to number it.

Trunkey, we know you like the high life at Cafe L-Aigon in Philadelphia; but they dont use oyster forks to handle roast beef there. Remember it, next time.

The Reserves have proclaimed themselves to be Chess Champions and announce they would like to enter some contests with outsiders.

George C. Schnitzer, Electrician, is now residing in the Jones Bungalow on Water street.

Our Kestueky boy Bolton, has been promoted to Quartermaster Sergeant.

Orestine, the English instructor, is just starting a class in correct English. Enroll immediately if you want complete instructions.

William G. Pinnix, Yeoman, formerly of this station was recently married to Miss Lillie Johnson, of Manahawkin. Our heartiest congratulations to this newly married couple.

Under the instruction of Archart the Reserves are becoming good Regulars. They all have Tuckerton girls now but Norcross; he is still a wrist-watch lad.

Food Will Win The War

State Organized Franklin W. Fort at Toms River Last Saturday.

The Food Conservation Campaign was opened in Ocean County last Friday at a meeting at the Court House, Toms River. County Administrator, F. R. Austin, presided and stated that he had met with hearty co-operation in every town he had started the work.

State organizer Franklin W. Fort was at the meeting and gave an inspiring talk on food conservation.

Mr. Fort gave a brief history of the life of Herbert C. Hoover, who is at the head of this great movement. Among other things he said about Mr. Hoover was the fact that he was serving the country without salary likewise all his helpers. Several men whose salaries amounted to several thousand dollars each year have left their positions to serve the country in this way.

Must Feed Allies or Pay in Human Flesh and Blood

In his talk Friday Mr. Fort stated that if America would feed the Allies the war would probably be won by the time the United States was ready to fight but AS SURE AS THE ALLIES WANT FOR FOOD JUST AS SURELY WILL OUR COUNTRY HAVE TO FIGHT AND PAY IN HUMAN FLESH AND BLOOD.

A Food Conservation Pledge Campaign will be held all over the United States from October 28 to November 4th.

dark syrup for hot cakes and waffles without butter or sugar. Do not stint the use of sugar in putting up fruits and jams. They may be used in the place of butter.

Vegetables and Fruits.—We have a superabundance of vegetables. Double the use of vegetables. They take the place of part of the wheat and meat, and at the same time are healthful. Use potatoes abundantly. Store potatoes and roots properly and they will keep. Use fruits generously.

Fuel.—Coal comes from a distance and our railroad facilities are needed for war purposes. Burn fewer fires if you can get wood, use it.

GENERAL SUGGESTIONS

Buy less; cook no more than necessary; serve smaller portions.

Use local and seasonal supplies.

Patronize your local producers and lessen the need of transportation.

Preach and practice the "gospel of the clean plate".

We do not ask the American people to starve themselves. Eat plenty, but wisely and without waste.

Do not limit the plain food of growing children.

Do not eat between meals.

Watch out for the waste in the community.

You can yourself devise other methods of saving to the ends we wish to accomplish.

Under various circumstances and with varying conditions you can vary the methods of economizing.

FARMERS OF OCEAN COUNTY A CALL TO YOU

With the most devastating war of all ages cast upon us, with the cry from humanity calling for food, the whole world looks to the United States—and Ocean County—to furnish and keep up the supply to help save millions of men, women and children from starving.

The Government through the Federal Land Bank, which has been established to help the farmers, stands back of you to furnish you money, to improve four farms and grow more crops.

The Ocean County Farm Loan Association with its office at Barnegat, N. J., W. H. Spangler, secretary, will furnish you money for your farm improvements on a long time loan at 5 per cent. This loan may run for a time of five to forty years.

Through this association, every farmer and tiller of the soil may get a loan of 70 per cent. of the actual valuation of his farm.

The Association extends the hand of welcome to all. We want Ocean County farmers to take their places among the leading farmers of the country. Instead of being the least productive County in the State, we want to see, within the next few years, Ocean County farmers producing their share of the crops.

Therefore we extend the invitation to every farmer who is in need of money to, in any way, improve his farming conditions to apply for a loan through the association.

Farmers of Ocean County, the Government wants you to join the Ocean County National Farm Loan Association that you may get the money you need to put your farm in its proper condition, that you may be able to help produce the surplus supply of foods so much needed.

There are hundreds of millions of dollars waiting for farmers to borrow Ocean County farmers should have their share. Write the secretary for application Loan Blanks.

Their Seasons Mixed.

Some men went to make hay in February and cut ice in August.

Our problem is to feed our Allies this winter by sending as much food as we can of the most concentrated nutritive value in the least shipping space. These foods are wheat, beef, pork, dairy products and sugar.

Our solution is to eat less of these and more of other foods of which we have abundance, and to waste less of all foods.

Bread and cereals—Have at least one wheatless meal a day. Use corn, rye, barley or mixed cereal rolls, muffins and breads in place of white bread certainly for one meal and possible for two. Eat less cake and pastry.

As to the white bread, if you buy from a baker, order it a day in advance; then he will not bake beyond his needs. Cut the loaf on the table and only as required. Use stale bread for toast and cooking.

Meat.—Use more poultry, rabbits, and especially fish and sea food in place of beef, mutton and pork. Do not use either beef or pork more than once daily, and then serve smaller portions. Use all left over meat cod or in made dishes. Use soups more freely. Use beans; they have nearly the same food value as meat.

Milk.—Use all of the milk, waste no part of it. The children must have whole milk; therefore use less cream. There is a great waste of food by not using skim or sour milk. Sour milk can be used in cooking and to make cottage cheese. Use butter-milk and cheese freely.

Fats—butter, lard, etc.—Dairy butter has food values vital to children therefore use it on the table as usual, especially for children. Use as little as possible for cooking. Reduce the use of fried foods to reduce the consumption of lard and other fats. Use vegetable oils, as olive and cottonseed oil. Save daily one third of an ounce of animal fat. Waste no soap; it contains fat and the glycerine necessary for explosives. You can make scrubbing soap at home, and in some localities you can sell your saved fats to the soap maker, who will thus secure our needed glycerine.

Sugar.—Use less candy and sweet drinks. Use less rubar in tea and coffee. Use honey, maple syrup, and

ACHIEVEMENTS OF "WAR SESSION" OF CONGRESS

Leaders Declare Work Done Is Most Remarkable in Par- liamentary History.

HARMONY MADE A FEATURE

Lack of Disension Was Noticeable—
Administration Was Defeated on
Only One Important Bill Dur-
ing the Six Months.

IMPORTANT BILLS PASSED IN SESSION

Here are the most important
measures passed by congress at
the special war session:

- Declaration of war against
Germany on April 6.
- War bond issues aggregating
\$15,538,000,000.
- War appropriations and con-
tract authorizations totalling
\$14,390,000,000.
- War loans aggregating \$7-
000,000,000 to the allies.
- The selective draft bill, mak-
ing 10,000,000 men liable to mili-
tary service.
- The espionage bill, including
the embargo provision.
- The \$2,235,000,000 war re-
venue bill.
- The food control bill.
- The trading with the enemy
act.
- The soldiers' and sailors' in-
surance bill.

Washington.—"The most remarkable
session in the parliamentary history
of the world," was the way Demo-
cratic and Republican leaders charac-
terized the first war session of the
Sixty-third congress, which came to a
close at three o'clock in the afternoon
of October 6, exactly six months after
the declaration of war against Ger-
many.

The record of legislation enacted
and money appropriated has no paral-
lel anywhere in the annals of all time.
Beginning with the declaration of
war against Germany in April, con-
gress has passed bill after bill of the
most revolutionary character, includ-
ing such measures as the draft bill
and the food control bill. Appropria-
tions and contract authorizations for
the present fiscal year, totalling \$21-
390,000,000, including \$7,000,000,000
in loans to the allies, were voted with-
out a single dissenting voice, a record
equaled nowhere, not even in the
kaiser-dominated German reichstag.

How Money Is Expended.
The following table shows how the
money is to be spent:

Army	\$8,211,000,000
Navy	1,475,000,000
Merchant shipping fleet	1,888,000,000
Loans to the allies	7,000,000,000
Defense fund for 1918	100,000,000
President	100,000,000
Food and fuel control	178,000,000
Soldiers' and sailors' insurance	175,000,000
Interest on bonds and certifi- cates	300,000,000
Civil establishment of govern- ment	83,000,000
All other expenses	102,000,000

As a part of the scheme of meeting
these enormous expenditures congress
passed the \$2,235,000,000 war revenue
bill, the largest taxation bill in Ameri-
can history, levying directly or in-
directly upon every man, woman and
child in the United States. Something
more than a billion dollars of this
amount will be taken from war profits.
All incomes more than \$1,000 for sin-
gle men and more than \$2,000 for mar-
ried men are made subject to taxation.

