

TED INDIAN CHIEF TO VISIT AT BEACH HAVEN

Manitowog, one of the few members of the famous tribe of Indians of the State of Washington, and one of the most unusual lecturers and speakers of the day, will speak at the Church, Beach Haven, next August 7th, at 11 A. M. and on the following evening (daylight saving time.)

The wonderful speaker has filled the pulpits, and spoken in forms in this and other churches, and what ministers have heard him, we feel that too many have not heard of this unusual speaker.

Manitowog will be dressed in the costume of skins and will, in his own natural way, tell of his life and adventures taken from his wigwam on the old trail and place on that leads to a mansion. He will tell of how he was taken and entered the pulpit. He will tell of the man, his native land, his costume, remarkable work, and work of the mission as to be extremely interesting as to be profitable to all.

FRIENDS' MEETING

Under the care of a Coming Society of Friends, will be held First Day (Sunday), August 7th, 3.30 P. M. Standard time, at the Friends' Meeting House at Beach Haven. All persons are cordially invited.

FOR PROMPT PRESCRIPTIONS

Next door to Bank (adv.)

FORMER TUCKERTON GIRL MARRIES

Washington, D. C., July 26, 1921.—A pretty wedding was solemnized at St. Gabriel's church at 5.45 p. m., July 19, when Miss Teresa W. Cheatham became the bride of Walter Zinn, both of Washington, D. C. The Rev. John M. McNamara, officiating.

The bride was very charmingly attired in a gown of white georgette, and carried a bouquet of white roses. She was given away by her brother, Mr. H. H. Cheatham. Mrs. H. H. Cheatham, attended her as matron of honor and wore a gown of green georgette over silver metal cloth with a picture hat of green georgette and carried pink roses. Mr. Lyman Leach, a friend of the groom, acted as best man.

A reception followed the ceremony at the home of Mrs. Emma L. Stiles, after which Mr. and Mrs. Zinn left for their new home followed by several cars of cheering friends and a brilliant array of tin cans, confetti, etc., from which the happy couple made a desperate but unsuccessful effort to escape.

Mr. and Mrs. Zinn will be at home after August 1, at 1200 18th Street, N. W., Washington, D. C.

SAD DROWNING ACCIDENT AT SEASIDE PARK

Katherine Clayton, the nine year old daughter of Mrs. Howie Clayton and grand-daughter of Mr. and Mrs. C. W. Mathis, was drowned at Seaside Park Saturday morning.

Katherine, with several children, was bathing in the bay, got in deep water and not being able to swim was drowned before aid could be summoned.

The other youngsters, who were in the party, being of about the same age did not notice the struggles of the unfortunate girl and did not call help until she had gone under and did not come up. The body was found a short time after the accident in nine feet of water.

The grand-parents Mr. and Mrs. Mathis and Mrs. Clayton were former residents of Tuckerton and New Gretna and are well known in this section.

Funeral services were held Tuesday afternoon at Tuckerton.

IMMENSE CATCH OF OYSTERS AT CEDAR CREEK

State oyster department officials, who last week inspected the Cedar Creek section of Barnegat bay, say that there are more oysters in this bay today than all the oysters that were taken from the bay in the last twenty years combined. They also say that the catch of spat this summer is heavier than anyone ever knew before in this bay.

Everything in the bay that the microscopic spawn can catch on is covered with it. Professor Nelson of Rutgers, on one of his visits to Cedar Creek beds, with the aid of a microscope, counted more than 1000 spat on one oyster shell.

This is very encouraging news to the planters who took up bottom in the bay and plan to plant there. These men have contended for a long time that if properly handled, Barnegat bay could raise all the seed that Tuckerton and Great Bays could plant and develop. Now they go farther and say it ought to raise seed for export after they get all they want.

