VOLUME XXXI TUCKERTON, OCEAN COUNTY, N. J. THURSDAY AFTERNOON, APRIL 3, 1919. NUMBER 36.

METHODIST EPISCOPAL CHURCH NOTES

Rev. William Diebow, Pastor.

It is believed to be harmoniously working, loving and serving in the church of God, for in that way we may do lots of good, win many souls and help the spiritual life of many fellow travelers on the highway of life. What one may do if good, they are responsible for if not good.

The way some people love their church is soul stirring, and tradition says that the sacrifices and offerings of love for the church and its work are treasures laid up above for the faithful servant.

There is a notable increase in attendance at all the church services. The mid-week prayer service is well attended and both the Sunday morning and Friday evening class meetings are increasing in number and growing in spiritual power. Do you attend these means of grace? A blessing to all who come.

Much credit is due the Sunday School officers and teachers. They have a great opportunity and a great responsibility. Servants of God, do your work well.

The Children's Friday afternoon class under the leadership of Mrs. E. V. Hayes is doing a good work. They have organized a praying band and are holding meetings in different homes each week. Four adults were converted at one of their recent meetings.

The men's praying band is holding meetings every two weeks and the next will be at Edward Driscoll's on West Main street, next Monday night, April 7.

Sunday Services
9:30 A. M.—Class meeting lead by Wilbur C. Parker.
10:30 A. M.—Preaching by the Pastor.
2:30 P. M.—Sunday School.
6:45 P. M.—Epworth League service.
7:30 P. M.—Preaching by the Pastor. Third sermon on "What Think Ye of Christ."

LEARN HOW TO GROW ASPARAGUS

Over 7,000 acres in New Jersey are devoted to asparagus growing alone, the Garden State producing more than all of New England, New York, Pennsylvania, Maryland and Delaware. California only surpasses it in the amount grown.

Philadelphia, Pittsburg, New York City, Buffalo and Boston all receive carloads of New Jersey asparagus every day of the cutting season.

Three types of this vegetable are grown in the state. Northern New Jersey produces green asparagus on loam soil, Southern New Jersey green asparagus which is white half way up the stalks, while Monmouth county in the central part of the state, is famous for the production of white asparagus on very light loam.

All steps in asparagus growing in New Jersey from the time of setting until the finished product is tied in bunches for the markets have been fully described and illustrated in Circular 99 published by the State Experiment Station at New Brunswick. The circular was prepared by Mr. R. W. DeBaun, extension specialist in vegetable gardening. If you are interested write for a copy.

RIDER-MOORE & STEWART GRADUATE WITH PRESIDENT

In another part of this issue will be found an advertisement of the Rider-Moore & Stewart School, of Trenton, N. J. The name of this school has grown to be a household word and is an institution of which any Jerseyman has a just reason to be proud. They offer most excellent courses in finance, accounts, banking, shorthand and secretarial and their graduates are holding positions of trust everywhere. It is notable that one of them, Charles L. Swen, who is a Trenton boy, is with President Wilson at the Peace Conference in Paris doing his stenographic work. Young Swen is the President's private stenographer and was with him in the White House before the conference and will resume his work there when the President returns.

West Creek

Mrs. Sarah N. Parker has returned home after spending the winter with her son, Ellis Parker, in Beach Haven. Miss Sara Rutter was a visitor in Philadelphia this week.

Capt. Herbert Stiles spent part of last week in Philadelphia.

Mrs. Norman Strode, of Philadelphia, visited her parents, Mr. and Mrs. A. J. Leigh, here this week.

Rev. Robert C. Hull, of Newark, gave an address in the Baptist church on Sunday evening in behalf of the Victory Campaign of the Northern Baptist Convention and took up a generous collection for the work.

John Ralph died suddenly on Saturday morning at the home of his son on Mount Hope farm. Mr. Ralph was our genial milkman and made many friends here since they moved from Allentown last spring. Interment was at Allentown on Wednesday. Mr. Ralph was 73 years of age.

Mr. and Mrs. Edward Johnson are building a pretty little bungalow near the bridge on Main street. It will be a modern house, a desirable location and promises to be an addition to the village.

J. W. Newell, of Pemberton, spent several days of this week at R. F. Fetter's.

Sergeant James Tierney has been discharged from the Marine branch of the service and has rejoined his family here.

Rev. W. Johnson, of Port Republic, has been appointed to the M. E. pastorate here and entered on his new duties last Sunday.

Parkertown

Mrs. Henry Parker has returned to her home after a weeks visit in Camden, Trenton and Atlantic City. She was accompanied home by her grandson, Leon Bodine, who will make his home here for the present.

Mrs. E. A. Grover, of Philadelphia, was a recent visitor at the home of her brother, Kirkbride Parker.

Edward Parker, of Beach Haven, who has recently been discharged from Camp Dix, was a Sunday caller at the home of his uncle, Hirie Parker.

Edgar Parker, who is employed at Asbury Park C. G. S., is spending his liberty days here with his parents.

Thomas Parker, who has been employed at the Cumberland Glass factory at Bridgeton, has returned to his home here.

Mrs. C. H. Brandt and son, Kenneth, of Barnegat, were recent visitors at the home of the former's sister, Mrs. Margaret Parker.

Mr. and Mrs. James A. Parker and son, Melvin, who have been spending the winter in Trenton, have returned to their home here for the summer.

Clarence Cramer, of Philadelphia, was a recent visitor at the home of Mrs. Atmore Holman.

Norris Sears, of Atlantic City, was a Tuesday caller at the home of Harvey Parker and Isaac Horner.

Since Harvey Mathis has been running his auto bus between Tuckerton and this place a number of our people have taken advantage of same and attend the movies very frequently. Saturday evening last about fifty of our people attended.

Chester Parker, of Camden, spent the week end with his parents, Mr. and Mrs. Henry Parker, of Hillside Farm. They entertained at dinner Sunday, Mildred Jones and Bertha Nugent, of West Creek.

Capt. Alex. Parker, of Tuckerton, was a Sunday caller at the home of his brother, Postmaster Norwood Parker.

BEACH HAVEN

The following pupils were present at school every day during the month of March:

Grammar room—Madeleine Haines, Myrtle Brewer, Marian Young, Madeleine Cox, Donald Cox, Benjamin Crane, John Daniels, Roscoe Brewer, Joseph Itman, Arnel Todd, Walter Cramer, Fletcher Andrews.

Primary room—Herbert Cramer, Ralph Parker, Verley Gale, Walter Sharp, Carl Parker, Stanley Cramer, Carry Haines, Eleonor Haines, Edna Parker, Evelyn Anderson.

JURIES DRAWN FOR APRIL TERM.

Commissioners of Juris Sheriff Chafey and Frank S. Ellis, on Tuesday of last week, drew the following lists for the April term:

Grand Jury
Robert F. Rutter, West Creek.
Henry L. Hazelton, Manahawken.
Charles A. Morris, Toms River.
William L. Lance, Whiting.
Edward P. McAllister, Ocean Gate.
Leon Hazelton, Manahawken.
William H. Savage, Lakewood.
Reuben Morey, Tuckerton.
Isaac Trux, Cedar Run.
George H. Holman, Toms River.
Harley Henderson, New Egypt.
Charles M. G. Island Heights.
Wm. B. Thompson, Lakewood.
Cornelius D. Kelly, West Creek.
William E. Cox, West Creek.
Joseph Stowell, Mantoloking.
David M. White, Manahawken.
Frank R. Austin, Tuckerton.
William J. Morton, Lakehurst.
B. Frank Hartman, Lakehurst.
John K. S. Cox, Barnegat.
Harry R. Eisenman, Waretown.
William R. Crusier, Lakehurst.
Charles P. Anderson, Jr., Toms River.

Dr. Joshua Hilliard, Manahawken.
Charles N. Warner, Toms River.
John W. Brown, Lakewood.
David C. Brewer, Toms River.
Harry C. Shoemaker, Jr., Point Pleasant.

Theodore A. Corliss, Manahawken.
I. Scudder Fisher, Lakewood.
Charles M. Underhill, Mount's Crossing.
William C. J. Alexander, Island Heights.

Peitit Jury
Charles A. Estlow, Barnegat.
Thomas C. Mathews, Lakewood.
John Curtis, Lakewood.
Elmer F. Dooxey, Toms River.
William F. Jones, West Creek.
George F. Hurley, West Point Pleasant.

Edmund B. Ridgway, Barnegat.
Charles B. Grover, Toms River.
George L. Shearman, Lakewood.
Raymond Chadwick, Barnegat.
Charles B. Curtis, Lakewood.
George South, New Egypt.
Amos Bahr, Barnegat.
Barney Ferber, Lakewood.
George Gifford, Bay Head.
Joseph H. Paul, Manahawken.
William S. Bennett, Manahawken.
Frank Ferry, Sr., Bay Head.
Alonso D. Raynon, Lakewood.
Leon Cramer, Beach Haven.
John R. VanBrunt, Lakewood.
George Rogers, Bayville.
William Clinkner, Bayville.
John Camp, Manahawken.
Lazada Simmerman, Barnegat.
Oliver Boshier, Forked River.
Jarvis R. Pitman, Barnegat.
William Ties, Pershing.
Elias Stiles, Tuckerton.
John Bahr, Barnegat.
Harper G. Rulon, West Creek.
Herbert Curtis, Lakewood.
Roscoe Conkling, Cedar Run.
Walter Camp, Van Hiseville.
Walter C. Sharp, Beach Haven.
Oscar Eayre, Barnegat.
James Hankins, Toms River.
George Gee, Lakewood.
Joseph C. Burton, Tuckerton.
Daniel Johnson, Pershing.
Thomas Wilson, Toms River.
William S. Cook, Cedar Run.
Walter Grover, Whitesville.
Fred P. Cook, Point Pleasant.
Carroll B. Stratton, Beach Haven.
Jacob Hoffman, Beachwood.
Ellis Cramer, West Creek.
Leonard D. Cramer, West Point Pleasant.

Malcolm Dunn, Forked River.
Albert W. Dorsett, Toms River.
Samuel M. Hankins, Toms River.
Walter Clayton, Pershing.
Harry Worth, Lanoka.
H. Douglass Rhodes, Lakewood.

COMMISSION GOVERNMENT

Lakewood is to vote on the adoption of the commission form of government the election to be held on Tuesday, April 15. If adopted in Lakewood, that would be the second community in this county to take up this form of municipal government, the first being Beachwood borough.

LOCAL NEWS

The regular monthly social of the Epworth League will be held at the M. E. Church on Tuesday evening, March 8th. All members are requested to be present. The features of the program will be Easter Bonnets and Eggs. Every person is requested to wear an Easter Bonnet. The funniest bonnet will receive a prize. To help defray the expense of the refreshments each person is requested to bring a fresh hen's egg, with name of donor written on egg.

According to reports from asparagus growers who have made a careful examination of their beds, this season's yield will be enormous.

Mrs. R. L. Bragg is confined to her home on account of illness.

A nine pound daughter, Cordelia Anna, arrived to gladden the hearts of Mr. and Mrs. William E. Pharo, at West Creek, on Monday of last week. Mrs. Pharo was formerly Miss Eugenia Atkinson, of Tuckerton.

Numbers of business men of Atlantic City are anxious to have the dollar excursions from Philadelphia to that popular seaside resort restored, and are making efforts to that effect. The present rate is \$1.25 and war tax.

Chief Electrician I. F. Arehart, who has been stationed at the Radio with the U. S. Navy for more than a year will be transferred in the near future. Herman Strange will take his place.

Mr. and Mrs. George Snitzer and daughter, Dr. and Mrs. H. G. Keeler and family, of Atlantic City, were guests of Mr. and Mrs. James W. Parker on Sunday.

A son was born to Mr. and Mrs. Joseph H. Markley at the M. E. Parsonage Tuesday morning, April 1st. The new arrival has been named Joseph William. Mrs. Markley is the daughter of Rev. and Mrs. William Disbrow and "Grand pop" Disbrow is stepping high and has a smile that refuses to be erased.

Earle Sprague, who has been serving in the Coast Guard Service, has resigned and returned to his home here.

Mrs. Lydia Garrison is home from Atlantic City for a short visit.

Archie Rogers, of New York, was a recent guest of Mr. and Mrs. Thomas Cale. Mr. Rogers was recently discharged from the Marine Corps at the Radio.

There appears to be little doubt that Camp Dix will remain as a permanent camp, and if the proposed extensions are carried out the new camp will be the best in the country, and a model for other countries. The advantages of location and healthfulness are noted, and the camp will be equipped to give thorough military training to hundreds of thousands of men.

According to reports there is a surplus in this country of such foodstuffs as rice, beans, canned vegetables and fish. This is somewhat difficult to realize when paying the prices asked for the same.

Francis Parker, Albert McConomy and James Parker were week end visitors at their homes here.

Joseph H. McConomy served on the United States petit jury at Trenton last week.

Misses Ida May Andrews and Mary Morey spent Monday in Philadelphia.

A. J. Durand, of Philadelphia, was in town this week renewing old acquaintances.

work. Mrs. Ford recently recovered from an attack of this disease.

William Williams, who was recently discharged from the Marine Corps at the Radio and is now employed in New York, visited his wife here this week.

Ervin Gale, of Camden, was a week end visitor at the home of his father, Eugene Gale.

E. M. Berry, of Port Republic, was a recent visitor at the home of his grandson, Joseph B. Mathis.

Frank Willing Leach, of Washington, D. C., is at his home here for a short visit.

Mrs. Joel VanSant and family are occupying their bungalow on South Green street. Mr. VanSant is an Ensign in the U. S. Navy and is on the transport Santa Rosa bound for Brest, France.

Miss Esther Berry is ill at her home on South Green street.

Mrs. LeRoy Parker, of Trenton, is visiting her parents, Mr. and Mrs. W. Howard Kelley.

Several members of Tuckerton Lodge, No. 4, F. & A. M. will visit the Lakewood Lodge tonight. Lyle Hagaman, son of Assemblyman H. T. Hagaman will be raised in Masonry.

Oscar Hickman is ill at his home on West Main street.

Edward W. Sprague was a Philadelphia visitor over the week end.

Mrs. George A. Mott, of Trenton, was a recent visitor at the home of her sister, Mrs. Orlanda Darby.

Mrs. William L. Butler, of Beach Haven, is visiting her sister, Mrs. W. C. Parker.

A CORRECTION

I wish to correct a statement made by your West Creek correspondent last week, concerning the auto accident at that place. I wish to say that both mine and Mr. Cox's machine were on Main street and the accident occurred when Mr. Cox undertook to pass me on the wrong side.

F. L. Swain.

New Gretna

Mrs. Lettie Cramer died at the home of her son, Smith Cramer, on last Friday. The funeral services were held on Tuesday and her remains were placed in the Hillside Cemetery.

Miss Vesta Cramer is suffering from a severe attack of tonsillitis. We hope she may soon recover.

Theodore Allen, of Pleasantville, visited relatives here on Tuesday.

John Stackhouse and family moved to the Symm Place on Monday.

The Mite Society was held in the Presbyterian Church on Tuesday evening. Those who were present report a good time.