Where New Taxes Fall.
Here are some things upon which
the average citizen will pay taxes un-
der the new war tax bill:

- Approximately 2 per cent increase
on incomes of \$5,000 or less.
- Letter postage, except local letters,
increased to 3 cents and postcards to
2 cents, beginning November 3.
- One cent for each 10 cents paid for
admissions to amusements.
- Five-cent shows and 10-cent outdoor
amusement parks exempted.
- Ten per cent on all club dues of \$12
a year or more.
- One cent for each 25 cents paid for
parcel post.
- One cent on each 25 cents express
package charge.
- Three per cent of all freight charges.
- Eight per cent of passenger fares by
rail or water, except trips of less than
30 miles.
- Ten per cent of charges for seats,
berth and staterooms on parlor cars
or vessels.
- Five cents on each telegraph, tele-
phone or radio message costing 15
cents or more.
- Three per cent on jewelry.
- Eight cents on each \$100 of life in-
surance. The tax on whisky has in-
creased from \$1.10 a gallon to \$3.50.
The tax on beer is increased from \$1.
a barrel to \$2.75.
- Increased tax on cigars, cigarettes
and manufactured tobacco and snuff.
- Little Disension During Session.

Despite pacifist activities, the ses-
sion was marked with comparatively
little disension, the fighting centering
about questions mainly affecting pol-
icy. The most stubborn contests were
staged over the revenue bill, the draft

white paper issued by Great Britain.
The paper is of interest to Americans,
inasmuch as it is almost entirely with-
in the basis of a similar agreement
between the United States and Ger-
many. The conference at which the
agreement was reached was held at
The Hague.

An arrangement was made whereby
the Netherlands government undertook
to care for 10,000 British and German
combatant or civilian prisoners of war,
the respective governments of these
nationals to refund all costs of intern-

ment and to furnish materials neces-
sary for the construction and upkeep
of the camps, for medical attention,
and for the victualing and clothing of
the internees.

Among the provisions of the agree-
ment is one whereby the British gov-
ernment will permit the German medi-
cal personnel originally belonging to
the German garrison at Tsing-tao,
China, and now in the United States,
to return to Germany by sea if they
are permitted by the American govern-
ment to do so.

WASHINGTON.—A Rome despatch
to the Italian Embassy announced
that an Austrian torpedo boat de-
stroyer had been captured by the
Italians in the Adriatic. The Austrian
vessel surrendered without firing a
shot.

PETROGRAD.—The reorganized
government of Russia pledges its full
support to the Allies' cause.

ROME.—The Italian government re-
fused to surrender Alfredo Cocchi to
the United States for trial for the
killing of Ruth Granger in New York.

PEKING.—China, replying to the Al-
lies concerning China's entry into the
war, thanks the Allies for their posi-
tion of payment of the Boxer in-
demnities and promises to give facili-
ties for unlimited supplies to the Al-
lies and for recruiting skilled labor.

AMSTERDAM.—The German For-
eign Secretary Dr. von Kuhlmann, is
proceeding at an early date to Vienna,
Budapest, Sofia and Constantinople.
His mission is important politically.

my and navy for school purposes.
Acts enlarging the membership of
the Interstate commerce commis-
sion and amending the act to regulate com-
merce by authorizing priority ship-
ments by any common carrier, etc.

Act appropriating \$11,346,000 to pro-
vide further for the national security
and defense by stimulating agricul-
ture and facilitating the distribution of
agricultural products.

Act appropriating \$162,500,000 to
provide further for the national security
and defense by encouraging the pro-
duction, conserving the supply and
controlling the distribution of food
products and fuel.

Act to authorize an additional issue
of bonds to meet expenditures for the
national security and defense and, for
the purpose of authorizing in the
prosecution of the war, to extend ad-
ditional credit to foreign governments,
and for other purposes. This act makes
an additional appropriation of \$4,021-
377,890.92 to extend credit in the United
States for foreign governments by
purchase of bonds of our allies and ex-
penses incident to preparation of an
issue of bonds and certificates; au-
thorizes an additional issue of \$4,000-
000,000 of bonds to meet loans to for-
eign governments; authorizes an ad-
ditional issue of one year certificates of
indebtedness amounting to \$2,000,000,
and an issue of five year war sav-
ing certificates amounting to \$2,000-
000,000.

New Mark Again Set.
Act appropriating \$5,356,096,016.93
to supply deficiencies in appropriations
for the fiscal year 1918 and prior years
on account of war expenses and for
other purposes, and authorizes con-
tract obligations to be met by future
congresses amounting to \$2,401,458-
393.50. This is the largest appropria-
tion act passed by this or any other
country. This act makes further ap-
propriations of \$635,000,000 for the
emergency shipping fund and raises
the limit of cost to carry out the pur-
poses of the shipping act to \$1,734-
000,000.

Act to define, regulate and punish
trading with the enemy and for other
purposes, and appropriate \$450,000 to
enforce the provisions thereof.

Act to provide revenue to defray war
expenses. This measure provides ap-
proximately \$2,500,000,000 of revenue
with which to pay the expenses of the
government.

Act to provide a military and naval
family allowance, compensation and
insurance fund for the benefit of sol-
diers and sailors and their families,
and makes an appropriation therefor
of \$170,250,000.

Concluding with an allusion to the
general situation, Mr. Asquith said:
"We have no reason to lose heart or
hope. During the last fortnight our
unconquerable troops have been doing
great things both in Flanders and
Mesopotamia. There is still need of
economy and good organization in the
consumption of necessary commodities,
but not the slightest danger of our
being starved into submission."

"Take the Allies as a whole, includ-
ing America, whose contribution to
the common stock becomes every
month a factor in the growing cer-
titude—survey the relative powers of
endurance of the two sides, measure
them by any standard, naval, mili-
tary or economic, and after you have
made allowance for every dubious or
hazardous contingency, even for the
temporary paralysis of Russia as an
aggressive force, can there be doubt
that the material, no less than the
moral, preponderance rests manifestly
and increasingly with our cause?"

BRITISH EXTEND THEIR FRONT.
Take Another Big Slice in Flanders,
Capturing 500 Germans.

London.—Charging at dawn through
a sea of mud and slime, the British
resumed their drive in Flanders. Their
attack was crowned with complete
success.

In the first hour of the new offen-
sive, the third to be launched in the
same sector within eight days, the at-
tackers wedged themselves nearly
1,000 yards into the German positions.
The attacking front was 518 miles
long, stretching from Houtholst Wood,
where the British and French lines
join, down to a point south of the
Ypres-Roulers Railway.

Unless the German high command
can muster tremendous reserves and
supply their guns with far more am-
munition than they have expended in
the past week they can continue these
short punches from the shoulder un-
til he has gained all points necessary.

WASHINGTON.—President Wilson
said today that he had called for the
loan which will show Germany that
America is determined to win the war.

BROOKLYN.—Damage estimated at
nearly \$2,875,000 was caused by the
following series of fires that started in
Brooklyn and vicinity: Dow's Stores,
Pacific street and East River, Brook-
lyn, owned by the New York Dock
Company, \$2,000,000; the Charles Wil-
liam Stores, John and Jay streets,
Brooklyn, \$500,000; Oakland Golf Club,
Bayside, L. I., \$100,000; British Ameri-
can Chemical Co., Flushing Bay.

BALTIMORE.—Every person in
America must uphold the President
"to bring success to our arms" in the
war against Germany, declares Car-
dinal Gibbons in accepting the office
of honorary chairman of the League
For National Unity.

WASHINGTON.—Soldiers in the va-
rious camps have subscribed for \$6-
000,000 worth of the Liberty Loan with
an enthusiasm which shames civilians
who have neither enlisted nor invested.

BOSTON.—The Boston Retail Gro-
cers' Association has voted to charge
at least 5 cents for every delivery of
an order of less than 50 cents.

MONTEVIDEO, Uruguay.—One hun-
dred thousand persons participated in
a great demonstration here in favor of
the Entente Allies and in approval of
the Government's rupture with Ger-
many.

WASHINGTON.—A Rome despatch
to the Italian Embassy announced
that an Austrian torpedo boat de-
stroyer had been captured by the
Italians in the Adriatic. The Austrian
vessel surrendered without firing a
shot.

PETROGRAD.—The reorganized
government of Russia pledges its full

with which to pay the expenses of the
government.

Act to provide a military and naval
family allowance, compensation and
insurance fund for the benefit of sol-
diers and sailors and their families,
and makes an appropriation therefor
of \$170,250,000.

Concluding with an allusion to the
general situation, Mr. Asquith said:
"We have no reason to lose heart or
hope. During the last fortnight our
unconquerable troops have been doing
great things both in Flanders and
Mesopotamia. There is still need of
economy and good organization in the
consumption of necessary commodities,
but not the slightest danger of our
being starved into submission."

RESTORED ALSACE AGAIN DEMANDED

Mr. Asquith Says If It Is To Be a Contest of Endurance Allies Are Bound to Win.