POLITICIANS GO FISHING

A jolly crowd of county politicians composed a fishing party in Great Bay Monday. The party consisted of Sheriff Harold Chafey, Under-Sheriff A. W. Brown, Jr., County Clerk John Ernst, John Ernst, Jr., and A. W. Brown, Sr., of Toms River; Candidate for Freeholder W. T. Newbury of Pt. Pleasant. They had as their guests, Dr. J. L. Lane, Walter Vetter and E. Moss Mathis of Tuckerton. The party went to New Gretna and sailed with Capt. Roy Mathis on the "Sea Queen."

John Ernst had the most varied luck of any of the party as he caught two small (very small) perch, a few weak fish, a croaker and his forefinger. (In fairness to the Junior Ernst let us make it plain that it was John Ernst, that did the fishing—the boy had a better understanding how to catch the big ones.) The captain handled the fish and Dr. Lane skillfully took care of the finger. However, we all enjoyed the day, the weather was perfect and a catch of 52 fish was made.

BEACH HAVEN

Rev. Henry Flannagan, of Philadelphia, was a visitor in town on Saturday.

Several properties were struck by lightning last week but no serious damage was done.

Mrs. Louis Abramowitz of Barnegat was a Sunday visitor here.

Rev. H. L. Burkett of Collingswood, spent Sunday with Rev. H. N. Amer and preached at both services to large congregations on Sunday last.

Mr. Galloway and family of Chestnut Hill, Pa., are spending their vacation in town.

After the severe heat of the cities, many enjoyed the cool breezes of the beach over the week end.

Mr. and Mrs. C. B. Kauffman of Tuckerton, spent a few hours with us here on Sunday.

Mrs. G. F. Young has been entertaining friends from Camden for a few days.

The Converted Indian Chief will be the speaker at both services in the M. E. Church next Sunday.

Mr. Arthur King spent Sunday with his family here.

A TERRACE FISH STORY

Messrs. J. L. Kinnorth, owner of the Asbury Park Press; Geo. E. Hopper, business manager of the Press; together with Wm. Wilson, T. S. Vanderveer, J. J. Lyons, Jr., Chas. J. Markus, H. C. Schanzel and San Genberg of Asbury Park, caught 325 fish while fishing at the Inlet, July 30, with Capt. F. Nichterlein on the "Elaine" of the Terrace. The largest fish weighed 8 pounds.

VOTE TWO TO ONE FOR NEW SCHOOL ADDITION

The district school election held on Monday night to vote on the question of building a new addition to the present school building was carried by a vote of 23 to 12. \$8000 will be raised by issuing bonds in the denomination of \$300, each and two bonds will be payable each year.

NEW GREटना

Through the courtesy of Kirk Loveland, Superintendent of Atlantic City Boardwalk, 150 members and friends of the Presbyterian Sunday School, were entertained on the Steeplechase Pier as guests of the management. Needless to say that everybody had an enjoyable day.

Miss Addie Merce spent the week end with Mr. and Mrs. J. S. Mathis.

Maja Mathis and family of Florence, N. J., are spending a vacation period at the home of Kirk Loveland.

Rev. Andrew Richards and wife motored to Trenton on Saturday.

Miss Minnie Mathis is home from Summer School.

Victor Cramer of Camden, N. J., spent the week end with his parents, Mr. and Mrs. J. R. Cramer.

Clarence G. Mathis purchased a new Ford Touring car from Walter Atkinson.

Mr. and Mrs. Brockwell of Philadelphia, are spending two weeks with Mr. and Mrs. U. J. Allen.

NOTICE

All persons are forbidden to use my property for bathing purposes. WALTER A. ENTWISTLE.

SCHOOL TEACHER WANTED

As principal of the Beach Haven School. Salary \$130 per month. Apply to Y. R. Penrod, District Clerk, Board of Education, Beach Haven, N. J.

NOTICE

Bids will be received by the Board of Education of the Borough of Beach Haven, on August 22, 1921, for Janitor, for the next term. The conditions may be obtained from the District Clerk. Y. R. PENROD, District Clerk.