William Mathis, of Atlantic City, is back with us for a while. We are very glad to see him.

Milton Cramer, who has been engaged in Atlantic City for the past few months, is spending a few days at home with his family.

Mark Cramer and family, of Cape May City, have been spending a few days with the former's sister, Mrs. John S. Mathis.

Rev. McClenagan occupied the pulpit in the Presbyterian Church on last Sunday. He preached two excellent sermons.

D. C. Mathis and family, of Atlantic City, were the guests of Mr. and Mrs. Arthur Loveland on Sunday.

Lafayette Gerew, of Atlantic City, and Miss Vallie Gaskill, of Washington, D. C., visited friends here on Sunday.

Mrs. Schiverty and daughter, Harriet, spent the week end in Glassboro.

Mrs. Mabelle Cramer was an Atlantic City visitor on Monday.

Mrs. L. D. Robbins and daughter, Dorothy, spent two days of last week in Atlantic City.

Cedar Run

Cecil Cranmer, of Rider-Moore & Stewart Business College, is confined to his home by illness.

Mr. and Mrs. W. I. Couch, of Hamonton, were week end visitors with the latter's father, E. B. Sprague.

Mrs. Carrie Sprague returned to her home here on Saturday after spending the winter with her daughter, Gladys, at Trenton.

W. F. Lewis, of Barnegat, spent Monday with old friends in town.

Mrs. Samuel Conklin is on the sick list and under the care of Dr. Bunell. We hope for her a speedy recovery.

Mr. and Mrs. Earl Vaught are rejoicing over the birth of a daughter. Mrs. Vaught was formerly Miss Florence Test.

Ralph Conklin and Roscoe Conklin were Monday business callers at Barnegat.

A meeting of the D. G. W. will be held Tuesday evening, April 1, and as there are several young fellows who wish to join the name will be changed.

Mrs. Mildred Allison was a Tuesday visitor in Barnegat.

J. A. Bugbee, of Barnegat, was a Tuesday visitor at the Hub.

The Trustees of the M. E. Church will hold a box social at the Cedar Run school house, on Saturday evening, April 12. All young ladies are requested to pack a lunch and all young men are invited to buy and have the pleasure of eating lunch with the young lady whose name appears inside the box.

Mrs. Levi Cranmer is spending a few weeks with her son, Hiram, at Philadelphia.

Miss Gladys Sprague, of Trenton, spent the week end in town.

E. B. Sprague was a Tuesday caller at Barnegat on business.

Adam Price, of Beach Haven Terrace C. G. S., was in town on Tuesday.

Leonard Giberson is spending a few days with his father here.

The I. O. O. F. held their anniversary on Friday evening. All report a fine time.

Earl Vaught, of Camp Dix, was home on a two days furlough this week.

Capt. and Mrs. S. B. Conklin are on the sick list this week.

Postmaster Cramer is doing Centenary work through the county in the M. E. Sunday Schools.

Herbert Cramer is building a garage at Ship Bottom.

W. S. Cranmer delivered Ford cars to Rev. Mr. Post, New Gretna; Jesse Taylor, South River; Irving Sloan, Whiting; Edward Driscoll, Tuckerton. He has seven Fords and six Dodge cars to deliver on arrival—expected every day. He has a tractor on exhibit and gives demonstrations.

Anel Lamson has returned from France and is glad to be home. Wilbur Conklin is to come home soon.

APPROVE BUILDING OF LONG BEACH ROAD

The state highway commission has approved the action of the board of freeholders in ordering a survey of the Long Beach boulevard, north from the junction, thru Surf City, Harvey Cedars and on up to the inlet at Barnegat City. The road will be a little more than eight miles long. It is proposed to build it this summer by issuing bonds.

ORDER OCEAN CO. GAS CO. TO ENLARGE PLANT AT TOMS RIVER

Trenton, March 25.—Disposing of complaints made by the borough of Beachwood against the Ocean County Gas Co., and by the borough of Tuckerton against the Tuckerton Gas Co., the State Board of Public Utility Commissioners has ordered the Ocean County Gas Company to make additions to its plant at Toms River in order to increase its capacity and improve its service.

The order calls for the installation of a gas holder with a capacity of 100,000 cubic feet, arrangement of the present holder as a relief holder, and installation of an additional generating unit and a larger steam boiler.

The order further requires all the work to be done before July 1, 1919. The order is dated March 20 and is to become effective April 14.

Accompanying the order is a report from the Board of Public Utility Commissioners, rehearsing the testimony taken on October 8, 1918, when Judge Wm. Howard Jeffrey appeared in compliance against the Gas Company as attorney for Dover Township, Beachwood and Island Heights Boroughs, etc.

BOYS' AND GIRLS' CLUB NEWS

Last Thursday and Friday, March 20th and 21st, were two big days for clubs in Ocean County. Members who completed projects received achievement pins. Enrollments were taken for the year 1919.

So far the enrollment is triple that of last year. Two thousand blanks have been given out and calls have come from all parts of the county for more.

Boys and girls have taken to club work with great enthusiasm. It lends attraction to all, both those in towns and rural districts, by having the following projects: Cooking, canning, gardening, pig, poultry raising and sewing.

All members will be recognized by achievement pins and placards placed in a conspicuous part of their homes bearing the following:

Boys' and Girls' Clubs
I am a member of the Ocean County Boys' and Girls' Clubs.

NOW RAISES 600 CHICKENS

After Being Relieved of Organic Trouble by Lydia E. Finkham's Vegetable Compound.

Oregon, Ill.—"I took Lydia E. Finkham's Vegetable Compound for an organic trouble which pulled me down until I could not put my foot to the floor and could scarcely do my work, and as I live on a small farm and raise six hundred chickens every year it made it very hard for me."

"I saw the Compound advertised in our paper, and tried it. It has restored my health so I can do all my work and I am so grateful that I am recommending it to my friends."—Mrs. D. M. ALTERS, R. R. 4, Oregon, Ill.

Only women who have suffered the tortures of such troubles and have dragged along from day to day can realize the relief which this famous root and herb remedy, Lydia E. Finkham's Vegetable Compound, brought to Mrs. Alters.

A Hard Nut to Crack

When a cold hits you in the head or throat, it's hard to get rid of it. Don't experiment. Break it up with Hale's Honey of Horehound and Tar. Prompt and effective. All druggists, 25c. a bottle.

Try Pike's Toothache Drops

Logical. A Richmond youngster had quite a list of toys he wished for Christmas. His mother took him downtown to see the toys, so that she could know just what sort of gun, wagon, etc., he desired. He noticed the toy she exhibited to him the different styles of the toys he had ordered, and her anxiety worried him. Finally he could stand it no longer. "Mamma," he broke out, "if you want to so badly you can just buy me all those things now and when I get home I'll think up something else for you to me for Christmas."

It takes Congress to settle a strike, but an unruly stomach is subdued by Gardol Tea.—Adv.

POINT HE HAD OVERLOOKED

Grouchy Man Was Too Eager to Register "Kick" to Take Notice of What Time It Was.

A horse hitched to a wagon fell across the car tracks in front of a government building in the national capital.

In about two minutes the driver, assisted by the usual first aids, had unbuckled a lot of harness and the horse was up and on his way. And that was all there was to it except that—

"When a car waited for the track to be cleared an elderly man person, who looked as if he considered the world a big mistake, said to a man beside him:

"Cast your eyes at the windows of that office, sir; every one alive with men and women; if the clerks of a department will leave their desks and fitter away the government's time over a trifling sight like this, what, sir, I ask, must be the state of our national conscience?"

The man next had cast up an eye per request, and chuckled with the heartiness of one who sleeps well, eats three solid meals a day, and treats his wife like a perfect lady.

"Say, friend, you've got it all bottled up. You are so busy looking at the windows that you overlook the clocks. Noon means lunch time."

And the national conscience was vindicated.

A Delicious Mixture of Wheat & Barley

For health value, sound nourishment and a sweet nut-like flavor impossible in a product made of wheat alone, eat Grape-Nuts

FLOWERS ON HATS

Spring Headgear Will Be Veritable Flower Gardens.

Roses, which afforded welcome victory color, promise to reign supreme for decoration.

Trimmed with Gray Ribbon and Roses.

Hats—one worn by a prominent actress—is a small hat entirely covered with rose petals. Doubtless the rose petals will be much in demand as spring comes on apace.

SUITABLE FOR STOUT WOMEN

Longer and Narrower Skirt Regarded as Far More in Favor—Open Sleeve a Blessing.

If you yourself are not more rotund than you should be, you just don't know anything about it, unless maybe you have narrowly watched the struggles of a fat friend or are the dressmaker who must plan the garment for the fat as well as the lean—you don't know anything about how perfectly and entirely unsuited the mode that has just gone the way of all passe styles was to the woman of many pounds.

The woman's skirt is an abomination for the woman who weighs too much, yet as things were one looked absolutely frumpy in a long skirt. And short skirts seemed to call for French heeled shoes and a heavy woman really does not look her best in that type of shoe; or rather she soon gets the better of the shoe that type of shoe always looks a little shabby and out of shape when worn by her.

But the mode that is already with us is far more favorable. The narrow skirt is a blessed relief. The open sleeve is a blessing, for the increased width at the wrist makes the upper arm appear smaller, it hides the fat wrist and also makes the hand appear slender.

VASES TO HOLD THE POSIES

Vessels Regarded as a Failure as They Do Not Serve Purpose to Fullest Extent.

Highly ornamental vases are attractive in themselves, but as flower holders they may be said to be partial failures, as they do not serve their purpose to the fullest extent. They attract attention to themselves rather than set off the blooms for which they are designed.

SPRING STYLE HIP DRAPERY

Flare Appears on Many Paris Dresses Brought Over Before American Manufacture Started.

A bouffant hip drapery is being introduced in the spring showing of frocks, especially those made of tulle. This flare appeared on many of the Paris designed dresses brought over as a foreword before American manufacturers and dressmakers started working on garments for spring, but until recently they have shown an inclination to ignore the suggestion. Now it has been taken up and is being used in the development both of evening frocks and those for daytime wear, but by no means to the exclusion of the straight silhouette. The flare is usually perfected by means of a group of wide tucks stitched to simulate ruffles, or by one, two or three puffs. With narrow skirt and tightly fitted mid-Victorian bodice, this little hip flare is very effective and chic.

Looking Glass

By EVELYN NESSBIT

While hubby is a vital cog in the realm of business and industry, while he chats with business friends and gets out into the world, wife is doing her getting papers and curf papers and tucking ready to wash up his breakfast dishes. While hubby sits with his cronies at the club, wife is at home, cooking in his dinner and mending his socks.

That is just as it should be, says satisfied hubby. Wife should dare to stop serving him, woe to her! For so many ages it has been taken for granted that when a woman marries she becomes her husband's private property, that even in this enlightened era women are still slaving and toiling for their husbands.

It is perfectly fine for women to do their share in keeping the home fires burning. But they must not lose their independence entirely. Go on darning socks, go on mending babies, go on cooking dinners—but, for pity's sake, keep your independence!

The only way to keep your independence is to keep your friends. Don't let your housework absorb you so completely that the only outsiders you see are the tradesfolk and your husband's friends. Keep young and cheerful by maintaining your individuality. In spite of being married, the woman should keep up with the friends of her girlhood and make new friends, too. And if there are men friends among them, there's no harm done, so long as hubby knows about them. When there is to be a family party, hubby and wife both should choose the friends who will be invited. It's more fun that way, you will find.

"DON'TS" IN USE OF MACHINE

Don't forget to oil the sewing machine frequently. The treadle and pitman should be oiled in their bearings almost as often as the working parts above the table.

Don't allow the machine to stand uncovered when not in use, as it collects dust and lint. The working parts below the cloth plate should be oiled and lint removed frequently with a small camel's hair brush. The parts above the cloth plate should be wiped free with cheesecloth.

Don't run the machine when the presser foot is down and there is no material in the machine, as this roughens the underside of the foot and blunts the feed.

Don't pull the material while it is being stitched, as this causes a stretched, tight, ugly stitch and very often blunts or breaks the needle. The feed will take care of this unassisted and will push the material through as fast as the machine can take care of it.

PART CAPE AND PART COAT

A practical and graceful garment, part cape and part coat, is among the earliest interpretations of the cape that have answered the demand for spring-time wraps. It is in fact a short, full coat with flowing sleeves and a girde, having a long cape lined with figured satin hanging from the shoulders. The full collar and bands on the sleeves are of satin.

Having Bloomers to Match

Garment Preferable to Petticoat for Small Girl Except for the Dressing Frocks.

In making summer clothes for the girl of 4 to 8 years, the sensible mother will see to it that every little dress has at least one, preferably two or three, pairs of bloomers to match. Bloomers are preferable to petticoats for the small girl except for wear with the very sheerest "dressing" frocks.

NEW NEW FABRICS

No Distinct Changes in Materials for Spring Wear.

Gabardine, Tricot, Serge, Tricotine, Tweed, Honespun and Broadcloth and Variety of Silks.

As social life returns to its normal course more and more thought is given to dress. It is too early in the season for any very radical change in fashions to be established, but it is most interesting to watch the development of the individual ideas of the designers.

There will be no distinct change in materials, since as yet very few new fabrics have been made. A little of everything is seen, gabardine, tricot, serge, tricotine, tweed, honespun and broadcloth. Among the silks one notes a great variety and also fabrics of American make that are composed of silk and wool with a predominance of silk. Many new colors will make their appearance this spring, and there will be a wider variety to choose from than in recent seasons.

The new silhouette is a matter that is uppermost in the minds of the designers at the moment. It is predicted by a few of those in a position to note the trend of the times that the mode will gradually emerge from the extreme simplicity of the last few seasons and once again the more complicated silhouette will be in evidence.

The advance models, however, give no indication of this change. A majority of the tailored suits of summery aspect are built upon severely plain lines, slim and straight as those of this winter. The coat, for instance, may be built without the slightest curve at the waist line and the front left open to show a long sweater-like waistcoat which has no visible fastening. The skirt is also straight and slim, and while there is a slit at the back to give its wearer more comfort in walking the material crosses over so that the slit is not visible.

Very pretty simple one-piece frocks of silk, tricotine or wool in light weight and in light colors or all white are smart.

A smart little model was fashioned from a finely soft creamy white gabardine with large collar and cuffs of white silk. The frock was caught in loosely at the waistline by a white silk cord which tied at the back and extended half the skirt length, the ends being finished with tassels. The back of the skirt was made with four deep folds slightly gathered in flounce effect.

There are numerous cape models of light weight woolen shown for the benefit of the southern trade. They are made in various styles and of various materials.

INDIAN DESIGNS IN RIBBON

Colors Are Delicate and Suggest a Beautiful Panama Hat; Deeper Tones for Outing Hats.

Smart ribbons have been brought out in Indian designs for outing hats for women. While the designs are Indian, the colors are delicate and suggest a beautiful Panama hat. In the deeper tones for outing hats there are ribbons of Roman effect. The polka dot is good for hat trimming, and in larger sizes, in the wider ribbons, each dot as big as an apple.