AMERICA ASSURES TRIUMPH

Declares "England Will Stand by

Allies Have to Deal With Berlin.

London.—Premier Lloyd George, ad-
dressing a delegation of insurance
committees, which called to urge a
readjustment of health insurance and
the establishment of a Ministry of
Health, said that all the nation's
thoughts and energies were taken up
by the terrible demands made in de-
fense of liberty. He wished he could
see the end, but the task which the
nation had taken in hand must be
completed.

The Premier said he could not think
of any statement more calculated to
prolong the war than the assertion
of the German Foreign Secretary, von
Kuhlmann, that Germany would never
contemplate the making of concessions
to France respecting Alsace-Lorraine.

However long the war lasted, said
Mr. Lloyd George, England intended
to stand by her gallant ally, France,
until she had freed her oppressed chil-
dren from the degradation of a foreign
yoke. This meant that the country
must husband its resources, and when
demands were put forward for im-
provements here and there, his answer
was: "Concentrate upon victory."

For the moment every claim upon
the exchequer must be considered in
the light of the terrible possibilities
of the war, and when the war was
over, in a freer, happier atmosphere
the country could begin to reconstruct
and regenerate.

HELP RAILROADS IN WAR SERVICE

Co-operation of Shippers and Traveling Public Contributes to Efficiency.

PASSENGER TRAFFIC IS CUT

Thousands of Train Crews and Locomotives Thereby Released for Hauling Freight Needed by the Government.

Chicago.—Reports just compiled for the railroads' war board indicate that the traveling public in general and the shippers in particular are giving the finest kind of co-operation to the railroads in handling the increased traffic that the war has produced. What this co-operation means may be gleaned from these facts:

Since May 1 the railroads, aided by the loyalty and understanding of the public, have been able to reduce their passenger service by approximately 25,000,000 miles. This has released thousands of train crews and locomotives for use in the freight service and cleared thousands of miles of track, thereby facilitating the movement of coal, food products and supplies needed by the government.

In addition to the foregoing saving of equipment and trackage, the shippers, big and small, have rallied so splendidly to the slogan, "Make one car do the work of two" that a saving of close to half a million freight cars has been accomplished. This saving of freight cars has enabled the railroads to move approximately 25 per cent more freight since war was declared than during the same period last year.

Intensive Loading Helps.
 Intensive loading and a general increase in the size of the "trade units" used by the various industries has rendered possible the saving of car space. Cotton, for instance, which was formerly moved in units of fifty bales, now moves only in units of 65 and 75. As there are 18,000,000 bales to be moved by rail each season, the increase in the trade unit in this one commodity alone has produced a saving of anywhere from 83,000 to 125,000 cars. Sugar, on which the carload minimum from the South was formerly only 24,000 pounds per car, now moves only on a 40,000-pound carload minimum. The producers of manufactured food products, especially the canners, have also come to a realization of the value of intensive loading and are now loading virtually all of their cars to capacity. Coal, which has been loaded beyond capacity on most lines since the beginning of the war, is also moving freely now, although labor troubles in some parts of the country is tending to counteract the efforts of the railroads to meet the abnormal demand for fuel. During the past month the supply of cars on the "lake coal" lines has been increased 25 per cent and there has

been a corresponding increase in the movement of bituminous coal to the lake ports, but it has not been proportionate to the increased supply of cars, as labor trouble has tended to decrease the mine production.

Renewed Efforts Necessary.
 Although excellent results have been achieved to date through the co-operation of the shippers, the traveling public and the railroads, it will be necessary for all concerned to exert renewed efforts, as the abnormal demands upon the railroads in the movement of both troops and supplies is constantly increasing, while the securing of new equipment is virtually impossible. From now on 2,500 cars a day will be required by the government to move food and supplies to the men in training at the National Army, National Guard and other encampments, while the demand of the allies for cars to carry export goods to the seaports will be practically doubled. All of this additional traffic must be moved by the railroads, although they have only 3 per cent more equipment than they had at this time last year.

SQUIRRELS HAVE WAR CROP

When Green Peanuts Were Given Them in Madison They Planted Them.

NEW WAY TO CATCH MONKEYS

Natives Put Gum in Shoes and Then Wait for Simians to Try Them On.

Washington.—In tropical countries the natives have many unique ways of catching monkeys. One of them, as explained by a traveler, is this: The hunters walk about in short boots in sight of the monkeys. Then they take the boots off, place some gum in the bottoms and leave them on the ground, withdrawing themselves to a great distance. Presently the monkeys come down from the trees and try on the boots, and when the hunters come after them the boots stick to the feet of the monkeys, and they are unable to climb. Thus the initiative little animals are captured.

MUCH IN LITTLE

The library of the house of lords contains about 60,000 volumes. In normal times the Transvaal mines are the largest consumers of explosives in the world. Germany expects to complete in 1925 a canal 140 miles long between the Main and Danube. One hundred and thirty-two million dollars was the latest demand to carry on the work. Bible study is the most popular of the many activities of the missionary club for the boys at Sfax, Tunis, composed of street waifs among the Mohammedan population. Waste and illegitimate profits in other foods amounts in addition to more than \$1,000,000,000 annually, according to officers of the national conference on marketing and farm credits. For two years Wisconsin has been fighting forest fires by airplane instead of from watchtower. It is said that at a height of 1,500 feet an aviator can locate a forest fire 60 miles distant. Exports of Philippine leaf tobacco in 1916 soared over previous high record by several million pounds, reaching a total of nearly 40,000,000 pounds for the year. The best kind of ebony is yielded by the diospyros ebenum. This tree grows in Ceylon and Southern India. There is no doubt that this wood was imported from these places by Phoenician traders.

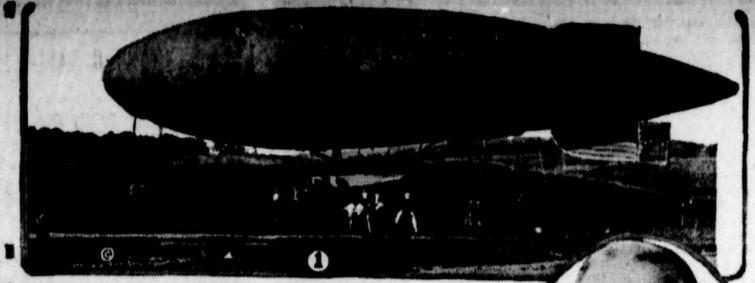

Throws Away Mangled Arm.

Martins Ferry, O.—His arm almost severed by a train, H. Armstrong of Butler, Pa., remarked that it was of no use to him, and, tearing loose the stump of flesh that was holding it, threw the arm into the weeds beside the Cleveland and Pittsburgh railroad tracks at Bridgeport the other day. The accident occurred in Kirkwood. Armstrong was struck by a train and when found by pedestrians was covered with blood. He was taken to the Martins Ferry hospital.

DOVES PROVE TO BE SLACKERS.

The Old Fort Homing club of Fort Wayne sent a number of carrier pigeons to Los Angeles, says the Los Angeles Times, in order to get them in training for military service. A few days ago Chief of Police Butler released the birds, intrusting each with a tiny roll of tissue paper, bearing messages from the mayor to officials of the Indiana city. Six of the birds have not been heard from, and it is probable that they are happy on their way back home. Two of them, however, refused to be drafted and returned to the central police station, where they were caught and placed in a crate. Los Angeles is pigeons' paradise, but this is no time for doves of peace, it seems. The birds lost more than they gained by their desertion. Such is the fate of slackers.

TILLABLE LAND.

The department of agriculture estimates that only about 27 per cent of the tillable land of the country is actually under cultivation. Sixty per cent of the total area of the continent of the United States, or 1,140,000,000 acres, is tillable, or capable of being brought under cultivation. This includes large areas not yet declared, but sure to be in the future. An additional 19 per cent of the whole, or 390,000,000 acres, is regarded as valuable for grazing or for fruits, though not for crops.

NO HOME REMINDERS.

"How do you think you'll feel when you hear the shells screaming continually on the front?"
 "My dear man, you never had a baby that indulged in the colic all night, or you wouldn't ask."

An Imitation Takes For Its Pattern the Real Article

There was never an imitation made of an imitation. Imitations always counterfeit the genuine article. The genuine is what you ask for, because genuine articles are the advertised ones. Imitations are not advertised, but depend for their business on the ability of the dealer to sell you something claimed to be "just as good" when you ask for the genuine, because he makes more profit on the imitation. Why accept imitations when you can get the genuine by insisting?

Refuse Imitations.
Get What You Ask For!

If Your Business

Isn't Worth Advertising

One of the strangest things in advertising or in printing is that a man will start out with the intention of having the best job done. He will find, let us say, that it is going to cost \$100, but that by advertising a little bit he can get it for \$100. Taking that 90 of the price and out of the quality is just like taking the edge off a knife. You can get some cheap with a dull knife, but there are some things you can't cut with it, and you can't cut anything as quickly, smoothly, cleanly and thoroughly as you can with a sharp knife. Advertising ought to have a razor edge, even if it does cost a little bit for grinding. It ought to be keen enough to enter the brain of greatest resistance.

It is the last few dollars that are spent on advertising that give it value. It is the last pound of power that lifts a weight. If you can get a strain of 1500 pounds to break a weight, 999 pounds wouldn't do you good. You can spend 999 pounds on it, and leave off just when you started. If you want to break that chain you will have to spend those 1000 pounds over again and add the other pound to it after all.

It would have been better to have paid 1000 pounds at the start. It is better to spend \$100 for a thoroughly effective broadcast than to spend \$100 for one that is inefficient.—Shoe and Leather Trade.

It is no use advertising unless you have the Goods, and no use having the Goods unless you advertise.

LONG BEACH TOWNSHIP

Notice of Sale For Delinquent Taxes For the Year 1916

Public notice is hereby given by H Earle McConnell, Collector of the Township of Long Beach, in the County of Ocean and the State of New Jersey, that on the 30th of October, 1917, at 1 o'clock P. M., at the Township Hall, 16th Street and the Boulevard, North Beach Haven in said Township, he will sell at public auction each of the following described lands or parcels of real property together with the tenements and hereditaments thereunto belonging, or any part thereof sufficient for the purpose, to such person as will purchase the same for the shortest term and pay the tax lien thereon, including interest and cost of sale or in fee where no one will bid for a shorter term, payment to be made before the conclusion of the sale or the property to be re-sold.

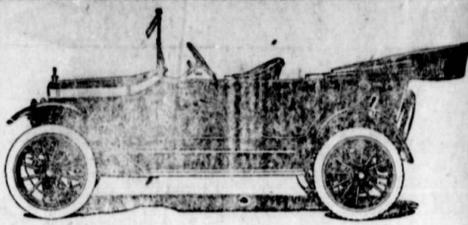

The said lands, tenements, hereditaments and parcels of real property so to be sold, the delinquent owners thereof and the amount of the delinquent taxes thereon are as follows:—

The Owl Valuable to the Farm.
Do you know a monkeyface owl when you see one? Perhaps you know it as the barn owl. Anyhow, if you see one hanging around don't kill it. It's worth six or eight cats to you on the farm or suburban place, according to the state biologist of Washington.

How Moving Signs Work.
In a general way, the mechanism of a moving electric sign is like the old-time music box drum, filled with pins. As the drum revolves the pins make the contacts at determined intervals, and the illusions of revolving circles of light, bird effects and designs almost without limit are produced.

A Boy on Ship.
Ships are useful for going to foreign countries to teach savages how to dress. If there were no ships people would not go to the museum to see models. Sailors are very busy men and are always chewing tobacco to prevent seasickness. Poets get ailing with writing about ships.

To Treat a Cold.
Camphor is excellent for colds and should be taken in this manner: A drop or two of camphor should be dropped on a lump of sugar which should be placed in a small wineglass of water and a teaspoonful of this mixture taken every two hours.

Matches of Hemp.
In the use of early firearms a match consisted of a cord of hemp or similar material treated with niter so that it continued to smolder after it had been ignited. The match was attached to the cock of the musket and brought down by the action of the trigger on the powder priming.

Authors Are Taciturn.
Odd as it may seem, it is among authors that the greatest amount of taciturnity is recorded. Thomas Carlyle was one of the most silent men of his time. The late Lord Tennyson was equally ready to allow his poems to speak while his tongue kept silent.

Very Appropriate.
A certain theater in Canada had a soloist whose ability was more or less doubtful. One evening after she had finished "executing" a solo and agonizing the audience the lights went out and this title of the first picture was thrown on the screen. "It Might Have Been Worse."

The Reformed!
"And why did you reform and become a poor, but honest mechanic, when you were the most skilled safe-opener in the world?" we asked the former crackman. "I tried to open a window in a railroad coach one day," was the reply, "and my failure took all the heart out of me."

For Whooping Cough.
Thin slices of onions or cloves of garlic worn on the soles of the feet (between two pairs of socks, to prevent irritation) are a remedy for whooping cough highly esteemed in some parts of England and Canada.

Put Stick in Knot.
When tying a knot in rope which must stand much strain, put a stick of soft wood in the knot for it to close on. When you want to untie the knot break the stick and pull out both ends. Your knot can be easily untied.—Farm and Fireside.

Horrible Example.
Rural Aunt—"Doesn't the water act queer?" Dasher—"Decidedly so; I believe the fellow is tipsy." Rural Aunt—"Dear me; he must be one of the victims of that tipping habit I've read so much about."—Puck.

Homelessness Explained.
Mr. Fitznoodle was asked the other day how he could account for nature's forming him so ugly. "Nature was not to blame," said he. "When I was two months old I was considered the handsomest child in the neighborhood, but my nurse swapped me away for another boy just to please a friend of hers whose child was rather homely looking."

Living in Hopes.
"My father is 'most a millionaire," said small Jessie. "What is that?" asked the little daughter of the landlady, who was helping her make pies. "Well, I don't 'zactly know," said Jessie. "But when mamma bought a new carpet for the library papa said, 'What did you do that for? I ain't quite a millionaire.'"

Where Your Breakfast Comes From.
Brazil, using only a small fraction of the land adapted to coffee cultivation, produces three-fourths of the world's coffee supply—over a billion and a half pounds yearly. Enough sugar is produced in one province of Argentina to sweeten this giant coffee cup. The province of Tucuman yields nearly 5,000,000 pounds of sugar a year.—World Outlook.

Striking a Balance.
If when people are charged with their faults they were credited with their virtues, there would be more good neighbors in the world.

More Important.
"Our popularity depends upon how well we treat our friends," said the Parlor Philosopher. "And how often," added the Mere Man.—Judge.

The Big Eater.
He (respondingly)—"My dear, we really must economize. Now, what can we get along without?" She—"I really don't know, Frank, unless it's your appetite."

Ho, Hum!
"It must be wonderful to be famous," said the optimist. "Shucks!" responded the pessimist. "Fame is merely a pedestal on which the victim is placed so that the world will have a better chance to throw mud at him."

NOTICE OF ELECTION

NOTICE IS HEREBY GIVEN THAT A PRIMAR ELECTION will be held in Ocean County on Tuesday, September 25, 1916

for the nomination by a direct vote of the people of candidates for Sheriff, Surrogate, two Coroners, County Collector, Member of General Assembly, and borough and township officials, the latter pursuant to the calls of the several boroughs and township clerks to be voted for at the general election to be held on Tuesday, November 6th, 1917, and also to elect members of the State and County Committees of the two political parties entitled under the law to hold official primaries.

Notice is hereby given that an election will be held in Ocean County on TUESDAY, NOVEMBER 6, 1917 at which candidates for Member of General Assembly, Sheriff, Surrogate, two Coroners, County Collector, and borough and township officials, the latter pursuant to the calls of the several borough and township clerks, will be voted for.

In Municipalities Under 5000. In pursuance of the provisions of the election laws of the State, notice is hereby given to the voters of municipalities in the county of Ocean having less than 5000 inhabitants that the Boards of Registry and Election will meet for organization on the 4th day of September, 1917, at places within their respective election districts to be designated by the members of such Board, or a majority thereof.

That said Boards of Registry and Election shall also meet on the second Tuesday of September (September 11, 1917), and shall make up the registry by a house to house canvass, as now provided by law.

On September 25th, 1917, between the hours of 7 A. M. and 9 P. M. the District Boards in all municipalities shall meet at the place where the general election will be held to conduct a Primary Election and also to revise and correct the registry.

That said Boards of Registry and Election shall also meet on the Tuesday next preceding the general election (October 30th, 1917), from 1 to 9 o'clock P. M., for the final registration of voters. Said meeting shall be held at the place where the general election is to be held, and shall be for the purpose of revising and correcting the original registers, of adding thereto the names of all persons entitled to the right of suffrage in that election district at the next election who shall appear in person before them or shall be shown by the written affidavit to be a legal voter therein and of erasing therefrom the name of any person who after a fair opportunity to be heard, shall be shown not to be entitled to vote therein by reason of non-residence or otherwise.

And notice is hereby given that the County Board of Election will sit at the Court House at Toms River, N. J., from 8 o'clock in the forenoon to 5 o'clock in the afternoon on Friday, September 14th, 1917, for the purpose of revising and correcting said primary registry list.