There are beautiful things in two-tone ribbons, one side one color and one the other. Some of these are all in the pastel shades and others in deeper tones, contrasting colors brought together. Two colors are also used in beautiful quality grosgrain

ribbons, these having the body and edge different with rich contrasts. Handsome broad metallic ribbons are rich and heavy, made to wholesale at \$50 a bolt of ten yards.

APRON IS A BECOMING AFFAIR

Tricky Thing of Pink Striped Gingham Donned by Many of the Happy Little Brides.

An apron is really a pretty and a charming thing when its artistic possibilities are considered, and it may be made a becoming affair. Usually it is the little bride who affects aprons that have charm; her morning aprons are tricky affairs of pink striped gingham, with a smart flare in the skirt part and a quaint little bib above the waist line—and very crisp strings that tie in a big bow behind. An elderly housekeeper would feel a bit foolish in such an apron—even though when she goes to a matinee she wears a dainty blouse quite as youthful as any the little bride would select.

LATE FASHION FROM PARIS

This is a straw hat entirely covered with fimbriated satin ribbon, with black velvet ribbon around the crown, and is regarded as an exquisite creation.

Ribbons in delicate colors and soft brocades in all widths are for the trousseau.

SCOUTS HONOR HERO DEAD

The little French boy scout who was shot by the invading Germans because he would not reveal the presence of soldiers in the vicinity has been honored by Troop No. 502 of Manhattan by being placed at the head of a ghostly troop of scout war heroes.

As Scoutmaster H. A. Groesbeck calls off the names, answer is made for them and the colors are dipped. Troop No. 502 is connected with public school No. 166.

Troop No. 6 of Jamestown, N. Y., in commemorating the men from that city who died in the nation's service, took the following course:

"In token of our gratitude to them and of our loyalty to the cause for which they died, we have resolved that when the roster of our troop is called their names shall henceforth be called 'Dead on the field of honor' shall thereupon be made for them."

CRIPPLED BOYS AS SCOUTS

A troop of scouts has been organized in the State Hospital for Crippled Children in St. Paul, Minn.

They are the best rope workers and the fastest signallers in town.

The scouts that are able to hobble about much enjoy the program of scouting.

Every member of the troop had a war garden of his own last summer and six received prizes in the local war garden contest. During the year they harvested, from their troop-gardens, vegetables amounting in sales to \$810, and not one of them able to walk without a cane or crutches.

SOME FASHION NOTES.

The new vest collars are made of pique.

Tailor-made suits are almost classically plain.

Edescent embroidered tulle is popular for evening robes.

BOY SCOUTS

SCOUT TREES FOR ROOSEVELT

The 10,000 troops of the Boy Scouts of America are everywhere taking an active part in planning memorials to Theodore Roosevelt.

Many troops have already held impressive services and have taken up Scout Commissioner Dan Beard's idea to plant Roosevelt trees.

A million pine trees will be set out in the Interstate park by the scouts of New York city, according to the plan of the park commissioner. Several troops of Manhattan borough scouts are endeavoring to have a grove of trees planted in Central park to represent the formation of a troop of scouts in the regulation four patrols and called the "Roosevelt Scout Shelter."

In Philadelphia each troop will plant a tree in a prominent place.

"Columbus scouts, as soon as the weather will allow, will plant trees in the state house grounds in the center of the city. Each troop will plant a tree, and the completed group will be known as the "Roosevelt Grove."

The boy scouts of Everett, Wash., are to plant trees on the highway from Skagit to King Lines in honor of the soldier and sailor dead, and they ask that trees be included for their chief scout citizens.

Chicago is planning for a fitting memorial in the forest reserve.

In Syracuse, N. Y. the scouts will plant a number of "Roosevelt elms" in each of the city parks, properly labeled.

This plan of the nearly a half million members of the Boy Scouts of America has found instant support and enthusiastic advocacy.

Constantine Coen, imprisoned in Lens until freed by British bombardment, has returned to his home in Johnston City, Ill. After the British captured the city he was sent to Paris, where he joined the French boy scouts. He wore a French scout uniform when he landed in New York.

Pioneer Scout Norman Liddell of Johnston City interviewed Coen when he got back home. The boy said:

"I left Johnston City five years ago on my way to France to see my aunt. I went to Henelietard (near Lens), a city in France, and lived there two years and a half. While I was there the Germans captured the place and took me prisoner for two years. I used to have to work in the streets for the Germans. The prisoners the Germans took that were over sixteen years old had to eat dogs and cats."

"The town was then bombarded by the British and taken. Then I was sent to Belgium and lived there six months, and then was exchanged as a prisoner and passed to Switzerland. When they took me to Germany; then from Germany to Paris, working for the American Red Cross, and then from Paris I took a boat to a place called Rochambeau, and then I took a steamer to New York, and from New York to Johnston City."

The Little French boy scout who was shot by the invading Germans because he would not reveal the presence of soldiers in the vicinity has been honored by Troop No. 502 of Manhattan by being placed at the head of a ghostly troop of scout war heroes.

As Scoutmaster H. A. Groesbeck calls off the names, answer is made for them and the colors are dipped. Troop No. 502 is connected with public school No. 166.

Troop No. 6 of Jamestown, N. Y., in commemorating the men from that city who died in the nation's service, took the following course:

"In token of our gratitude to them and of our loyalty to the cause for which they died, we have resolved that when the roster of our troop is called their names shall henceforth be called 'Dead on the field of honor' shall thereupon be made for them."

"Bayer Tablets of Aspirin"

For Pain, Neuralgia, Earache, Toothache, Colds, Grippe, Rheumatism, Lame Back, Neuritis.

DOSE! Adults can take one or two genuine "Bayer Tablets of Aspirin" with water. If necessary, repeat dose three times a day, after meals.

"Proved Safe By Millions" Buy only the original "Bayer packages." 20 cent package—also larger Bayer packages. Ask for and Insist Upon Only Genuine "Bayer Tablets of Aspirin"

Owned by Americans Entirely. Aspirin is the trade mark of Bayer Manufacture of Monocrocinolide of Salicylic Acid.

Clocks that speak. Clocks without hands or faces are now common in Switzerland. The timepiece stands in the hall, and when a button is pressed, by means of phonographic arrangements it calls out: "Half-past five," or "Five minutes to nine," as the case may be.

His Convictions. Prison Visitor—My friend, have you any religious convictions? Prisoner—Well, I suppose that's the right word. I was sent here for robbing a church.—London Tit-Bits.

The Reservation. "The human tongue is a mighty engine of progress." "It is when it is not run by hot air."

When Children are Sickly

are Constipated, Fallowish, Cry out in their sleep, Take cold easily, Have Headaches, Stomach or Bowel trouble, Try MOTHER GRAY'S SWEET POWDERS FOR CHILDREN

They are pleasant to take and a certain relief. They act on the Stomach, Liver and Bowels and tend to correct intestinal disorders. 10,000 testimonials from mothers and friends of little ones telling of relief. No mother should be without a box of Mother Gray's Sweet Powders for use when needed. At all Druggists. Ask to-day. The need of them often comes at inconvenient hours.

Used by Mothers for over thirty years. Do Not Accept Any Substitute for MOTHER GRAY'S SWEET POWDERS.

Stock Raising in Western Canada is as profitable as Grain Growing

In Western Canada Grain Growing is a profit maker. Raising Cattle, Sheep and Hogs brings certain success. It's easy to prosper where you can raise 20 to 45 bu. of wheat to the acre and buy on easy terms. Land at \$15 to \$30 Per Acre—Good Grazing Land at Much Less.

Railway and Land Companies offer unusual inducements to homeseekers to settle in Western Canada and enjoy her prosperity. Loans made for the purchase of stock or other farming requirements can be had at low interest. The Governments of the Dominion and Provinces of Manitoba, Saskatchewan and Alberta extend every encouragement to the farmer and ranchman. You can obtain excellent land at low prices on easy terms, and get high prices for your grain, cattle, sheep and hogs—low taxes (come on now, get the improvement), good markets and shipping facilities, free schools, churches, splendid climate and pure crops. For illustrated literature, maps, description of lands for sale in Manitoba, Saskatchewan and Alberta, reduced railroad rates, etc., apply to Superintendent of Immigration, Ottawa, Canada, or O. G. RUTLEDGE, 301 E. Genesee St., SYRACUSE, N. Y. Canadian Government.

GREAT AWAKENING IN SIGHT

Time Coming When Hubby Would Discover "That His Bride Was Not Altogether Spiritual."

He watched her daintily nibbling her cross sandwich.

"I know what it is," he cried, suddenly. "I know why you appeal to me more than any other girl I ever met. It's because you're the perfect combination of the spiritual and physical. Your fresh, plump beauty and your birdlike appetite—"

"I never did eat much, even as a child," she murmured, idly. "A touch of toast in the morning, a sip of sop at noon, a sprig of celery or a pinch of parsley at supper and I'm satisfied. As mother always says, 'The man who pays my board bill will be in luck.'"

"My ideal!" he cried.

Late that night she repaired to the barber, and consumed seven hard-boiled eggs, four cold pork chops, half a pound of potato salad, three tomatoes and three slices of pie.

"It's a fearful strain," she thought, "but I'll land him this week or die in the attempt!"

Suggestion No. 947628. "What'll we do with the kaiser after this war? Set him to work counting his broken promises."

The fact that "faint heart ne'er won fair lady" must be a source of much satisfaction to old bachelors.

The Modern Method.

Mrs. Patterson called upon an acquaintance and found that the latter's ten-year-old son had developed a face that was considerably too large for him.

"So Willie has the mumps," remarked the caller, with a critical glance at the victim. "What are you doing for him?"

"We sent for the doctor," answered the mother. "That's the medicine he left on the table yonder. How times have changed!"

remarked Mrs. Patterson. "When I was a little girl we used to treat mumps by taking a strip of salt pork, plentifully sprinkled with salt and pepper, and binding it around the throat."

"Yes, we thought of that, but at the present price of pork we decided, if the singer is not really deaf he is carried along by his singing and changes to the key given by the piano. By playing in varying strength one may by this means estimate the degree of ailment in a subject having an incomplete deafness."

Detecting Pretended Deafness. In cases where there is hysterical and imagined deafness, or plain simulation, the following ingenuity is prescribed: The patient is made to sing with a piano accompaniment. Then the pianist changes the key (from one-half to one tone or more), and if the singer is not really deaf he is carried along by his singing and changes to the key given by the piano. By playing in varying strength one may by this means estimate the degree of ailment in a subject having an incomplete deafness.

No Table Drink Has Ever Taken The Place Of

The Original POSTUM CEREAL

Boil just like coffee—15 minutes after boiling begins. Its delicious flavor, rich seal brown color and fine aroma make it such a satisfying cup that Postum is the ideal drink with meals for both children and grown people.

Used in place of coffee it provides a real health drink. Contains no drugs, no caffeine as does coffee; doesn't make you nervous, sleepless or fretful.

"There's a Reason" At Grocers—two sizes 15c & 25c.

WRIGLEYS

All of its goodness sealed in— Protected, preserved. The flavor lasts!

ASK for, and be SURE to get WRIGLEY'S. It's in a sealed package, but look for the name—the Greatest Name in Goody-Land.

Sealed Tight—Kept Right

THOUGHT HIMSELF A BARGAIN
Los Angeles Youngster Certainly is Not Bueded With Any Undue Sense of Modesty.

The high price of labor was under discussion at the Rotary club the other day and Manager Chamberlain of Hamburger's remarked:
"There has been so much boasting and salving of the laboring man during the war that a great many people are inclined to overrate their importance. Like the boy we hired the other day, it seemed to think he was favoring our firm by deigning to work for us, and was flagrantly loafing on the job when a department head re-monstrated with him.
"Move lively, now," he finished, "we've got to have some snap around this store."
"Imagine his amazement when the boy answered:
"Well, if a feller my size at \$5 a week ain't a snap for any store, I don't know what is."—Los Angeles Times.

Important to Mothers
Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the *Signature of Dr. J. C. Fletcher* in Use for Over 30 Years. Children Cry for Fletcher's Castoria

Confession of Failure.
Johnnie was practicing diligently with his new slingshot. Suddenly an old lady touched him on the arm.
"Boy," she said, almost tearfully, "that's a thing I never could do—hit a harmless little bird."
Johnnie sighed.
"Darned if I can, either!" he said sympathetically.

Just It.
"We are going to have pretty girls and oyster pie at our church supper tonight."
"I'll go. I have a consuming passion for both."

END INDIGESTION. EAT ONE TABLET

PAPE'S DIAPEPSIN INSTANTLY RELIEVES ANY DISTRESSED, UPSET STOMACH.

Lumps of undigested food causing pain. When your stomach is acid, gassy, sour, or you have flatulence, heartburn, here is instant relief—No waiting!

Old Reliable Olive Tar
Cures throat, bronchitis, and catarrhal glands, and brings wonderful relief.

STOP THAT COLD!
Hurlbert's Camphor Pills
If taken at once will bring relief. Camphor has always been recognized as the proper remedy for colds. And does the best work if taken when you sneeze, or sneeze, or feel a chill coming on. At all drug stores. Price 25 Cents.

DIABETICS

Coughing
Is annoying and harmful. Relieve throat irritation, tickling and get rid of coughs, colds and hoarseness at once by taking **WATERBURY'S**

SELL SURPLUS TO EUROPEANS

United States Material in France Will Be Disposed of.
GET BEST PRICE POSSIBLE

Commission Will Sell Warehouses, Docks, Hospitals, Engines and All Superfluous Army Supplies—France Wants Our Horses.

Paris.—All superfluous material of the American expeditionary forces, now stored in vast warehouses throughout France, will be bargained off to Europeans, provided it is found cheaper to dispose of it here than to transport it to the United States. This announcement was made by the United States liquidation commission, which is holding conferences to determine what disposition should be made of the equipment.

The commission is composed of Senator Hollis of New Hampshire, Homer H. Johnson of Cleveland, O.; Gen. Charles G. Dawes, and Judge Edwin R. Parker of Houston, Tex. Judge Parker has not arrived here yet.

Europe Needs Equipment.
"We will get the best prices we possibly can for all materials," said Senator Hollis to the Associated Press. "There is much equipment of the United States army which Europe needs and which we shall be glad if they buy. Our railroad equipment, in rails, locomotives and cars, is immense. France, Belgium, Roumania and other belligerents and some neutrals are in the market for this material."

"Belgium already has asked for large numbers of our uniforms and automobiles, of which there are thousands still to be disposed of in the most satisfactory way to give the United States the benefit of a good transaction. There are many difficult problems, such as imports, but these are matters for France."
"Some of our hospital material also will be wanted by the French. Hospital trains and hospital equipment can be used anywhere. Of course hospitals which are fastened to the ground can hardly be taken away, and we will have to dispose of these to the best advantage."
"Warehouses, docks and things generally stationary and permanent will be subject to the best arrangement that can be made."

U. S. Supply of Oil Held Near Half Gone

Washington.—Forty per cent of the total known oil supply in the United States, exclusive of oil shale deposits in three states, has been exhausted, according to estimates transmitted by Secretary Lane to the senate commerce committee in compliance with a resolution presented by Senator Ransdell of Louisiana, and made public by the committee.

Up to last January 1 Mr. Lane said, a total of 4,598,000,000 barrels had been produced, while the known available oil resources, not counting the shale deposits, in the ground and in field storage were estimated at 7,740,000,000 barrels. Distillation of shale deposits in Colorado, Utah and Wyoming, however, would produce 70,000,000,000 barrels of oil, the secretary said.

FIND WORK IN REVIVED SHIPYARD

The few industries in and near Washington are absorbing easily so far the men who have been mustered out of the United States army at the capital. Here are three men, one from overseas, just out of the army who are helping build ships in a yard in Alexandria, Va., where the industry has been revived for the first time since the days of George Washington.

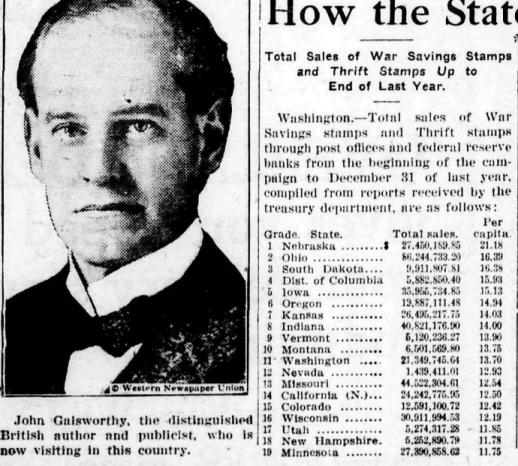

DROWN 50 SERBS IN CHURCH WELL

Frightful Tale of Bulgarian Ferocity Comes to Light From Serbia.

MANY TORTURED AND KILLED

Leskovatz, Serbia.—In Leskovatz there is a church. In the well the bodies of fifty citizens of Leskovatz were found—drowned.
Their arms and legs had been tied and they had been thrown into the water by the Bulgarians when they swept over Serbia, a citizen of the town of Leskovatz told me.
He also said that a good many of the leading citizens of Leskovatz, priests, school teachers and such, had been deported—as those left behind understood—into Bulgaria. But that

NOTED BRITISH AUTHOR

John Galsworthy, the distinguished British author and publicist, who is now visiting in this country.

Allied Navies' War Loss 803,000 Tons

London.—The allied naval losses in the war aggregated 803,000 tons, according to an estimate sent by Reuter's Paris correspondent. Of this loss the British portion was 550,000 tons. The central powers lost 415,000 tons, but the German total, which was 350,000 tons, does not cover the huge tonnage surrendered under the armistice terms.

Commenting upon these estimates, the Westminster Gazette says: "When we learn that in big ships alone we sacrificed thirteen battleships, three battle cruisers and twenty-five cruisers, we get some notion of the tremendous character of the effort that was necessary to enable the navy to emerge from the war vastly more powerful than it was at the end of 1914."

It is an open question whether the machines can be repaired, and if repaired were possible, as to whether it would not cost more than to take a fresh start.
The owner, one of the few capitalists of Serbia, seemed to take an almost melancholy satisfaction in having us see how his life work had been destroyed. He seemed too old, too broken and too discouraged to take a fresh start.

Object to Narrow Skirts.
Lincoln, Neb.—Declaring the narrow skirts "a form of Prussianism to curb women in industry and affairs of the world." The Lincoln Women's club asked merchants to provide less extreme models.

Honor City's Soldiers.
Kansas City, Mo.—"Gold Glory" is to be unfurled here. Permanent memorial to Kansas City soldiers who died in service is planned by a flag with gold stars.

Finds \$10 in Flour.
Martins Ferry, O.—Mrs. Dinsy heartily approves Hoover's food regulations. When wheat-four substitutes were called for she bought up flour of rice flour. While scooping up flour for a baking recently she discovered two \$5 bills. Her grocer said they evidently were in the flour when it came to the store.

TRY ONE-MAN TROLLEY CAR
New Method of Transportation Requires but Single Person in Crew.
New York.—A surface car designed for one-man operation, which it is said, is being operated successfully in other cities, is being tried out in regular service in Brooklyn.
For the time, they are being considered only for use in districts where, in the East, as a general rule, Turks wear yellow slippers, and twenty per cent of the working

WITH FINGERS! CORNS LIFT OUT

Freezone is magic! Corns and calluses lift right off— Doesn't hurt a bit!

A few cents buys a tiny bottle of the magic Freezone at any drug store. Apply a few drops of Freezone upon a tender, aching corn or a callus. Instantly that troublesome corn or callus stops hurting, then shortly you lift it out, root and all, without any pain, soreness or irritation. These little bottles of Freezone contain just enough to rid the feet of every hard corn, soft corn, corn between the toes and the calluses on bottom of foot. So easy! So simple. Why wait? No lumbago!

The Difficulty.
Mistress—You must really break off that dreadful lumbago, Nora, of always wanting the last word.
Nora—But how am I to know, my'am, that you have nothing more to say?—Boston Transcript.

Lives 200 Years!

For more than 200 years, Haarlem Oil, the famous natural remedy of Holland, has been recognized as an infallible relief from all forms of kidney and bladder disorders. Its very age is proof that it must have unusual merit. If you are troubled with pains or aches in the back, feel tired in the morning, headaches, indigestion, insomnia, painful or too frequent passage of urine, irritation or stinging in the bladder, you will almost certainly find relief in GOLD MEDAL Haarlem Oil Capsules. This is the good old remedy that has stood the test for hundreds of years, prepared in the proper quantity and convenient form to take. It is imported direct from Holland laboratories, and you can get it at any drug store. It is a standard, old-time home remedy and needs no introduction. Each capsule contains one dose of five drops and is pleasant and easy to take. They will quickly relieve those stiffened joints, that backache, rheumatism, lumbago, sciatica, gall stones, gravel, "bricks" etc. Your money promptly refunded if they do not relieve you. But be sure to get the genuine GOLD MEDAL brand in boxes, three sizes.—Adv.

The Nature of It.
"Some of these troubled European states want to go back to a monarchy."
"They would find that a crowning mistake."

What Did He Mean?
Mrs. Weeds—"The last thing my husband would want to do is to kiss me."
Mr. Widder—"Then I suppose he was ready to die."

Catarhal Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Deafness, that is by a constitutional remedy. HAL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness results. Unless the inflammation is cured and this tube restored to its normal condition hearing will be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces. ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HAL'S CATARRH MEDICINE.

Fashionable.
"Was it a fashionable wedding?"
"Very." "The groom wore his army uniform."

Cuticura for Pimples and Blackheads.
To remove pimples and blackheads smear them with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water. Once clear your skin care for by using them for daily toilet purposes. Don't fail to include Cuticura Talcum.—Adv.

Went the Rounds.
"What is a public servant, pa?"
"Ours is. She has worked for everybody in the community."

BOSCHEE'S SYRUP
Why use ordinary cough remedies when Boschee's Syrup has been used so successfully for fifty-one years in all parts of the United States for coughs, bronchitis, colds settled in the throat, especially lung troubles? It gives the patient a good night's rest, free from coughing, with easy expectoration in the morning, gives nature a chance to soothe the inflamed parts, throw off the disease, helping the patient to regain his health. Made in America and sold for more than half a century.—Adv.

Any one man may be a hero to a girl if he has the price of a box at the opera.

Ever notice that a lot of imitations are better than the originals?

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.
Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.—Adv.

Very Short.
First Messenger Boy—Gee. Dis is a long novel.
Second Messenger Boy—Now. Yer k'z read it in three messages.

DON'T DRUG KIDNEYS RUB BACKACHE AWAY
Instant relief! Rub pain, soreness and stiffness from your back with "St. Jacobs Liniment."

Kidneys cause backache? No! They have no nerves, therefore can not cause pain. Listen! Your backache is caused by lumbago, sciatica or a strain, and the quickest relief is soothing, penetrating "St. Jacobs Liniment." Rub it right on the aching or tender spot, and instantly the pain, soreness, stiffness and lameness disappears. Don't stay crippled! Get a small trial bottle of "St. Jacobs Liniment" from your druggist and limber up. A moment after it is applied you'll wonder what became of the backache, sciatica or lumbago pain. "St. Jacobs Liniment" stops any pain at once. It is harmless and doesn't burn or discolor the skin.

It's the only application to rub on a weak, lame or painful back, or for lumbago, sciatica, neuralgia, rheumatism, sprains or a strain.—Adv.
There is more or less dead wood in every family tree.

To restore a normal action to Liver, Kidneys, Stomach and Bowels, take Garfield Tea, the mild herb laxative. All druggists.—Adv.

Apothecaries are the most infallible mirror to represent a man truly what he is.—Plutarch.

"Your Nose Knows"

All foods are flavored to make them palatable. All smoking tobaccos are treated with some flavoring for the same reason. But there is a big difference in the Quality and kind of tobacco flavorings. Tuxedo, the finest of properly aged burley tobacco, uses the purest, most wholesome and delicious of all flavorings—chocolate! That is why "Your Nose Knows" Tuxedo from all other tobaccos—by its delicious pure fragrance.

Try This Test: Rub a little Tuxedo briskly in the palm of your hand to bring out its full aroma. Then smell it deep—it's delicious, pure fragrance will convince you. Try this test with any other tobacco and we will let Tuxedo stand or fall on your judgment.

As the Editor Sees It

Fashionable Franklin
 Ben Franklin is in style. If you think a matter of 200 years makes him out of date, glance at the figure he cuts. You will see the likeness of "America—1919."
 Miss America goes in for thrift. She pursues "wise buying," follows this with "sane saving," and devotes herself arduously to "safe investment."
 Franklin typified "Save and have." He featured: "Tis a well-spent penny that saves a groat." And, "If you would be wealthy, think of saving as well as getting." And again, "He that murders a pound destroys all that it might have produced, even scores of pounds."
 Miss America flaunts her 1919 Thrift idea. She condemns the old-fashioned hoarding. Franklin did the same. He advocated that "The use of money is all the advantage there is in having money."
 The "use" however, was left in this time to be solved by the individual. Then, investment was only for the wealthy, and safe investment a matter of doubt. Nowadays all saved pennies can be turned into Thrift Stamps. Everybody can invest in absolutely safe government securities.
 It is the fashion to "spend well," to "think of saving," and to "make a pound produce, even scores of pounds."
 A hundred millions of people are adopting the style of Ben Franklin.

A Bolshevik was recently prevailed upon to elucidate the doctrines of bolshevism. He replied with the usual generalities about the abolition of wealth, etc., and being asked to give details of the program he explained that money must be abolished.
 There would be a substitute, of course. We were not to return to the system of exchange and barter. There would be a certain kind of currency, but it could not be accumulated. A man who did any work would get a ticket at the end of each working day, representing his remuneration. It would have a date stamped upon it, and its validity would end in 48 hours.
 He could either spend it in that time or lose it, and in this way the saving of money would be impossible. There would, therefore, be no capital.
 Every sturdy community is largely a community of home-owners—not rent payers. But try to imagine a man buying a house with a bunch of stamps and dated tickets which will all expire in 48 hours. Multiply this condition by the number of the population and you can visualize one of the funny features which we shall see when bolshevism achieves order out of chaos—when, in a word it becomes systemized.
 It is equally easy to imagine any kind of systematization under bolshevist government.
 A friend soon finds out the religion of his "friend" who is continually borrowing money. The money also seems to have a religion of its own, as it nearly always keeps Lent in the most astonishing fashion.
 What if we should need the Monroe doctrine to use down in Mexico, and should go to the cupboard for it and find the cupboard bare?
 If we may state our poor opinion, the Russian Reds recently arrested in New York would look much handsomer in Russia than they do in the United States.
 These Reds have a nice little oath binding them to "take forcible possession of all wealth through violence of social revolution, and to overthrow and destroy all government and ownership." Beside this highway robbery seems almost respectable.
 The Kaiser has been toasted in Holland, but then he has been roasted in almost every other country, and he may yet be grilled in the peace conference.
 Gentle Spring so often comes dancing in with a dash of snowflakes and a cold in her head and a bottle of spring tonic in her pocket.
 England is in the same position toward Ireland that some men are toward their wives. She can't live with Ireland and can't live without her.
 If you have a job that will fix up a returning soldier or sailor, don't feel bashful about saying so.
 The doughboy who comes home from France expecting to be married at once will have nervous prostration when he buys his first American newspaper and reads in the advertisements "Women's spring suits, \$45.00, Women's oxfords \$12.50," to say nothing of the produce and market reports.
 Americans have always been noted for their generosity. If there is any barley flour left in this country, and it were proposed to ship it to the Germans, there would not be a dissenting voice.
 The congressional committee which drafted the revenue law evidently had no kids of their own and no sympathy with other people's kids. They laid a tax upon athletic goods without re-

gard to the fact that 70% of baseball hats, catchers' masks and mitts and athletic goods of every description are bought by boys under eighteen.

Getting Down to Brass Tacks
 What the world needs now is PEACE!
 And by peace we do now mean merely cessation of war, but a peace of definite boundaries, plainly defined rights, restoration as nearly as possible of anti-war conditions in the countries so recently at strife.
 Since the last gun was fired on the 11th of November, 1918, a great deal of water has run under bridges. A peace conference has sat at Versailles, discussing alternately Utopian theories of internationalism and selfish projects of national aggrandizement. France wants an enormous indemnity from Germany, and England, through fear of losing commercial advantages, has not consented to the course which will alone make Germany once more a producer and enable her to pay an indemnity of any amount whatever.
 Meanwhile, as the days pass Germany becomes more unsettled, more self-extending and more sullen and resentful.
 It is time for the peace conference to cease considering theories and begin on actualities—in other words, get down to brass tacks!
 What Germany and Austria-Hungary need is food and employment. All blockades should be removed, that these countries may receive food and raw materials. The central states, regardless of whether they deserve it or not, should be fed, given the chance to resume manufacturing, and so receive an opportunity for restoration of normal conditions.
 Otherwise, while the peace conference sits formulating the principles and bylaws of a league of nations, Bolshevism may raise its ugly head uncomfortably near the door of the conference. It is a time for practical hard sense—not for dreams.

100,000 BEDS FOR WOUNDED
 More Comfort Bill is Million Dollars a Week.
 Hospital facilities for the care of 105,476 sick and wounded soldiers are available in army hospitals, according to the February report of the Surgeon General of the Army.
 This is one testimonial to the Yanks which the American people can properly insure through the Victory Liberty Loan. At the rate charged in the hospitals of the country, \$1 a day is required to maintain each bed. In one week the total for maintenance of soldiers' beds would, on the same basis, reach three-quarters of a million dollars.
 Many of our sick and wounded boys require special treatment so that the expense is likely to be greater than the low daily rate quoted. Then, too, only a part of the sick and wounded have reached us.
 The Victory Liberty Loan which the people of the United States are going to put over with a whoop will provide the very best care and treatment for every soldier, sailor and marine who needs attention. Your mind can be easy on that score when you subscribe to the Victory Loan.
LEND OR BE TAXED. WHICH?
 "The war will not be over until the United States government has honorably met every commitment made in order to win the war."
 This is the declaration of Carter Glass, Secretary of the Treasury. In plain words, we can't cry quits until we pay off our debts.
 There are two ways of securing their payment. One way is with money lent by the people to the government. The other way is with money taken from the people in the form of taxes by the government.