And notice is hereby given that the County Board of Elections will sit at the Court House at Toms River, N. J., from 8 o'clock in the forenoon to 5 o'clock in the afternoon, on THURSDAY, NOVEMBER 1st 1917 and on SATURDAY, NOVEMBER 3rd, 1917

for the purpose of adding to the various registry lists of the county the names of persons that may have been inadvertently or improperly left off of the registry lists, but any such persons left off the registry lists must apply to the County Board of Elections in person, and present evidence that he is entitled to be placed on a registry list.

Dated at the office of the County Board of Elections, the 25th day of August, A. D. 1917.

Representatives Frequently Derelict in Duty

WASHINGTON.—"Papa, the man down there said they were in committee of the whole, but that isn't all of it, is it?" "No, son. There are only forty-nine present, and there are 435 members."

Right here papa, not being a parliamentarian, was stumped and had to admit it to the boy. Others in the house of representatives gallery wondered with the boy, who unconsciously had displayed a bit of delicious irony at the expense of the nation's lawmakers.

A faithful handful of representatives have been fairly regular in attendance, but by far the great majority have not shown themselves at the capital in weeks.

Notable Gift to United States National Museum

THE United States National museum at Washington has recently received and put on exhibition a notable collection of swords, uniforms and miscellaneous relics of Maj. Gen. George B. McClellan.

The swords, of which there are nine, are perhaps the most interesting feature of the collection. The most striking of these is a gold-mounted sword set with pearls presented to McClellan by a number of citizens of Boston in 1863, in recognition of his services during the Civil war.

The DEEP SEA PERIL by VICTOR ROUSSEAU

THE EDITOR.

This is a weird story of a pseudo-scientific character that concerns the discoveries of an eccentric American naval officer, the faith of a young lieutenant in the soundness of his elder's mind, evidence of the existence of a strange race of undersea beings, amazing adventure during a submarine voyage, and a strong love interest. It is one of the weirdest tales put out since the days of Jules Verne.

CHAPTER I.—The Mad Sea-Captain. Lieutenant Donald Paget, emerging from the navy office in Washington...

"But I brought my specimen home with me, lad!" he exclaimed, clutching at his companion's arm. "Think of that, lad! She didn't want to eat. They don't eat after they're mature, desirable. And so I brought her, and I got her safe to my home, Donald."

"What do you suppose they told me?" "I am inclined to think that you got no further than the porter, captain," replied the lieutenant.

"Right, sir!" exclaimed Masterman, beginning to grow angry again. "And if I were not a man of superhuman patience, combined with inexhaustible tact, singular clarity of mind, and tenacity of purpose—in fact, an obstinate old mule—I should let the human race go hang!"

"What's that? War with the Germans?" "Yes, sir! And, what's more, it does interest me. How the deuce should I know all the gossip and frivolities of the day when I only returned to the capital yesterday?"

"But, my dear captain—gossip and frivolities!" exclaimed the lieutenant. "Surely you have seen newspapers, or heard people talking about it?"

"I tell you I haven't seen or heard anything! I've got more important things to think about. Anyhow, it will have to be stopped at once," said Masterman, half turning.

"That was the end of Captain Masterman's activities so far as the government was concerned. In a final interview the secretary of the navy had said to him: 'Personally I believe in you, Masterman. But it isn't the discoveries that count, it's getting the scientific world to believe in them. I believe in the sea serpent, myself, because I've seen three of them; but I wouldn't dare to admit it, even in my club smoking room, and we can't get you another subsidy.'

The secretary's confession duly appeared in newspaper articles, and the cartoonist illustrated it with a drawing showing him with a sea serpent with three heads. In the course of his explanation, Masterman consigned the entire staff of the navy department to that place where brimstone is unmolten with molasses.

HUSBAND SWALLOWS HER SILVER SPOONS

Philadelphia, Pa.—For several weeks Mrs. Joseph Quinlan had been mystified by the disappearance of numerous articles from her household. She changed servants half a dozen times, but the articles, such as silver spoons and pieces of household hardware, continued to be missed.

Unable to Overcome His Appetite When Tempted. Thirty-four silver teaspoons. One alcohol ether lighter and chain. One padlock. Twelve screen door hooks. One glass medicine dropper. Six ten-penny nails. Thirty-six carpet tacks. Thirteen metal buttons. Six safety pins. Forty pieces printers' type. Thirty-two cast-iron washers. Four souvenir medals. Nineteen screws (assorted sizes). Two hundred and forty-seven Phillips.

The little Belgian town of Ypres is sure enough a place in history; but, in England, at any rate, it will always be specially sure of it under a name which no cloth worker of Flanders ever heard, and would certainly never recognize.

San Francisco.—An acquaintance formed in a boat full of castaways half a century ago bore tangible fruit for Frederick Clough of San Francisco, who has been notified that through the will of Henry Ferguson of Hartford, Conn., he is left a bequest of \$100 a month for the rest of his life.

PACKS LOVE MISSIVE IN ICE. Ardent Message on Cantaloupe Wrapper Finds Way to Heart of Illinois Woman. Calexico, Cal.—Despite the fact that it was sent halfway across the continent packed in ice, an ardent love message on a cantaloupe wrapper found its way into the heart of Miss Rosetta Taylor of Mattoon, Ill.

Testing the Eye. Lecturing on the "Effect on the Eye of Varying Degrees of Brightness and Contrast" before the Illuminating Engineering society recently, Dr. James Kerr of the public health department of the London county council, referred to some effects which may be surprising. Having to examine long lists of figures in black type, he tried to facilitate his task by drawing vertical and horizontal lines in red ink, but the different focusing of the black and red strained his eye and gave him a headache, which did not trouble him when all the figures and lines were either black or red.

Birds Heaviest Eaters. Birds are the heaviest eaters in the animal kingdom. Assuming—which is conservative—that an adult lark consumes fifty grasshoppers a day and that five pairs of larks nest each season on every good-sized farm where they are not persecuted or too much disturbed by the plowing and mowing of all the suitable land, the number of grasshoppers dispatched daily on such a farm means a boon the enlightened farmer must appreciate.

The Difference. Major General (addressing the men before practicing an attack behind the lines)—I want you to understand that there is a difference between a rehearsal and the real thing. There are three essential differences. First, the absence of the enemy. Now (turning to the regimental sergeant-major) what is the second difference? Sergeant Major.—The absence of the general, sir.—London Tit-Bits.

WAS ALL RUN DOWN

Famly Kidneys Caused Acute Suffering. Completely Recovered Since Using Doan's. Mrs. Harry A. Lyon, 58 St. William St., Boston, Mass., says: "Doan's Kidney Pills have surely done me wonderful good. About two months prior to the birth of my baby, I had two convulsions and was taken to a hospital. Doctors said my convulsions were due to my kidneys not working properly."

In Better Standing. "You citizens of Washington, D. C. can't vote!" remarked the visitor. "No. And at that we're entitled to more credit than numerous residents of other cities who could vote if they chose, but who prefer not to interfere with political bosses."—Washington Star.

The Particular Landlord. "I understand the police backed the patrol wagon up to an apartment house in your neighborhood and took out a bunch of disorderly tenants." "Yes. Great world, isn't it? The man who owes that place wouldn't rent an apartment to anyone who had children."

A good looking woman ought to make a successful detective. It is unkind to look a man's religion in the pocketbook.

It hardly seems possible that there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

Mrs. Kieso Cured After Seven Month's Illness. Aurora, Ill.—"For seven long months I suffered from a female trouble, with severe pains in my back and sides until I became so weak I could hardly walk from chair to chair, and got so nervous I would jump at the slightest noise. I was entirely unable to do my house work, I was giving up hope of Lydia E. Pinkham's Vegetable Compound. I took six bottles and today I am a healthy woman able to do my own housework. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound, and find out for herself how good it is."—Mrs. KARL A. KIESO, 596 North Ave., Aurora, Ill.

Cincinnati, Ohio.—"I want you to know the good Lydia E. Pinkham's Vegetable Compound has done for me. I was in such bad health from female troubles that I could hardly get off my bed. I had been doctoring for a long time and my mother said, 'I want you to try Lydia E. Pinkham's Vegetable Compound.' So I did, and it has certainly made me a well woman. I am able to do my house work and am so happy as I never expected to go around the way I do again, and I want others to know what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. JOSIE CORNER, 1688 Harrison Ave., Fairmount, Cincinnati, Ohio.

Didn't Need Them. While a traveler was waiting for an opportunity to show his samples to a merchant a customer came in and bought a couple of night-shirts. Afterward a long black laborer, with his trousers tied below the knees, said to the merchant: "What was them things that chap bought?" "Night-shirts. Can I sell you one or two?" "No, I should think not. I don't sit about much o' nights."

Where the Gender Comes In. Teacher—Willie, how many seconds a minute? Willie—Masculline or feminine? Teacher—Masculline or feminine? What do you mean? Willie—There's a big difference. When you says he'll be down in a minute it's sixty seconds, but when sister Susie says she'll be down in a minute it's six hundred seconds.