GLASS HITS AT LOAN "GLOOMS"

Treasury Head Has Supreme Faith in American Patriotism.

Upon the patriotism of the American people Carter Glass, Secretary of the Treasury, places full reliance for the success of the Victory Liberty Loan.

Mr. Glass does not agree with the "glooms" who contend that commercialism is in the hearts of the people and that a spirit of avarice will retard the loan. Sentiment and the spirit of sacrifice are, in his opinion just as closely allied to the present campaign as they were to its predecessors. He is confident that an appeal to public patriotism will succeed where a campaign based on strictly commercial or profit-taking argument would be ineffective.

In an interview he stated his reasons for holding to the patriotic view, as follows:

"Some men tell me it will be impossible again to appeal to the patriotism of the American people. Frankly, I should despair of my country if this were exactly true. I wonder if those who talk in this fashion speak considerately? They tell about the 'sacrifices' the American people have made, and in their voices there is a metallic tone and in their mien unconscious austerity.

"What is meant by the 'sacrifices' of war for America? Where are our devastated fields and ruined cities? Where our cathedrals destroyed and homes profaned? Where our flooded mines and pillaged factories? Where our defiled women and starved children and wrecked men? Where on this wide continent does hunger stalk abroad or pestilential disease claim its thousands of victims?

"Is it, then a serious 'sacrifice' to invest one's money in the interest-bearing obligations of one's government in order to make everlastingly secure the nation's freedom as well as the nation's property? Is it a grave sacrifice to devote one's labor to such a cause and in the process to acquire the habit of thrift and saving, so sadly lacking as a characteristic of the American people?

"Our allies fought for us nearly three years before we began to fight with them. For nearly that period of time the United States profited tremendously, in a commercial and industrial sense, by the European war. Immense fortunes were made; prosperity pervaded our land. Our domestic trade was almost past computation; our foreign trade in many lines was epochal.

"France and Britain lost millions of men killed and millions of others wounded. Less than sixty thousand American heroes sleep beneath the sod of France. These men made the supreme sacrifice. Should we dishonor their memories or diminish the glory of their service by pausing in the cheerful performance of an imperative duty?

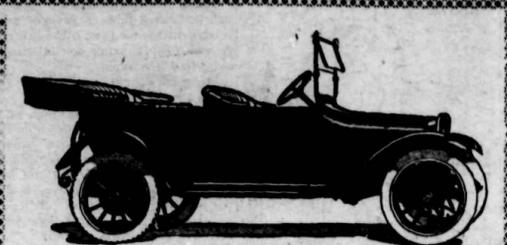

"Do we quite fully appreciate the sacrifices made by these boys for us when we talk about discharging our debt on a commercial basis, in a cold-blooded way? May we not, in this temper, present a distasteful contrast with the spirit of that American soldier who, standing at the brink of eternity, pulled out and gave over his last fanning to help the Red Cross aid other wounded men?

"I want to be sensible in dealing with the Victory Loan. But, as the question looks to me, we should not approach it in cold blood. We have a right to invoke the patriotism of the people. Upon this I shall confidently rely; and I predict that the response will in no measure disappoint the expectation of those who set a high estimate upon the fine spirit of the American nation.

"We call this last the Victory Liberty Loan. It is that and more! It is a Thanksgiving Loan. We are not going to approach it strictly in a commercial spirit. We are not going to float it strictly on a commercial basis. It is impossible to do it. A little thought will teach the wisest among the financiers of this country that it is impossible now to float purely for investment purposes, a loan of five or six billions of dollars.

"We have got to appeal to the patriotism of the American people, and it will not be done in vain. There are yet two million American boys in France and Germany who must be maintained in comfort and brought home in safety and provided with employment on their return. While public funds would have been expended had not the war suddenly terminated, the government is still expending two billion dollars per month to meet the honorable commitments of the country.

"The honor of the government is involved, and I know that the appeal among the financiers of this country that it is impossible now to float, of which the nation will be proud."

FORD, DODGE AND BRISCOE AUTOMOBILES

These cars not only are but have proven themselves to be the very best sellers in this territory. The record for the Briscoe being about 35 during the course of Six Weeks, a record approached by none. The Ford and Dodge record is too well known to need comment and the demand growing daily. For instance the Distributor stopped in Lakewood the other day for about 20 Minutes and sold Two Dodge Cars, was hailed by three (3) dealers that wanted to sell them and by three retail prospects that wanted to buy them (in addition to the two mentioned above). Another half hour would have swamped the Dodge Factory.

Ask any man in service what Uncle Sam thought of the Dodge Car. They now make a Four Door Sedan, \$1750 F. O. B. Factory.

The Ford is coming through now in quantities, the Sedans and Coupes with Liberty Starters (Built in at the Factory.)

The Ford Truck, called a Ton but will carry two or more tons, is the marvel of the world, at \$550 F. O. B. Factory.

Singer Sewing Machines, best in the world, sold for cash or easy payment plan, Sonora Talking Machine, which has the world record for beauty of finish and excellence of tone, the Hepple, Lester, Ludwig and Netzw Pianos and Piano Players, the top of the heap in their line, together with Records and Rolls, on sale for cash or easy payment.

My other lines, too numerous to mention here, are all conducted on the live live wire system and do as the others do, when you want ANYTHING first see CRANMER.

Don't forget that I am still in the General Merchantile business and that I conduct one of the largest Fire Insurance Agencies in Eastern New Jersey, in both Stock and Mutual Companies, and when you need insurance do not fail to ask me for rates and you will be both surprised and pleased.

Motor Vehicle Car and Driver Licenses, Permits, Etc., written here.

New Type, Latest Style Faces

"U. S." Means Real Protection

Out in the open, where seas sweep the deck or wharf, where the gale flings broad the icy waters, fishermen who know values wear U. S. "Protected" rubber boots. These boots will keep your feet and legs dry and warm.

Comfort, economy, durability—these are the qualities that make "U. S." the best boots for you.

U. S. "Protected" rubber boots stand the hardest tests of service. They are built for double-duty, reinforced where the wear is greatest. The Government probably used more U. S. "Protected" rubber boots during the war, than of all the other makes combined.

Every pair of "U. S." bears the "U. S. Seal"—trade mark of the largest rubber manufacturer in the world. Look for this seal when buying rubber boots. It means real protection for your feet and pocketbook.

There's a kind of "U. S." specially suited to your needs. Your dealer has it or can get it quickly.

RED CROSS GIFTS \$400,000,000

War Council on Retirement Announces Cash and Supplies Contributed.

WORKERS WILL "CARRY ON."

Five Big Societies in World Wide Plan.

H. P. Davison Heads International American Red Cross Commission.

Dr. Livingston Farrand Permanent Leader of Peace Organization.

Washington.—(Special).—Henry P. Davison as chairman issues the following statement on behalf of the War Council of the American Red Cross:

"The War Council of the American Red Cross appointed by President Wilson on May 10, 1917, to carry on the work of the American Red Cross during the war, at their request and by vote of the Central Committee, ceased at midnight, February 23.

"Immediately after the armistice was signed the War Council instituted studies to determine when the strictly war work of the organization would have been sufficiently matured to enable the direction of affairs to be resumed by the permanent staff. Henry P. Davison, being in Paris when the armistice was signed, summoned a conference there of the heads of all the Red Cross Committees in Europe to canvass the situation. After considering all the factors it was concluded to make the transition on March 1. The very fortunate choice of Dr. Livingston Farrand as the new chairman of the Central Committee, and thereby the permanent chief executive of the Red Cross, makes possible the consummation of this plan under the most favorable conditions.

Accounts Audited by War Department.

"Detailed reports to Congress and a complete audit of its accounts by the War Department will constitute the final record of Red Cross activity during the war. Although it has been the aim to make public all expenditures when authorized and to give detailed information relative to all work undertaken, the War Council in turning over its responsibilities to Dr. Farrand and his associates desire to give a brief resume of Red Cross war time activities to the American people, to whom the Red Cross belong, and whose generous contributions have made possible all that has been accomplished.

"During the past nearly twenty-one months the American people have given in cash and supplies to the American Red Cross more than \$400,000,000. No value can be placed upon the contributions of service which have been given without stint and oftentimes at great sacrifice by millions of our people.

"The effort of the American Red Cross in this war has constituted by far the largest voluntary gifts of money, of hand and heart, ever contributed purely for the relief of human suffering. Through the Red Cross the heart and spirit of the whole American people have been mobilized to take care of our own, to relieve the misery incident to the war, and also to reveal to the world the supreme ideals of our national life.

"Everyone who has had any part in this war effort of the Red Cross is entitled to congratulate himself. No thanks from anyone could be equal in value to the self-satisfaction enjoyed by one should feel for the part taken. Fully 8,000,000 American women have exerted themselves in Red Cross service.

Has Over 17,000,000 Adult Members.

"When we entered the war, the American Red Cross had about 500,000 members. Today, as the result of the recent Christmas membership Roll Call, there are upwards of 17,000,000 full paid members outside of the members of the Junior Red Cross, numbering perhaps 9,000,000, school children additional.

"The chief effort of the Red Cross during the war has been to care for our men in service and to aid our army and navy wherever the Red Cross may be called on to assist. As to the service of the War Surgeon General and of the U. S. Army recently said: "The Red Cross has been an extraordinary asset to the war itself. From the beginning it has done those things which the Army Medical Corps wanted done, but could not do itself."

"The Red Cross endeavor in France has naturally been upon an exceptionally large scale where service has been rendered to the American Army and to the French Army and the French people as well, the latter particularly during the trying period when the Allied World was waiting for the American Army to arise in force and power. Hospital emergency service for our army in France has greatly distinguished the Red Cross. It is still being called upon for service upon a large scale in the great base hospitals, where thousands of American sick and wounded are still receiving attention. At these hospitals the Red Cross supplies huts and facilities for the amusement and recreation of the men as they become convalescent. Our Army of Occupation in Germany was followed with Medical units prepared to render the same emergency aid and supply services which was the primary business of the Red Cross during hostilities. The Army Canteen service along the lines of travel has

actually increased since the armistice. "As for work among the French people, now that hostilities have ceased, the French themselves naturally prefer as far as possible to provide for their own. It has accordingly been determined that the guiding principle of Red Cross policy in France henceforth shall be to have punctilious regard to its every responsibility, but to direct its efforts primarily to assisting French relief societies. The liberated and devastated regions of France have been divided by the government into small districts, each officially assigned to a designated French relief organization.

"The American Red Cross work in France was initiated by a commission of eighteen men who landed on French shores June 13, 1917. Since then some 9,000 persons have been upon the rolls in France, of whom 7,000 were actively engaged when the armistice was signed. An indication of the present scale of the work will be obtained from the fact that the services of 6,000 persons are still required.

"Our American Expeditionary Force having largely evacuated England, the activities of the Red Cross Commission there are naturally upon a diminishing scale period. Active operations are still in progress in Archangel and Siberia.

"The work in Italy has been almost entirely on behalf of the civilian population of that country. In the critical hours of Italy's struggle the American people, through their Red Cross, sent a practical message of sympathy and relief, for which the government and people of Italy have never ceased to express their gratitude.

Supplies and Personnel to Near East.

"The occasion for such concentration of effort in Italy, England, Belgium and even in France having naturally and normally diminished, it has been possible to divert supplies and personnel in large measure to the aid of those people in the Near East who have hitherto been inaccessible to outside assistance, but whose sufferings have been upon an appalling scale. The needs of these peoples are so vast that government alone can meet them, but the American Red Cross is making an effort to relieve immediately the more acute distress.

"An extensive group of American workers has been dispatched to carry vitally needed supplies, and to work this winter in the various Balkan countries. In order to co-ordinate their activities, a Balkan commission has been established, with headquarters at Rome, Italy, from which point alone all the Balkan centers can be reached promptly.

"A commission has just reached Poland with doctors and nurses, medical supplies, and food for sick children and invalids. An American Red Cross Commission has also been appointed to aid in relieving the suffering of Russian prisoners still confined in German prison camps.

"An important commission is still working in Palestine. Through the war special co-operation has been given to the Armenian and Syrian Relief Commission, which was the only agency able to carry relief to the interior of Turkish dominions.

Red Cross Will Continue.

"Red Cross effort is thus far from over. It will continue to go on. But the movement represented by this work has likewise assumed an intimate place in the daily life of our people at home. The army of workers which has been recruited and trained during the war must not be demobilized. All our experience in the war shows clearly that there is a unlimited field for service of the Red Cross and which can be performed with peculiar effectiveness by the Red Cross. What its future tasks may be it is yet impossible to forecast. We know that so long as there is an American army in the field the Red Cross will have a special function to perform.

"Nothing could be of greater importance to the American Red Cross than the plans just set in motion by the five great Red Cross societies of the world to develop a program of extended activities in the interest of humanity. The conception involves not alone efforts to relieve human suffering, but to prevent it; not alone a movement by the people of an individual nation, but an attempt to arouse all people to a sense of their responsibility for the welfare of their fellow beings throughout the world. It is a program both ideal and practical. Ideal in that its supreme aim is nothing less than veritable "Peace on earth good will to men," and practical in that it seeks to take means and measures which are actually available and make them effective in meeting without delay the crisis which is daily recurrent in the lives of all peoples.

"For accomplishing its mission in the years of peace which must lie ahead of us the Red Cross will require the ablest possible leadership, and must enjoy the continued support, sympathy, and participation in its work of the whole American people. It is particularly fortunate that such a man as Dr. Livingston Farrand should have been selected as the permanent head of the organization. The unstinted fashion in which all our people gave of themselves throughout the war is the best assurance that our Red Cross will continue to receive that co-operation which will make its work a source of pride and inspiration to every American."

Merely a Superstition.

There is no kind of a rod, or instrument, which will locate minerals in the earth with any degree of certainty. Sometimes a bed of iron ore will affect the magnetic needle of a compass, or of a surveying instrument, but there is nothing that will locate the precious metals.

The RIVER

When the Colorado
Burst Its Banks and
Flooded the Imperial
Valley of California

By EDNAH AIKEN

(Copyright, Bobbs-Merrill Company)

WITH HARDIN GONE, HIS AIDS DISORGANIZED, WHAT WILL RICKARD SAY? INNES ACTS TO SAVE HER BROTHER'S FACE.