Exercise. "Don't you think every man should devote some time to physical culture?" "Not in my particular field of activity," replied Senator Sorghum. "If all legislators went in for physical culture as well as intellectual development some of these debates might end in a personal encounter that really hurt somebody."

THE BUSINESS CRAZE.

"Even the fowls on the farm seem struck with this fever of combination." "I notice that when the ducks hatch their eggs, they start at once to pool the issues."

The Description. "I'm sure you will like him. He has a pleasant personality, an easy flow of conversation and a wonderful fund of information." "What is he?" inquired Miss Alma Cayenne, suspiciously, "a book agent?"

The Greatest Medical Authorities in the World have made public statements in which they endorse the value of such ingredients as are contained in Father John's Medicine.

These great physicians say in substance, that these ingredients "are beneficial notably in wasting diseases and those maladies which are connected with or have their origin in debilitating and wasting diseases and in colds."

To detail here the statements of these various authorities would require too much space, but if you desire to see these statements in more complete form, write to Father John's Medicine, Lowell, Mass., and we will be glad to give the names of the authorities quoted, with brief excerpts from their public statements.

Father John's Medicine is a pure and wholesome body builder, contains no alcohol or dangerous drugs.

A Hard Nut to Crack

Not a Bit of Use. There was some speculation as to whether the instrument would benefit the old gentleman or not. One was holding the ear trumpet, while another was explaining its use and showing old Mr. Shortcath how to hold it to his ear.

"Say something to him through it, Binks," said one to the other.

Now Binks had long waited for an opportunity to reach Mr. Shortcath's ear, so, speaking very distinctly into the trumpet he said:

"You've not paid me that five dollars you owe me yet, Mr. Shortcath."

But the old gentleman put the instrument down with disappointment on his face, and they could see it was a failure even before he had time to say:

"That thing's not a bit of use to me."

And he sighed, but his sigh was not so deep as that which came from Binks.

What Name?

Orestle Wright said at a Dayton dinner:

"The war has developed flying enormously. We'll all fly after the war. Air fleets will then be as thick as motor fleets are today."

"What name shall we give to the air fleet's man? Aeroplane pilot, perhaps? Or would flyboat be better? Maybe we'll call it inflevance. Hold, though! All things considered, wouldn't the best name be skyratica?"

Sure Enough.

The ball had gone over the fence, as balls will in suburban gardens, and a small but unambitious batsman appeared at the front door to ask for it.

Then appeared an irate father.

"How dare you show yourself at my house? How dare you ask for your ball? Do you know you nearly killed one of my children with it?"

"But you've got ten children," said the logical lad, "and I've only got one baseball."

Improves With Age.

Kitty—Jack told me last night that I was the prettiest girl he'd ever seen.

Kitty—I know that; but as one grows older one's taste improves, you know.

Insulting Impossibility.

THERE'S NO DOUBT ABOUT POSTUM AS A HEALTH IMPROVEMENT OVER COFFEE

ODD GIRDLES USED

Are Designed to Take the Place of Draperies on Skirts.

Some of Them Closely Resemble Little Waistcoats Formerly Worn as Suit Accompaniment.

In designing skirts for fall and winter, platted and straight-line effects are shown in far greater number than are the draped skirts. Virtually the only kind of drapery featured consists of low placed loops on either side, with the skirt proper narrowing to the hem.

Odd girdles and belts are designed to take the place of draperies, and in addition to the clever Spanish girdle here shown, another is the "waistcoat" girdle. This closely resembles the little waistcoats that were shown by some dress accessory designers during the past season as suit accompaniments. Of course when designed as part of a skirt it is attached to and becomes a part of the skirt. It slopes up each hip and is cut in points in front. Frequently two rows of buttons are set on to give a double-breasted appearance, and again a single row of buttons centering the front of the girdle aids in the waistcoat simulation.

The actual fastening of the girdle is at one side. Usually it is equipped with one or two tiny "change" pockets.

Another odd and very attractive girdle shown on one side of the new satin skirts is a 6-inch wide section of the fabric laid in very fine knife plaits.

Rows of stitching hold it in the center, and at the upper and lower edges it flares. Of course a girdle of this kind could be worn becomingly only by a very slender woman, where the rather than curve was the dominant note.

Plaids and stripes are being used extensively in the development of

The Spanish Girdle.

sport skirts, and one of the popular fabrics is a plain color with border stripes.

Black satin skirts are to be extremely smart, and these are often of the two-tier type, the skirt consisting of two wide flat platted ruffles of equal width.

LAMP SHADE BAG IS NOVELTY

When Properly Constructed It Can Be Made to Look as Though It Came From the Orient.

Bags have come to be important accessories of dress. Nowadays a woman has as many bags as a man has pockets; but, of course, she is privileged to carry but one bag at a time. The creative ability has surely been overworked by some persons, according to the variety of the bags seen on the market. There is scarcely a shape, a material, a design or a combination of colors that has not been brought into service.

The novel thing of the moment is the lampshade bag. This, as its name implies, is made of a lampshade, the wicker variety. The shade, of course, is inverted, the narrower end forming the bottom of the bag. The inside of the shade is lined with silk of any color one prefers—the handsome figured silks are very good for the purpose. Allow sufficient silk to form a deep bag. If the shade is not very deep the silk can make up for what the shade lacks in depth. Finish the top with a hem and through it run cords to form the handle. Weight the ends of the cords with bead tassels and put one of the tassels at the bottom of the bag. The result will be a bag that looks as though it came from the Orient.

The Newest Vells.

Vells having square, ring, chain, pear drop, egg-shaped, crescent moon and the full moon dots, are worn in New York.

Also vells called the nightingale, acorn, berry or the lotus flower are shown.

POLONAISE AGAIN IN STYLE

In Adaptation of Garment to Modern Requirements Floating Panels at Side Are Featured.

The polonaise is again in fashion. This garment almost covered whatever was worn beneath. It was as concealing as the Greek tunic, the Roman toga.

Possibly the struggles through which Poland is going—unfortunate Poland, with her great genius and her greater misery—have tempted the French to reflect her present disaster in a costume.

In the adaptation of the polonaise to modern requirements the floating panels at the side are featured as the main thing. Each designed in an individual manner.

Usually they are lined with a contrasting color and fabric. Old gold and Chinese blue alternate with pearl and slate gray as chosen linings. When the polonaise is of dark wine, red velvet or black, the lining is of cream or dead white.

A Pillow Case.

A particularly lovely pillow slip for every day use is made in envelope style. The triangular flap hangs down below the center of the slip, and an inset of filet crochet interlacing decorates the point. The flap should have a wide hemstitched hem and the ends of the case should be hemstitched in the same way. Across the ends and around the hem of the flap an edging of filet crochet lace should be applied perfectly straight and flat. This edging should not be more than two inches wide. Of course, a pair of pillow slips of this kind could not be quickly made, but then they are intended for best daytime wear, and will well repay in loveliness for the time evolved in crocheting the lace and insets, which, after all, can be accomplished in odd moments by the woman who crochets.

WAISTCOAT OF FUR

This Is One of the Successful Novelties of the Season.

Can Be Worn With Most Severely Plain Tailored Suit and is Both Attractive and Comfortable.

The cozy little fur waistcoat is one of this season's successful novelties. Waistcoats of this kind are being made of all sorts of different furs, astrakhan, musquash, squirrel, beaver and dyed rabbit. Such waistcoats can be worn with the most severely plain tailored suit and they not only look attractive, but they are so warm that the coat can be thrown open in the manner now considered so supremely "correct."

The winter suit which is shown in the sketch was created by Worth. It is simplicity itself, but so beautifully cut and so admirably well chosen, so far as materials are concerned, that it might be worn on the most elaborate and ceremonious occasion. The material of both coat and skirt was currant-red duvetyn and the trimming was musquash in a dark brown shade, writes Idalia de Villiers, a Paris correspondent.

Worth is making many winter suits of this order and he is using quantities of soft duvetyn and corded gaberdine. I noted many different shades of rich red in his showrooms, but the bright currant shade seems a special avocation. This red has a touch of purple in it and it is particularly attractive in diagonal serge, duvetyn and gaberdine.

Worth is not making any walking skirts shorter than "ankle length," and nearly all his new model skirts are plain and fitted at the waist. Large slip-pockets are introduced at the sides and the skirts fall in perfectly straight lines from waist to hem without giving any idea of the ugly "chubbie" outline. Please take special note of the large, turn-over collar shown in this sketch.

This style of collar appears on all the new winter coats made at the

Waistcoat of Fur.

best houses and they are exceedingly cozy and warm. Chez Worth and so chez Bonita and Doucet. I heard that a great deal of silk is to be used this winter and coming spring to spare the woolen materials as much as possible. I have seen effective tailored suits made of dark blue and black broadcloth, which had panels of faille and whole bodices of the same silk.

CORDUROY USED AS LINING

Ribbed Velvet Gives Substance to Coats Whose Outer Fabric is of Light Weight Material.

Among the new ideals for the coming season are long coats and wraps lined with corduroy instead of the usual satin broadcloth or fur.

The lining of ribbed velvet will give substance to coats whose outer fabric is of light weight material. The interior color may be of white, putty or any of the pastel colors, according to that of the coat material.

It is yet to be seen just how the new idea will take. Two or three seasons ago a prominent French couturiere advertised the lining of linen for the jacket of silk. The sheer novelty of the thing attracted attention, but beyond that the vogue was not advanced. It is thought that something of the same sort may happen to the transposition for corduroy from the fabric of outer composition to that of the lining.

Odd Pincushions.

The Chinese tassels which are so decorative are used in all sorts of ways, but one of the most novel is to employ them as means by which to suspend and decorate a pincushion. A plain oblong cushion, five inches long and three inches wide, is covered with silk of a Chinese pattern, or a flowered silk with colors matching the tassels. The cushion is slipped between the loop of the cord, which is then brought up on both sides of the pillow, through the center, and tied in a knot at the top. The cord is caught to the cushion with invisible stitches, so that it will not slip out of place.

The tassels dangle from the bottom of the cushion and the loop at the top offers a means by which to suspend it.

Pretty Crib Quilt.

A pretty crib quilt can be made of fine white linen. At regular intervals a broad ribbon is open filled with pink anemone cotton. The linen can be outlined and the petals filled with ecoding, and in this way the work can be quickly accomplished. Line the cover and then tack it through the

SIMPLE WINTER GOWN

Though it is simple, and of necessity war times will make for simplicity in winter gowns and winter functions, this creation for both formal and informal wear is adorable. It is of peach georgette gracefully draped and richly trimmed with bands of silver fox. A distinctive feature is the use of long sleeves with low decollete. A dainty ciel blue ribbon encircles the waist and a nosegay combining all the colors of the gown is placed on one shoulder.

EMBROIDERY TO BE REVIVED

France Determined to Re-Establish Industry in Order to Give Her Women Employment.

Paris is quite determined, that is certain, on the vast re-establishment of her business in embroidery. Her women are needleworkers of importance. None is so good on this planet, possibly, unless isolated exceptions in the Indian and Persian countries be taken into account.

Her gentlemen were trained, as all gentlemen used to be trained in olden days, before the sewing machine and ready-to-wear garments, in the art of holding a needle filled with fine thread and accomplishing wonders with it.

Money has been scarce among the people in aristocratic segments of French life, and the war has brought about the same kind of situation which existed during the Revolution; those who are too proud to work for their living in other epochs will now do so under the national strain.

Also, there are thousands of Belgian refugees and French women in other classes of life and society who must be supported. France does not believe in the nonproducing consumer.

And so these women and men, too old even to serve in that territory service of bearing the wounded from the trenches of the hills, which has been given to those who do not bear arms and who are sure of their footing and their nerves, are given the gentler service of embroidery for the world's clothes. So every woman who buys a gown that is embroidered in France is helping France.

BROWN SHOES ARE POPULAR

Particular Women Have Refused to Accept the Cloth Top as a Means of Saving Leather.

All the talk about leather conservation, and women signing the pledge against \$15 shoes has not interfered one bit with women buying shoes of all leather, and at prices higher than ever before.

Particular women have not accepted the cloth top as a means of saving leather. Fewer freak shoes and colors are shown, but even a conservative model of plain leather is high priced.

Every one in so often commonplace low-heeled English walking boots because of the fashion, the "once" comes again this fall, and they are exceptionally good in plain tan, leath. They are not like the gay sport shoe of summer.

There is a craze just now for brown and dark gray boots for dress. Plain leathers with buck tops will be much worn later. In such color combinations as gray and mole color, and brown with beige appear.

Spat pumps of black patent leather will be much used with white spats, or spats in the color of the suit. Evening slippers are of both black and white satin on many of which appear rhinestone buckles.

Handbag is Held by Its Weight.

A handbag that holds itself to its wearer's wrist by means of its own weight has been invented by a New York man. The leather handle is fitted with two metal slides on one end of which is a roller. These slides are connected by a short piece of leather of the same width as the handle.

When the handle is slipped over the arm the metal slides are pulled up by the weight of the bag so that the handle fits close around the wrist and it is then impossible for the handle to slide over the hand.

Center of the roses with pink ribbon.

Bind the edges with pink lawn or pink silk muslin, so that when the edge is folded and turned in it will measure an inch. The stitching can be covered with a row of feather stitching or outlining. In place of the rose a blue or corn flower can be substituted. The ribbon for the tacking and the edge should also be blue. China silk should be used in place of the lawn, but the lawn has the durability to stand many tubbings.

Suit Skirt Widths.

Suit skirts are simple and narrower, says the Dry Goods Economist. In the tailor-made suit the skirt averages from one-three-quarters to two yards, and in some cases the skirt is even narrower. The extremely narrow skirt, however, is regarded as not likely to meet with general approval.

Little bunches of algerettes or paradise scattered on the brim or around the crown form the trimming of the greater part of the dress hats. It is not to be denied that this type of hat is decidedly stunning.

JERSEY ITEMS

Trenton.—The top prices are being paid at the wharves along the lower Delaware River and Bay, where barges load with tomatoes for Baltimore, and some of the inland farmers are transporting their fruit 50 miles or more in trucks to clean up the biggest profits possible.

Greenwich.—Mild weather, following copious showers, will keep going for at least a few days longer the mint that South Jersey farmers have in their late tomato crop. Not since Civil War days have such fabulous prices been paid for any farm products as the growers are getting for their tomatoes. They literally are rolling in wealth, and each day that the frosts hold out will further swell their purses.

Millville.—Worried and despondent because he was indicted on the charge of illegal liquor selling, Captain Harry Schull, who owned a fleet of pleasure boats at Fortescue, committed suicide by shooting with a revolver, at his summer cottage at the bay resort, and his body was found by a fisherman. He had told his friends that the charge was a plot against him to ruin his business. Schull was about 50 years of age and is survived by a widow and son in Philadelphia.

Vineland.—The dog that bit the son of B. A. Carter was afflicted with the rabies according to a telegram received from the State Laboratory by Dr. J. S. Halsey. The dog-bit other dogs and cattle over a wide territory, and report says three children were among its victims.

Salem.—Salem is to have a new siren fire alarm whistle operated by electricity.

Salem.—The cost of keeping the prisoners in the county jail last month was 31 cents each a day.

Salem.—All stands, sales of personal property and fairs have been ordered from the Court House plaza by the Freeholders.

Millville.—Hearing that the fund for the new Nurses' Home at the hospital here had not reached the necessary figure, Henry A. Dix, a wealthy New York manufacturer, wired the committee \$300.

Clarksboro.—The congregation of the Evangelical Church has collected vegetables and canned fruit for an old folks' home in Philadelphia.

Pitman.—With the streets in a deplorable condition, borough officials announce that the highway appropriation for the current year is nearly exhausted.

Trenton.—George M. LaMonte, state commissioner of banking and insurance, issued orders to state banks, trust companies and building loan associations of New Jersey, urging them to support the second United States Liberty Loan to the limit of available resources.

Hightstown.—The fifty-second year of Peddie Institute has opened most auspiciously. Notwithstanding the fact that the army draft has made large inroads upon the attendance, the registration is nearly up to the banner record of last year. The faculty remains largely the same, though a few changes were made necessary by the entrance into service of three members of last year's teaching staff.

Trenton.—Plans are being furthered for the organization of a community chorus of 500 voices for the purpose of giving concerts for the soldiers of the "chosen army" at Camp Dix. At a meeting of the music committee of the Trenton War Recreation Committee at the studio of Prof. W. Otto Polemann matters in connection with the chorus were discussed.

Princeton.—In the arrest of Samuel O. Livingston, twenty-four years old of Lanesville, O., an enlisted man at the United States Aviation School, army officers are of the belief that a plot for the wholesale poisoning of aviation students has been unearthed. Livingood is now held as a military prisoner at Governor's Island.

Woodstown.—The Domestic Science Department at the local public school began to serve lunches to pupils above the fourth grade.

Paulsboro.—Heavy frosts killed much vegetation and started farmers and home gardeners to hustle out their late crops.

Weymouth.—Naturalization Clerk Thomas C. Stewart was awakened at his home by the barking of his bird dog and, going out to investigate, was surprised to find a small buck deer entangled in his tennis court net. He extricated the animal, which immediately dashed for the woods.

Woodbury.—All the labor unions, including the musicians, have called a meeting for the purpose of organizing a central union.

Bordentown.—The local Board of Education has voted to eliminate the teaching of German in the high schools and substituting French.

Paulsboro.—On to 1,000" is the slogan adopted by the local Red Cross, which launched a campaign to increase its membership to that number by Nov. 1. It now has 289.