Synopsis.—K. C. Rickard, an engineer of the Overland Pacific, is sent by President Marshall to stop the ravages of the Colorado river in the Imperial valley, a task at which Thomas Hardin, head of the Desert Reclamation company, has failed. Rickard foresees embarrassment because he knows Hardin, who was a student under him in an eastern college, married Gerty Holmes, with whom Rickard once thought himself in love. At the company offices at Calexico Rickard finds the engineers loyal to Hardin and hostile to him. He meets Mr. and Mrs. Hardin and Innes Hardin, the former's half sister. Innes is bitter against Rickard for supplanting her brother. Hardin discovers that Rickard is planning a levee to protect Calexico and puts him down as incompetent. Gerty thinks her husband jealous. Gerty invites Rickard to dinner and there plans a "progressive ride" in his honor. Rickard pushes work on the levee and is ordered by Marshall to "take a fighting chance" on the completion of Hardin's pet project, a gate to shut the break in the river. In the mind of Gerty Hardin's progressive ride, which is begun despite a terrific wind and dust storm, work comes that the river is raging and every man is wanted on the levee.

leaves. "Where is Hardin?" he asked of every one he met. Silent came up to explain that Hardin had gone up to Fasset's just a few minutes ago to carry dynamite. The river was cutting back there. "Good," cried Rickard, "that's bully!"

"He left me in charge," glibly lied the friend of Hardin. "Any orders, sir?"

"Things are going all right?" began the manager. He stopped. From above came a dull roar.

"Dynamite?" cried Rickard.

The friend of Hardin had nothing to say. "I thought you said he went only a few minutes ago?" demanded his chief.

There was another detonation. Down the river came the booming of the second charge.

"That's dynamite for sure," evaded Silent.

"Not a minute too soon!" declared Rickard, going back to his inspection.

CHAPTER XVI.

Rickard in Town.

The town woke to a matter-of-fact day. The sensational aspect of the runaway river had passed with the night. The word spread that the flood waters were under control; that the men had gone home to sleep, so that women got breakfast as usual, and tidied their homes. The Colorado was always breaking out, like a naughty child from school. Never would the cry of "The river!" fall to drag the blood from their cheeks. But relief always came; the threatened danger was always averted, and these pioneer women had acquired the habit of swift reaction.

That afternoon, Mrs. Youngberg was to entertain at the A B C ranch the ladies of the Improvement club. It was a self-glorification meeting, to celebrate the planting of trees in the streets of Calexico. And to plan the campaign of their planting. Mrs. Blinn drove into town to get Gerty Hardin. Neither woman had seen her husband since the interrupted drive the night before.

"I don't know whether I should go," Mrs. Hardin hesitated, her face turned toward the A B C ranch. "Perhaps there is something we could do."

"I have just come from the levee," Mrs. Blinn's jolly face had lost its apprehension. "The water has not risen an inch since breakfast. Most of the men have been sent home. When Howard didn't come home to lunch, I grew anxious. But Mr. Rickard says he sent him to Fasset's with more dynamite."

"There he is," thrilled Gerty. "Where? Blinn's eye swept the street. "Who's? Your husband?"

"No, Mr. Rickard. Passing the bank. There, he's stopped. I wonder if he is going in? You call him, Mrs. Blinn."

Obediently her friend halted Rickard. He turned back to the windy street. He felt boyish; the crisis was giving him mercurial fits. He loved the modern battle. Elements to pit one's brains against, wits against force!

Gerty Hardin's face was flushing and paling. "The river," she faltered. "Should we be alarmed, Mr. Rickard?"

"Smiling, he assured her she should not be alarmed; the levees would protect the towns."

"Mr. Hardin is up at Fasset's ranch, he will be coming back today. Tell your husband, Mrs. Blinn, to catch a nap and then relieve Mr. Rickard."

Gerty found a significance in his words. He had said "Mr. Hardin," and "your husband, Mrs. Blinn." It was enough to weave dreams around. "We can't do anything, Mr. Rickard, to help?" urged Gerty Hardin, her voice tremulous.

"I hope we won't have to call on you at all."

There was no excuse to linger. Gerty threw a wistful little smile at parting.

CHAPTER XVII.

Opposition.

The second night of the flood, the women of the towns dragged brush and filled sacks for the men to carry. It was past midnight when Innes Hardin left the levee. While her feet and fingers had toiled, her mind had been fretting over Tom. Two nights, and no rest! It was told by men who came down the river how Hardin was heroically laboring. She yearned to go to him; perhaps he would stop for a few hours to her entreaty. But an uncertain trail across country, with the dust-laden wind in her face? She decided to wait for the dawn. A stretched sleep first, but who would call her? She would sleep for hours, so weary every muscle. Her mind fixed on Sam as the only man in town who had time to saddle a horse for a woman.

She went in search of him. She found that the long adobe office building had already taken on the look of defeat, of ruin. The casements had been torn from the partitions; the doors and windows were out. The furniture had been hauled up to high ground farther away for safety. She went hunting through the gloom for the dark, turning her lantern in every dark corner. She knew that she would find him sleeping. Then she heard steps on the veranda. She ran toward them, expecting to see Sam. She swung her lantern full on two figures mounting the shallow steps. Rickard was with her sister-in-law.

"Oh, excuse me!" she blurted blunderingly. Of course Gerty would take a wrong intention from the stupid words!

The blue eyes met those of Innes with defiance. It was as though she had spoken: "Well, think what you will of it, you Hardins! I don't care what you think of me!"

What indeed did she think of it? Why should she feel like the culprit before these two, her words deserting her? It was Gerty's look that made her feel guilty, as though she had been spying. To meet them together, here at midnight, why should not they feel ashamed? She had done nothing wrong. And Tom down yonder fighting—and they make his absence a cover for their rendezvous.

"I'm looking for Sam!" The effort behind the words turned them into an oratorical challenge.

"Orders me to bed," spat Wooster. "Wonder why he didn't order Gert, too. It's quite antagonistic to the

home with Mrs. Hardin. She's worn out."

"She can go home with me. I am going directly. As soon as I give a word to Sam." She instantly regretted her words, abruptly halting. It came to her that Rickard would insist upon delivering her message. Of course, he would oppose her going. Some petty reason or other. She knew from the men that he was oppositional, that he liked to show his power. Not safe, he would say, or the horse was needed, or Sam too busy to wait on her!

"You cannot go home alone, you two. The town is full of strange Indians. Give me your lantern, Miss Hardin; I'll rout out that darky."

Rebelliously she gave him the lantern. The light turned full on her averted angry eyes.

A haughty Thumseida followed him. Sam was discovered asleep in the only room where the windows had not yet been attacked. His head rested on a bundle of sacked trees which the ladies of the Improvement club had planned to plant the next day. Deep snores betrayed his refuge.

"Here, Sam! I want you to take these ladies home. Chase yourself. They've been working while you've slept. I thought you'd have all these windows out by now."

Gerty had to supply the courtesy for two. She told Mr. Rickard in her appealing way that she had been very kind; that she "would have been frightened to death to go home alone."

Innes had to say something! "Good-night!" The words had an insulting ring.

The wind covered a passionate silence, as the two women, followed by Sam, yawning and stretching, made their way down the shrieking street.

"It was true," Innes was thinking. She had at last stumbled on the rout, but it was not a matter of personal, but of moral untidiness; not a carelessness of pins or plates, or tapes or dishes. It meant more unhappiness for Tom.

Her aching muscles told her that she could not have slept four hours when the darky was back, knocking at her door.

Innes' horse loped through the silent streets.

"I'll run past the levee; perhaps Tom has come back." It occurred to her that there might be a message at the hotel. She pulled on her left rein, and swept past the deserted adobe.

As she reined in her horse, Rickard stepped out on the sidewalk. He, too, was heavy-eyed from a snatched nap.

"Were you looking for me?"

The scorn in the girl's face told him that his question was stupid. For him!

"Has my brother come back?"

He said he did not know. "You can see I have been dreaming!" She would not smile back at him, but rode off toward the levee.

Was this the river? West of the levee, a sea of muddy water spread over the land. There was yet a chance to save the towns, the town, she corrected herself, as her eye fell on the Mexican village across the ditch. For the mud but had already fallen; the water was running close to the station house.

She saw Wooster standing near, calculating the distance, the time, perhaps, before the new station would go. She halted Wooster. "Ruin was pre- saged in the lines of his forehead."

"Pretty bad?" she cried.

He shook his head.

"Is Tom back?"

"He's over there, now. Fighting like all possessed. He'll work 'till he drops." Wooster was proud of that method.

"We all know Tom!" Her pride sprang up. "But he's got to stop for a while. I'm going up after him."

"Not if my name's Wooster. I'll go. He'll mind me."

She watched the flowing river, swollen with the wreckage. She saw, with comprehension, a section of a fence; somebody's crop zone. There was a railway tie, another! The river was cutting up Estrada's new roadbed? A crop broke from her as a mesquit on the coffee-colored tide caught on a buried snag. The current swirled dangerously around it. Instantly, the water rose toward the top of the levee. Men came running to pry away the tree. A minute later, it was dancing down the stream. They raised the bank against the pressing lapping waves. There, the tree had struck again. They ran down the levee with their long poles. Each time that happened, unless the obstruction were swiftly dislodged, she knew it meant an artificial fall somewhere, a quick scouring out of the channel. The men were working like silent parts of a big machine; the confusion of the first night was gone. From their faces one

CHAPTER XVIII.

The Passing of the Waters.

Babcock came rushing down from Los Angeles that morning to see what in thunder it was all about. He asked every one he met why some one didn't get busy and stop the cutting back of that river? There was no one at the offices of the company to report to him! Why, the building was deserted. Ogilvie's letters had prophesied ruin. It all looked wrong to him. Going on to the levee, he met MacLenn, Jr., who was coming away. The boy told him vaguely that he would find Rickard around there, somewhere.

"I'll hunt him up for you."

"Why, they are letting it get ahead of them!" Babcock's manner suggested that he was aggrieved that such carelessness to his revered company should go unpunished. Something, he told MacLenn, might have been done before the situation got as bad as this!

His excited stride carried him across the dividing ditch, which now was carrying no water, into Mexicali. MacLenn had to lengthen his step to keep pace with him. The havoc done to the Mexican village excited Babcock still more.

Estrada, just in from his submerged tracks, was lounging against an adobe wall. His pensive gaze was turned up-stream. The posture of exhaustion suggested laziness to Babcock, who was on the hunt for responsibility. He was more than ever convinced that the right thing was not being done.

FAMOUS ROCK OF GIBRALTAR
Great Britain Has So Strongly Fortified It That It Is Rightly Considered Impregnable.

Since the day, more than 200 years ago, when the flag of Great Britain was flung out over Gibraltar, the strongest fortress in the world, that country has won many triumphs in commerce and has become mistress of the seas.

The rock of Gibraltar is 1,400 feet high and across the narrow bay may be seen the coast of Africa only nine miles away. The rock is nearly three miles long and about half a mile broad. On the eastern side the cliff is so steep that nothing but a monkey can scale it, and there is a colony of monkeys living there, the only animals of their kind living wild in Europe.

The only possible approach to the rock is by land from the north, or from the sea on the western side. As viewed from the ocean the Rock of Gibraltar is impressive, strong, gloomy and forbidding. But flowers grow about the steep walls. The great Victoria steeple, occasionally by ancient blossoms. Here are concealed 100-ton guns, sinister, threatening. The north and northwest sides are honeycombed by fortifications. There is a town and harbor on the west, protected by batteries and forts rising from the base to the summit of the rock. Modern guns of the most formidable pattern crown the heights. The town is inhabited by a British colony of about 25,000 people. Everything is under strict military regulation.

Tribute to Wise Parent.
It was the policy of the good old gentleman to make his children feel that home was the happiest place in the world; and I value this delicious home-feeling as one of the choicest gifts a parent can bestow.—Washington Irving.

Difference in Heart Beats.
According to an English scientist there is an individuality in heart beats affecting the handwriting to such a degree that it can be identified when writing is magnified.

Stinging the Bees.
"It has always seemed funny to me," murmured the almost philosopher, "why a fellow says he keeps bees. The truth of the matter is the bees keep themselves. All he does is rob 'em."

Daily Thought.

Rickard Was With Her Sister-in-law.
would not guess that their fortunes, their homes, hung on the subdividing of that indomitable force which had not yet known defeat, which had turned back explorer and conquistador. Ah, there was the lurking fear of it! Victory still lay to its credit; the other column was blank.

She saw Wooster coming toward her. His snapping black eyes shot out sparks of anger.

"He won't let me go." But she knew. "Casey. Says he'll send some one else. I said as nobody else'd make Hardin stop. He said as that was up to Hardin."

Of course, he wouldn't let Wooster go!

"Orders me to bed," spat Wooster. "Wonder why he didn't order Gert, too. It's quite antagonistic to the

Tom was right. Rickard did take advantage of his authority.

She did not see Rickard until he stood by her side.

"I'm sorry not to spare Wooster, Miss Hardin. But there's still work ahead. He's got to be ready for a call. If Hardin insists on spending one good soldier, that's his affair. I can't let him spoil two."

Wooster shrugged, and left them. "Spilling good soldiers!"

"I've taken Bodefeldt off duty. I told him to relieve Hardin."

Bodefeldt who blushed when anyone looked at him! He would be about as persuasive to Tom as a veil to a desert wind! She turned away, but not before Rickard saw again that transforming anger. Her eyes shone like topazes in sunlight. She would not

"Estrada took his eyes from the river Babcock looked like a snapping terror taking the ditch at a bound. MacLenn, Jr., a little greyhound, followed. "What the devil are you doing to stop this?" A nervous hand indicated the Mexican station gleaming in its fresh coat of paint; to the muddy water undermining its foundation.

Estrada drew a cigarette out of his pocket; lighted it before answering. "Not a thing. What do you suggest?"

A big wave struck the bank. The car on the siding trembled.

"Another wave like that and that car'll go over," cried Babcock, jumping mad. "Why don't you do something? Why don't you hustle—all of you?" He would report this incompetence.

Down the stream came a mass of debris, broken timbers, ravaged brush, a wrenched fence post, a chicken coop. A red hen, clinging to its swaying ship, took the rapids.

"Hustle—what?" murmured Estrada.

Babcock glared at him, then at the river. His eye caught the approaching wreckage. Men came running with their poles. The caving bank was too far gone. The instant the drifting mass struck it, there was a shudder of falling earth, the car toppled toward the flood waters, the waves breaking into clouds of spray.

Human responsibility fell to a cipher. The river's might was magnificent. Even Babcock, come to carp, caught the excitement. "Come, MacLenn," he cried. "Watch this! The station's going!" He joined Estrada by the adobe wall.

"Have a cigarette?" murmured Eduardo.

"Orders Me to Bed."

trust herself to speak. Wooster was waiting for her. Rickard could hear the man repeat. "I'm sorry, Miss Hardin. It's an outrage. That's what it is."

Queer, they couldn't see that it was Hardin's fault; Hardin who was up the river fighting like a melodramatic hero; fighting without caution or reserve, demoralizing discipline; he couldn't help admiring the bulldog energy, himself. That was what all these men adored. He'd clenched the girl's antagonism, now, for sure! How her eyes had flashed at him!

Hello! There was a tree floating down toward the station house.

"Bring your poles!" he yelled.

(TO BE CONTINUED.)

OBSERVE STARS IN DAYTIME

If One Is Sufficiently Interested They Can Be Seen From Bottom of Well.

Not only have the astronomers devised a means whereby they may observe the stars in the daytime, but anyone may, if he choose, see them at such time if he will go to the trouble to do so. At the bottom of a deep well an observer on looking up will see the stars if the sky is clear and the sun does not happen to be shining directly into the well.

Why cannot the stars be seen from the surface of the ground in the daytime? They certainly give forth their usual amount of light, and it will be remembered that the moon is frequently seen during the day.

The question resolves itself into the capacity of the human eye. During the day the sun shines on particles suspended in the atmosphere itself, and its rays are reflected in every direction from the different particles. We thus have diffused light by means of which one can see objects not directly in the sunlight.

If it were not for this diffusion of light, or irregular refraction, as it is called, we could not possibly see anything not in the direct sunlight. Now, these rays irregularly reflected enter the eye in enormous numbers, so the intensity is comparatively great with starlight.

But to a person in a deep well or mine shaft only the perpendicularly reflected rays enter the eye, and from only those particles directly over the mouth of the shaft. This comparatively little light enters the eye, and any starlight that comes down at that time is easily perceived and the presence of the star is recognized.

He that is valiant does not commit self-murder.

Some people seem to think that because rabbits' ears are so long it is a good reason to use them as handles. They have told me that "the mother rabbit carries her young around by the ears!"

I have had a pretty good opportunity to observe such a feat, but I have never seen such a performance. It is all right to hold them by the ears, but I always put my hand or arm under their hind legs to lift them up, and then I know I am not hurting them.

One peculiarity I have always noticed about rabbits is their apparent lack of clear vision. If you will notice their eyes you will see that they scarcely, if ever, move the eyeball to look up or down or at either side, as a cat does. You can't tell when they are looking directly at you, as you can with a cat.

If you throw a carrot to them they will not sight it and go directly to it, but will smell about with nose to the ground till they find it, and they may go six inches past it a few times before they strike it.

Put a rabbit on a chair, table or box, and he will go carefully to the edge, leaning his head over and seemingly wondering how far he is from the ground, whereas a cat would think nothing of springing down from such a height.—Boys' Life.

Finland Bonfires.
Originally the Finlanders were fire-worshippers, and to this fact, doubtless, may be traced the custom, never neglected at midsummer and other seasons, of lighting on the hills bonfires, around which the country folk dance, while they join their voices in musical choruses. At the coast this traditional fire is often lit upon a raft some short distance from the shore, and there the festive throng row in a circle, singing almost as long as the flames continue to illuminate the somewhat weird scene.

**An Imitation Takes For Its
Pattern the Real Article**

There was never an imitation made of an imitation. Imitators always counterfeit the genuine article. The genuine is what you ask for, because genuine articles are the advertised ones. Imitations are not advertised, but depend for their business on the ability of the dealer to sell you something claimed to be "just as good" when you ask for the genuine, because he makes more profit on the imitation. Why accept imitations when you can get the genuine by insisting?

**Refuse Imitations.
Get What You Ask For!**

If Your Business

One of the strangest things in advertising or in printing is that a man will start out with the intention of having the best that he can get. He will find, let us say, that it is going to cost \$100, but that by skimping he can save \$10. He will hit the can get it for \$100. Taking that 10% off the price and out of the quality is just like taking the edge off a knife. You can cut some things with a dull knife, but there are some things you can't cut with it, and you can't cut anything as quickly, smoothly, cleanly and thoroughly as you can with a sharp knife. Advertising ought to have a razor edge, even if it does

Isn't Worth Advertising

Get a little bit for grinding. It ought to be keen enough to enter the brain of greatest resistance.

It is the last few dollars that are spent on advertising that give it value. It is the last pound of power that lifts a weight. If it takes a strain of 100 pounds to break a weight, 99 pounds wouldn't do a good job. You can spend 99 pounds on it, and leave off just where you started. If you want to break that chain you will have to spend those 100 pounds over again and add the other pound to it after all.

It would have been better to have used 1000 pounds at the start. It is better to spend \$100 for a thoroughly effective booklet than to spend \$100 for one that is inefficient.—Rice and Leather Tools.

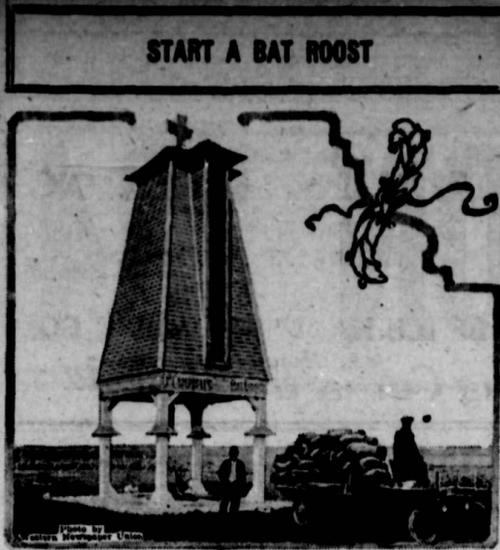

Advertise It For Sale.

It is no use advertising unless you have the Goods, and no use having the Goods unless you advertise.

START A BAT ROOST

Dr. Charles A. Campbell in front of one of his bat roosts at San Antonio, Tex. Doctor Campbell has rendered the city of San Antonio a great service by his introduction of bats to combat the malaria mosquitoes that caused so many deaths in Texas. The bat is a natural enemy of the mosquito and soon rid of its mosquitoes, besides making available land that heretofore could not be used on that account. The bats are self-sustaining, as the guano they produce is sold for fertilizer.

mor. They prefer a calm, quiet day to a windy day. They make their homes and nests where they will be least affected by the wind. You will always find a rabbit sitting where the wind doesn't blow upon it; it is protected from the wind always. The same thing is true of other animals, and of the birds.

And yet the wind is tremendously useful. If the air were to remain motionless for a day, if a perfect calm should come over the face of the earth, life would cease to be, and vegetation would perish. Everything would suffocate or be destroyed. For it is the wind that keeps the earth pure and sweet and fresh, and prevents animal life from burning up, and makes vegetable life possible.

And when it comes to pure delight, there isn't anything that exceeds the wind. To have it pass over us, to feel it upon our cheeks, even when it is cold and harsh, surely there is nothing more glorious. To walk in the face of a storm, as if meeting the wind halfway—there isn't anything finer than that, and we are going to miss a lot of pleasure if we do not get out and face the wind—and enjoy it.

Skeletons of Prehistoric Animals Is Chief Product of Large Nebraska Ranch

Where do the museums of the country get their strange and curious skeletons of prehistoric animals? If the skeleton is a "dinolynx" or a "morsopus," one may be quite sure that it came from the farm of James Henry Cook, in the northwest corner of Nebraska; and the chances are almost equally good if the specimen happens to be a sub-toothed cat or a many-toothed horse, or almost any of those queer animals that belong to the early Miocene period, writes R. P. Crawford in Popular Mechanics Magazine. Most ranchmen and farmers are quite content to raise the ordinary sort of stock, but here is a ranch that is most widely known because of its output of prehistoric animals. For more than a decade paleontologists from the great universities and museums of this country have made regular trips to these fossil quarries.

The Cook farm and ranch, located close to the Wyoming line, comprises some 15,000 acres. On the eastern edge of the ranch the Niobrara river has laid bare two hills, from both of which scores and scores of fossil skeletons have been quarried. In the summer it is no uncommon occurrence for representatives of half a dozen eastern institutions to pitch camp near these hills and spend several months digging out the fossil bones which, when worked over in the museum, form the queer-looking skeletons.

30,000 Lakes in Florida

There are 30,000 lakes in the central regions of Florida, most of them very shallow and due to sinkholes or hollows in limestone.

Alcohol and Automobiles

Why Passing of John Barleycorn Will Be Boon to Motorist and to Motor Industry.

Says one motorcar bukkler who is also a bit of philosopher: Old John Barleycorn is getting ready to take the count. By next July he'll be groggy and by January 1, 1923, the average citizen will not be able to fill a tumbler. What will this mean to the automobile industry? A great deal, viz.:

1. There will be few motorcar accidents, because rum has been at the bottom of most disasters.
2. There will be fewer arrests for speeding, because it is rum that makes the auto go.
3. The pest of the roadhouses and their bars will be removed, thereby enhancing touring for those who don't care for barroom lollering and the pursuit thereof.
4. Billions of dollars spent for booze will be available for other purchases. The motorcar industry will benefit by this.
5. There will be more alcohol to put into anti-freeze mixtures—not for the human system, but the automobile's system.

Without the Wind and Air All Life Would Cease and Vegetation Would Perish

Everybody knows what the wind is, of course. Why, you can feel it, and see the trees bend before it, and the dust carried along and leaves overturned and the clouds moved by the wind, writes George F. Durba, in the Columbus Dispatch. The wind is a movement of the air; when the air is still, there is no wind, and when the air moves hurriedly that is what we call wind. Certainly all of that is simple enough.

But sit right down here and try to figure out what the wind is, and where it comes from and where it goes—and yet we find that the fellow who wrote in the Bible that no man knew from whence the wind came, nor whither it listeth, had it about right. It is easy enough to know the effects of the wind. The hot winds of summer burn and scorch, and the cold winds of winter bite and sting. Moisture is absorbed by the air when the winds are blowing—or the winds dry up the roads, as we say.

Neither the birds nor the animals like the wind. They avoid it the best they can, both in winter and in summer.

SOMEHOW OR OTHER

Life is a burden to everyone's shoulder; None may escape from its troubles and care; Miss it in youth and 'twill come when we're older; And fit us as close as the garments we wear; Sorrow comes into our homes uninvited; Robbing our hearts of its treasures of song; Lovers grow cold and our friendships are slighted; Yet somehow or other we worry along; 'Midst the sweet blossoms that smile on our faces; From the frank weeds that would poison and blight; And 'e'en in the midst of earth's beautiful places; There always is something that isn't just right; Yet let from the rock we may pick a gay flower; And drink from a spring in a desolate waste; They come to the heart as a heavenly dower; And naught is so sweet to the eye or the taste; Every-day toil is an every-day blessing; Though poverty's cottage and crust we may share; Weak is the back on which burdens are piled; But stout is the heart that is strengthened by prayer; Somehow or other the pathway grows brighter; Just when we mourned there was none to befriend; Hope in the heart makes the burden seem lighter; And somehow or other we get to the end.

—Unidentified.

MOTHER'S COOK BOOK

by Nellie Maxwell

These are the gifts I ask Of thee, Spirit serene; Strength for the daily task, Courage to face the road; Good cheer to help me bear the traveler's load; And for the hours of rest that come between, An inward joy in all things heard and seen.

—Henry Van Dyke.

Savory Dishes.
A good meat substitute which will be found worth while trying is
Boston Roast.
Soak two cupfuls of dried lima beans over night. Drain and put to cook in boiling water. When tender, drain and retain the liquid. Press the beans through a sieve, add two cupfuls of peanuts or English walnut meats, chopped fine, half a cupful of strong cheese, grated or finely cut, half a cupful of soft bread crumbs, one-half cupful of very finely chopped celery, one teaspoonful of salt, one teaspoonful of grated onion, a few dashes of pepper, one egg beaten light, and enough of the bean liquor to mix into a compact loaf. Grease a baking pan, put in the loaf and bake one-half hour, basting with vegetable oil and water, four times. Serve with a brown or tomato sauce.

Savory Rice.
Cook a cupful of well-washed rice in a quart of water for three minutes, then drain and rinse with cold water. Return the rice to the fire with two tablespoonfuls of chicken fat and an onion cut in slices, cook until the fat is absorbed, then add two cupfuls of chicken broth, two cupfuls of tomato pulp, a teaspoonful of salt, half a green pepper cut in shreds, and a dash of paprika. Cook until the rice has

YANK'S NOVEL GIFT TO HIS BEST GIRL

Not many young women who have had a some one dear to them "over there" can boast of a gift as unusual as this girl is about to receive from her admiring Yank sweetheart. The present in question is a belt containing 20 insignias of war, including those of rank, branch of service, and even a general's star. The collection was made by Private Louis C. Haber of the Ninety-first division, who participated in the struggles of St. Mihiel and the Argonne. The lucky recipient of this odd gift is Miss Helen Kosby.

NOTES OF SCIENCE

Pickled peanut meal is used for bait by French sardine fishermen.

A stool attached to a piano with a hinged bracket has been invented.

Ecuador has established a course in scientific agriculture at its central university.

According to an English scientist there are 17,000,000 fat globules in a drop of milk.

For handling cakes of ice an inventor has patented mittens with metal points in the palms.

Origin of Alma Mater.
This term, applied to colleges and universities wherein men receive their scholastic training, is of Roman Catholic origin. It originated in medieval times in the University of Bonn, Germany. Over the portal of that seat

Shortage of Sugar Bags.

Sugar planters in the Hawaiian Islands are facing a shortage of bags used as containers for raw sugar. These bags have been imported from Calcutta. Recently machinery was sent to Honolulu from Washington for manufacturing the bags from the fiber of banana tree trunks.

Year's Trapping Nets Pair \$10,000—Sole Residents of Island Off Cordova, Alaska

For nine years Joseph Bach and his wife have been the sole residents of Middleton Island, about 60 miles from Cordova, Alaska. Recently they came to Cordova with 100 blue fox skins, valued at approximately \$10,000, representing the fruits of one year's work on a spot of land never visited by anyone except the crew of the power schooner that takes supplies to the Bachs and brings them to the coast. The Bachs never find time dragging on their hands. Feeding of their foxes alone is a considerable task, as each animal requires two and a half pounds of fish daily. With 150 foxes on the island, the work of supplying sufficient fish for them is formidable in itself. Seal meat and vegetables are also fed to the foxes, the vegetables being raised by the Bachs.

In summer time the Bachs sometimes add much to their income by panning the sands on the beach for gold dust.

First Metal Pen Came Into Use About the Year 1860

The metal pen came into use about the year 1860, but it was nearly a quarter of a century later when the industry began in earnest. The making of steel pens was first undertaken in England. In the early days they were made with the holder and pen in one piece, but this, of course, when the pen wore out, necessitated discarding the holder also, and so econ-

Use of Fish Oldest Plan for Fertilizing of Crops

The oldest industry to make use of waste for fertilizing is the fish industry. The custom of fertilizing crops with fish existed among the Indians of New England before the arrival of white settlers. It is said that for fertilizing corn one or two fish were buried in each hill. This procedure was adopted by the colonists, and at the time of a large catch the surplus fish were simply spread broadcast over the fields. In places where fish were plentiful this disposal of an over-supply of fish has been practical until very recent times.

6,000 Visible Stars

The stars that may be seen by the naked eye in both hemispheres number about 6,000.

Watch With Gasproof Case.

A watch provided with a gas mask was found on a German soldier who was taken prisoner shortly before the cessation of hostilities, says Popular Mechanics Magazine. A false case with a glass front is so constructed that when it is closed, with the watch inside, no corrosive enemy gas can enter the works and injure the delicate mechanism.

1—The NC-1, one of the three United States seaplanes that are being prepared for the transatlantic flight. 2—Major Gen. Frederick B. Maurice of the British general staff who has come to America to lecture on the war. 3—Remarkable view of the U. S. S. Missouri steaming into her berth at Hoboken with the last of the Twenty-seventh division.