Gloucester.—A medicine cabinet fitted with everything needed has been placed in the county jail.

Mays Landing.—Under present regulations only one mail a day leaves here for Atlantic City, and that shortly after noon. Residents and county officials are endeavoring to obtain better service.

Paulsboro.—Gloucester county officials have been keeping a close watch on beer wagons making deliveries since they received complaints that much was being delivered without previous orders, as is required by law.

Gibbstown.—It required several hours' work by a large force of laborers to extinguish a fire in a pile of 1,500 tons of soft coal at the Du Pont power works.

Haddonfield.—Under new arrangements the residents will get better mail facilities, with earlier deliveries and collections.

Merchantville.—The second of a series of meetings called by the State Commissioners of Education to impart further instruction on the new physical training law to teachers, superintendents and principals of schools of Camden county, was held here.

Mays Landing.—Daniel W. McClure, for many years section foreman of the West Jersey & Seashore Railroad, has been retired on pension, having rounded out 55 years of continuous service. In honor of his long service a number of track foremen presented him with a handsome gold chain and locket.

Garwood.—Two men were killed and seven injured when a touring car with seven passengers crashed into a motor moving van. The dead are Charles Meyer, chauffeur, of Newark, and Alexander Broekie, of Hamilton. Six of the injured were from Newark, and one from Paterson.

Executors Sale of Woodland and Cedar Swamp.

The Burlington County Trust Company, Executor of William J. Wills, deceased, will sell at public sale on Thursday, November 22, 1917, at 10 o'clock in the afternoon, at the National Hotel, Manhattan, New Jersey, the following described tracts of woodland and cedar swamp situated in Ocean County, and described as follows:

TRACT No. 1: Being a nice piece of young cedar containing 15 1/2 acres, more or less, situated in the great Cedar Swamp in Manahawick, and having a front of 100 feet. The tracts and bounds being more particularly described in a deed made by William J. Wills, deceased, and his wife, to William B. Wills, recorded in Book 215 of Deeds, page 250 A.C., in the Clerk's Office of Ocean County, at Toms River.

TRACT No. 2: Includes the equal undivided two-thirds interest of William B. Wills in the Township of Dover, more particularly described in a deed from Edward Brinley to Thomas Black, recorded in Book 21 of Deeds, page 317 A.C., in the Clerk's Office of Ocean County, at Toms River.

TRACT No. 3: Comprises a lot of land and cedar swamp on the main branch of Cedar Creek in the Township of Dover, near Hamner, and contains 136 2/3 acres, more or less, belonging to the estate of William B. Wills, deceased, and more particularly described in a deed from Edward Brinley to Thomas Black, recorded in Book 21 of Deeds, page 317 A.C., in the Clerk's Office of Ocean County, at Toms River.

TRACT No. 4: of woodland and young growth cedar containing 13 2/3 acres, situated on the main branch of Cedar Creek, sometimes called Chamberlain's branch in the Township of Dover, more particularly described in a deed from George Sykes to Thomas Black, recorded in Book 21 of Deeds, page 317 A.C., in the Clerk's Office of Ocean County, at Toms River.

TRACT No. 5: consists of a lot of 22 acres covered with a growth of wood suitable for building, and having thereon containing good building stone, near the Hopkins Farm, in the Township of Dover, more particularly described in a deed from Asher B. Parker to William B. Wills, recorded in Book 21 of Deeds, page 317 A.C., in the Clerk's Office of Ocean County, at Toms River.

The above tracts contain cedar and other timber available for present use, but more particularly covered with young cedar of prospective value. The tracts are being offered for sale to close the estate of William B. Wills, deceased, and are well worth the attention of buyers wishing to purchase that kind of property.

CONDITIONS WILL BE MADE KNOWN AT SALE.

BURLINGTON COUNTY TRUST COMPANY,
Executor of William B. Wills, Deed.
By W. W. STOKES, President.

RECEIVER'S SALE OF VALUABLE SEASHORE PROPERTY

In pursuance of the power and authority vested in me, as Receiver of Bonnet Thoroughfare Beach Company, appointed in the cause pending in the Court of Chancery of New Jersey, wherein Henry J. West, Trustee in Bankruptcy of William J. Thompson, a bankrupt, is complainant, and Bonnet Thoroughfare Beach Company is defendant, I, the said Receiver, will expose at public vendue, on

SATURDAY, OCTOBER 20, 1917,
at the hour of twelve o'clock, noon, at the Sheriff's Office, in Toms River, Ocean County, New Jersey, a certain tract of land and premises in the County aforesaid, on Long Beach, opposite the village of Manahawick and known as lot No. 3 of lot No. 3 in the division of the patent of Peter Somman, A. D. 1762, and particularly described as follows:

BEGINNING at a stake on the strand, being the second corner of lot No. 2 in the division of the Lot No. 3 aforesaid, and runs according to the position of the magnetic needle A. D. 1762; thence 1st North forty three degrees and thirty minutes west sixty chains to the Main Bonnet Thoroughfare; thence 2nd from the said

beginning South thirty three degrees and thirty minutes west along the strand eight chains and eighty seven links; thence 3rd North forty two degrees west fifty four chains to the said Bonnet Thoroughfare; thence 4th along the said Thoroughfare to the end of the first mentioned tract containing forty six acres be the same more or less.

This tract of land extends from the Atlantic Ocean to the Thoroughfare and is located near the point where the new highway from Manahawick to Long Beach connects with the beach at 14th Street and the Boulevard, and near the junction of the "Y" of the railroad running along Long Beach from Beach Haven to Barnegat City, and is particularly adapted for use as a seashore property.

The above description has been recognized for many years as a proper description of the location of the premises to be sold, although recently some question has arisen as to the location of the exact boundary lines thereof. The purpose of this sale is to dispose of all the right, title and interest of the defendant corporation and the subscriber in and to the same, as above described, and all real estate included expressly or otherwise, by the description owned by the said defendant corporation and the subscriber as recited. The sale will be made subject to unpaid taxes.

Persons desiring information as to title, location and other particulars with reference to the sale, may obtain the same by calling upon the subscriber at his office, Fourth and Market Streets, Camden New Jersey, or upon the solicitors of the complainant, 617 Market Street, Camden, New Jersey.

Terms and conditions will be made known at the time of the sale.

L. W. STEAR,
Receiver of Bonnet Thoroughfare Beach Company.
Solicitors of complainant.
Dated September 18, 1917.

NAVIGATION CLASS TO OPEN TUESDAY

After Class Begins Work No New Members Will Be Admitted, Declares Prof. Russell Patterson

The second class in navigation organized in Atlantic City by Prof. Russell Patterson, formerly of the New York Nautical School, under the auspices of the United States Shipping Board, to prepare men for officers on the new merchant marine, began the course at the High School Building, Atlantic City, last Tuesday night at 7.30 o'clock.

The sole qualification required for admittance to the class is that the candidate for an officers' license shall have at least two years experience on seagoing vessels, either steam or sail. Many of the present class which has just completed its course are going to serve two months as

junior officers before taking out their license instead of after doing so. Orville Bowen and Frank H. Schoo were last week granted licenses as second mate on ocean steamships of big tonnage. Irvin A. Sooy, of Pleasantville, sailed on Monday as a junior officer on a steamship leaving New York. Atlantic City Daily Press.

Another class will be started on October 22, and Prof. Russell is desirous that members from Tuckerton and vicinity shall become members of the class. Interested parties should write Prof. Patterson, care of Atlantic City High School.

Window Seat.

If you build a bay window in your dining room, do not put a window seat in it. In a dining room you would rarely use it, and it would be a shame to take up valuable space unnecessarily. Window seats are rarely comfortable, anyway.

SMALL SUBSCRIPTIONS VITAL TO SUCCESS OF NEW LIBERTY LOAN

Popular support of the second Liberty Loan from small investors is an absolute necessity if the issue is to be a success, according to the resolution passed by the Liberty Loan Committee last Thursday morning. The resolution pointing out the fact that the large subscriptions which are given publicity through the press cannot alone carry the whole burden, was signed by every member of the committee and reads as follows:

"The Liberty Loan Committee of New York desires to emphasize the fact that subscriptions in great number from small investors are absolutely essential to the success of the Liberty Loan.

"The large subscriptions are given prominence in the press, but twenty-five subscriptions of \$10,000,000, one each day during the balance of the campaign, would total only \$250,000,000. We must raise a total of \$1,500,000,000 or nearly \$65,000,000 a day until October 27. We are nearly \$100,000,000 behind in average at the present time.

"To reach the total desired by the Government, millions of small subscriptions are needed. Our objective of \$1,500,000,000 calls for an average of approximately \$200 from every grown man or woman in the Second Federal Reserve District. We earnestly request the co-operation of the press and the public emphasizing this fact.