RED CROSS SUPPLIES IN WAREHOUSE IN BREST

Huge supplies of Red Cross materials piled high in a warehouse at Brest waiting to be shipped to towns of Belgium and France, where they will relieve the destitute population.

FIGHTING SPARTACANS IN BERLIN

Government troops are here seen in actual combat with Spartacans in the Schutzenstrasse in Berlin. They have entrenched themselves behind huge bundles of newspapers.

PRINCESS EITEL

The determination of Prince Eitel to obtain a divorce from his wife does not mitigate the contempt in which that corpulent son of William Hohenzollern has been held in this country ever since his activities in France and Belgium were bared to the world. Princess Eitel has been known as a devoted wife.

YANK'S NOVEL GIFT TO HIS BEST GIRL

Not many young women who have had a some one dear to them "over there" can boast of a gift as unusual as this girl is about to receive from her admiring Yank sweetheart. The present in question is a belt containing 20 insignias of war, including those of rank, branch of service, and even a general's star. The collection was made by Private Louis C. Haber of the Ninety-first division, who participated in the struggles of St. Mihiel and the Argonne. The lucky recipient of this odd gift is Miss Helen Kosby.

Useless Expression.

Benny—Father, I often read about poor, but honest people. Why don't you sometimes say rich but honest?

Father—It would be useless, my son; nobody would believe it.

What Arguing Leads To.

"You know you are in wrong," said the contentious man.

"Nothing of the sort," replied the unwilling debater. "I merely said I might be mistaken."

"Ha! then you concede that you are not infallible?"

"Of course I do. Nobody but a blankety-blank fool would think himself infallible."

"Sir, do you mean to insinuate—"

"I don't mean to insinuate anything. Thank heaven, here's my car! Good night!"—Birmingham Age-Herald.

Just Plain Brick.

Consol—Then you think he struck you with malice aforethought?

Witness (indignantly)—You can't mix me up like that. I've told you twice he hit me with a brick. There wasn't no malice nor nothin' of the kind about it.—Shipping World.

The Silver Lining.

Heck—So your wife insists on having her own way in everything.

Peck—Yes, but she changes her mind so often it isn't at all monotonous.—Boston Transcript.

BARN IS FARMER'S BEST INVESTMENT

Modern Building Increases Production, Lessens Labor.

IDEAL STRUCTURE IS SHOWN

Plans Provide for Combination Dairy and Horse Stable—Brings All the Live Stock Under One Roof.

By WILLIAM A. RADFORD.

Mr. William A. Radford will answer questions and give advice FREE OF CHARGE on all subjects pertaining to the subject of building work on the farm, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 127 Prairie avenue, Chicago, Ill., and only inclose three-cent stamp for reply.

"Better barns mean better and more productive cows." That is the axiom of the successful business farmer. Cows are valuable. More valuable than they have been in the history of the dairying industry in America. As profit producers they stand at the head of the live stock division of the farming industry.

When the owner of a dairy herd demonstrates to himself that a warm, well ventilated stable causes greater milk production at the time of the

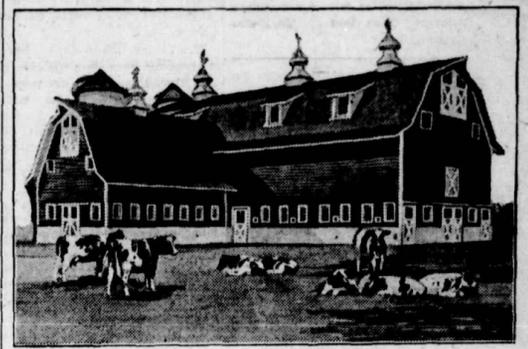

door, pass between the stalls, and get out at the other end of the building. At the rear of the cow barn are two feed rooms, connected with the stalls. There also is a toilet room here.

The horse barn will accommodate ten animals, eight in stalls and two in box stalls. The farm office is at one side of the entrance and the harness room on the other.

While only the general scheme of equipment for this building is shown, the plans contemplate the use of many specialties that make for efficiency in doing the work required. The doors are equipped with storm-light, easy rolling hangers; drinking water is piped to individual drinking cups at each stall, providing clean, fresh water at all times of the day or night; feed and litter carriers on overhead tracks make the distribution of food and the removal of manure easy. In the hay loft, a carrier is provided.

Careful provision has been made for ventilation, one of the most important features of the modern dairy and horse barn. There are air pumps or cupola ventilators on the roof, three large ones on the ridge of the main section of the barn and a fourth on the wing. These ventilators pull the foul air out of the stables through well insulated, foul air flues. Fresh air comes in through the windows as they are tilted back at the top, resting on galvanized iron window ventilating shields. With these the fresh air is deflected to the stable ceiling, where it diffuses gradually; no direct draft blows against the animals. Sunlight is nature's greatest germ killer. Plenty of windows are provided in this barn.

Taken all together, the plan shown gives all the practical features that a modern barn should have to make the

year when milk brings the highest price, he wonders why he did not build such a barn before. And when, with the modern barn equipment, he realizes that a great part of the unpleasant work about the barn can be performed easily and with less effort, he is as keen for modern conveniences in the barn as he is to have them in the house.

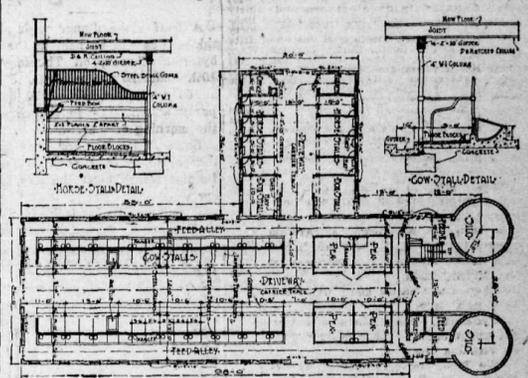

A comfortable cow is the best revenue producer. A cow that is cold, that is allowed to go thirsty until given times in the day does not produce the quantity of milk she is capable of giving. In a cold barn, that is poorly ventilated, a cow must consume greater quantities of food to keep herself warm. In a tight stable a greater portion of this food is converted into milk. Running water in the barn, where the cow can take a drink whenever she wants one, also means greater milk production. "Put the water into the milk, only do it before instead of after milking" is the advice of the successful dairyman.

During the last two years, the business farmer has been making money.

animals comfortable and productive. There is another side to the question of whether or not a strictly modern barn building with all the best equipment is a good investment. That is a human side.

Much Labor Eliminated.
Farming is the country's greatest business. But in the past there have been many disadvantages that have driven the young men from the farm. The work under the old conditions was not pleasant, especially that in the barn. But when there is a concrete floor, with gutters into which the dirt can be washed; when there are carriers that take the food to the managers and the manure out; and water at each stall, so that none has to be carried, or the animals driven to an outdoor water trough, which in the winter was usually frozen, there is none of the arduous labor taking care of the livestock that there was in the past.

A modern dairy and horse barn is one of the best paying investments the farmer can make. It will bring large returns in both money and satisfaction. It will lighten the work of car-

Floor Plan of Combination Barn.

ing for the live stock and cut the labor cost on the farm.

Leaving out all considerations of heeding the government's call to "Build a Building" in order to provide employment for the returned soldiers, building a barn that will provide a clean, convenient and sanitary home for the live stock is the farmer's best investment.

Indians' Habits Changed.
The romance of red war paint and bold head feathers has been blotted from the lives of Canada's Indians, according to a correspondent of Kansas City Star.

The big chief of yesterday who would stomp a war council when dawn stood tip-toe on the horizon is up at the same hour now, but has been thoroughly modernized. He is cranking his car, preliminary to driving the kiddies to school.

When he returns to his farmhouse he goes into the fields wearing regular store clothes instead of the beligerent paint of his ancestors, and sets to work with modern machinery.

A Boy Patriot.
Johnnie was walking down an aisle of a department store with his mother. Suddenly she noticed him remove his hat for a few minutes. When he had put it back on, she asked:

"Why, Johnnie, why did you do that?"

Johnnie eyed her with scorn and then pointed to the decorations: "We passed under the flag, mother." Indianapolis News.

Wool Crop of 1918.
The wool clip of this country in 1918 is reckoned at almost exactly 300,000,000 pounds, and the mean price to producers at 58 cents, or about 11 cents higher than in 1917.

The remainder is said to be able to endure more fatigue than any other draft animal except the camel.

To Platinize Silver.
Place some platinum in a small quantity of aqua regia or nitromuriatic acid, and keep it in a warm place a few days; it will dissolve. As soon as it has dissolved, evaporate the liquid at a gentle heat until it is as thick as honey, so as to get rid of the excess of the nitric and muriatic acids. Add a little water, and it is ready for use. A dozen drops of this solution goes a long way in platinizing silver. The operation is performed in a small glass or beaker, covered with

Nathan M. Letts, of Manahawken spent Monday in town.

RESOLUTIONS OF RESPECT

Manahawken, March 29.—The following Resolutions were adopted by Silver Lake Temple, No. 23, Ladies of the Golden Eagle:

March 1919
Whereas, The Great and Supreme Ruler of the universe has in his infinite wisdom removed from among us one of our worthy and esteemed companions, Marguerite Elberson; and whereas the long and intimate relation held with her in the faithful discharge of her duties in this Temple makes it eminently befitting that we record our appreciation of her, therefore, be it

Resolved, That the wisdom and ability which she has exercised in the aid of our Temple by service, contributions and counsel, will be held in grateful remembrance;

Resolved, That the sudden removal of such a life from among our midst will be deeply realized by all members of this Temple and will prove a serious loss to the community and public.

Resolved, That with deep sympathy, with the bereaved relatives of the deceased, we express our hope that even so great a loss to us all may be over-ruled for good by Him who doeth all things well.

Resolved, That a copy of these resolutions be spread upon the records of this Temple and a copy of each forwarded to her husband and parents, also a copy forwarded to the local paper.

Eliza J. Fennimore,
Lottie M. Cranmer,
Eva M. Bishop,
Committee.

Monuments, Headstones and Markers Finished and Ready To Letter and Erect Immediately

Now is the opportunity to purchase a cemetery memorial. We have over 500 completed monuments, headstones, markers, corner posts, etc., in our warehouse and show yards in Camden and Pleasantville, the largest and the finest stock we ever carried. We manufactured these goods prior to the present advance in price of material and labor and are selling them much less in price than we can manufacture them today and because of this these goods are being sold rapidly.

Call at our yards in Pleasantville or Camden and make your selection.

We are equipped with every labor saving device to letter and erect them promptly. We have the electric crane, surface cutter, polishing mill, pneumatic tools, plug drills, etc., and can manufacture most anything you want in special work, as we also have a large supply of rough stock on hand for this purpose.

Call and purchase now. Orders are coming in so fast we expect to have all we can handle this year by March 1st, 1919, and the sooner you call the better display you will have to select from.

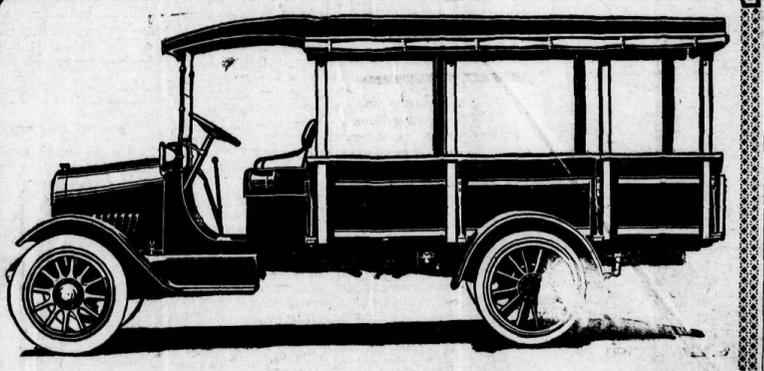

The war and recent epidemic has created such a demand for goods in our line that for a long time it is going to be very difficult to supply the demand. This coupled with the shortage of granite cutters caused by the terrible losses in the World War will tax all the monumental centers to the limit to fill orders promptly.

The Cut above shows the Chevrolet One Ton Truck With Electric Lights and Starter

In December 1918 I sold W. Howard Kelley, of Tuckerton, a ONE TON CHEVROLET TRUCK. After Mr. Kelley has used the truck three months, I received the following letter from him:

April 1, 1919.
M. L. Cranmer,
Mayetta, N. J.
Dear Sir:—
Referring to your inquiry as to how I like the Chevrolet Truck. I purchased a one ton Chevrolet truck from you in December, 1918. After a thorough demonstration, your son Chester operating the car, I was convinced it would do all you claimed it would. After a three months trial in hauling coal and all other kinds of hard work for a truck, both on long and short hauls, I find that you do not over estimate the worth of this truck, as it works perfectly in every respect and will pull a ton or two tons on any kind of roads where the axles can be kept above the mud. The truck is nicely balanced and rides as smooth as a touring car and has speed to burn if needed. Stanley Seaman, my driver, says she works perfectly and that none of the other makes of trucks that come along this pike has anything on the Chevrolet, and he knows, because he looks them all over and can tell the make of a car blindfolded, if it is in motion. My truck works as good today as the day I bought it and anyone that has work for a truck cannot beat it for double the price. Strong and durable in every respect.

Yours truly,
W. HOWARD KELLEY.

M. L. CRANMER, Distributing Agent

MARMON "34"

"The Easiest Riding Car in the World"

A CAR OF INDIVIDUALITY AND PERFORMANCE

The Marmon "34" combines power, speed, comfort and economy of operation. Owing to its light weight, it gives unusual gasoline and tire mileage, being 1100 pounds lighter than any other fine car made. Its long wheel-base and special design of spring suspension justify the slogan, "The easiest riding car in the world."

Made by Nordyke & Marmon Co., Indianapolis, Ind.
ESTABLISHED 1851

REBUILT MARMONS

We make a specialty of rebuilding in our own shop, Marmon cars in such a way that they have the appearance of new cars—and yet sell at prices as reasonable as many other makes of new cars of much inferior quality.

Exceptional Bargains in used Passenger Cars

1917 Marmon 34, 7-pass. Sedan in A-1 condition	1917 Owen Magnetic; 7-pass. Slip covers; equal to new.	1917 Stutz, only run 5000 miles equal to new, 6 wire wheels, 6 tires, at a very reasonable price.
1916 Marmon 34, 7 pass.; A-1 shape.	1917 Chalmers Town Car, A-1 shape.	1914 Pullman; touring car; very low figure.
1916 Stutz 4-passenger, A-1 shape at a bargain.	Hudson 1917 Super-Six, Town Car, beautiful shape, at a great sacrifice.	1914 Fiat Landulette 4-cyl.; 55 H. P.; great saving.
1917 7-pass. Marmon 34; equal to new.	1915 Marmon; good mechanical condition.	1913 Cadillac-5 pass., very reasonable, A-1 shape.
1915 Marmon; good mechanical condition.	1918 National Sedan, like new, at a sacrifice.	1912 Royal Tourist 7 pass.; Touring car; will make good truck; at a bargain.
1918 National Sedan, like new, at a sacrifice.	1916 Packard, 1-35, 7-pass.; wire wheels; fine condition; make offer.	All of the above cars are in A-1 mechanical condition.