LOCAL NEWS

Mrs. Carrol Cox and children spent Saturday at Beach Haven.

Mr. and Mrs. A. C. Lippincott, son Craig and daughter, Edna, of East Orange, are visiting Mr. and Mrs. S. N. Lippincott. They were visitors in Ocean City for a few days last week.

A lot of folks were disappointed last Tuesday, lunches packed and everything ready for a picnic and it rained. If it had been a shower or a "regular" storm, we would have known just what we were going to do, but up until noon, first it rained, then partly cleared and kept us all guessing. Finally it was decided by committees, superintendent and pastors that we best give up the idea for the day. After consideration, and consultation, it was decided to wait until next Tuesday, August 9, at the same hour, 9 o'clock meet at the churches. We will hope for more favorable weather.

Mr. and Mrs. Joseph Middleton and Herman Middleton of Paulsboro, were week end visitors with Mr. and Mrs. Edward Sprague.

It is expected that Max I. Reich, of Morrisville, Pa., will be at Friends' Meeting in Tuckerton on First Day (Sunday 7th) and at the appointed meeting in Barnegat that afternoon. The hour in the morning is 10.30 and in the afternoon is 3.30, standard time. All interested are invited.

Mr. and Mrs. Louis Resch of Trenton are visiting the latter's parents, Mr. and Mrs. George Quinn.

The 5-day sale by the Gerber Store, conducted during the past week, proved the most popular and successful in the history of the store. They are doing a splendid business and growing steadily. Materials are arriving for the construction of new show windows and other improvements.

Mr. and Mrs. Frank Gale and granddaughter, Clara Burd, have been visiting in Atlantic City and Absecon.

Ross Gale of Jersey City, is visiting Mr. and Mrs. Frank Gale.

If you have a bit of news of interest to those about you, send it to the Beacon Office. The Beacon Office is one of the busiest places in Tuckerton the year 'round and many little items of interest are apt to get by us. It helps the town, by helping the paper be of interest. If we had the eyes it is said a spider possesses, we would probably get all the news. Thank you for your interest.

Again companies are being organized to exploit oil wells in Ocean County, where geologists say they are sure oil does not exist.

Camping along the beach front is

becoming more popular every year. It is a cheap way to spend a time at the shore.

Mrs. Samuel Horner of East Main street was a visitor in Atlantic City last week.

Mrs. John Piper and Mrs. Ora Ford spent Monday in Atlantic City.

Mrs. Elva Webb, Misses Della Smith and Zelma Allen have finished the Summer School Course at Ocean City, and have returned home for the summer vacation.

Mr. and Mrs. John Jones of Ventnor are visiting the former's parents, Mr. and Mrs. Samuel Jones of Wood street.

Eugene Berry of Port Republic, is employed on Horner's Delivery Route to Absecon.

Jos. B. Mathis visited his grandfather, E. M. Berry at Port Republic yesterday.

Mrs. George Hutchinson and son, Hubert of Camden are guests of Mr. and Mrs. Ernest Smith.

Walter Parsons Jr., is taking the place of Charles Honer on the bakery route to Absecon. Charles is laid up with an attack of ptomaine poison.

Harold Morey of the South Brigantine Coast Guard Station has been transferred to Station 119 at Short Beach.

Mrs. Grace Koons and daughter, Grace of Conshohocken, are guests of E. E. Adare on Otis avenue.

Mr. and Mrs. Byron Bragg, Mr. and Mrs. Fred Engleman, Miss Daisy Beaumont and Homer Marshall are enjoying a week at the Marshall Cottage on Wood street.

Mrs. George Culver and daughter, Dorothy, of Sea Isle City, are here for a two weeks' visit with Mr. and Mrs. Charles H. Webb.

Mrs. R. Nurton, of Laura, Plymouth, England, is visiting her daughter, Mrs. Frank Larkin, of West Main street. Mrs. Nurton arrived from England Monday.

Mrs. Frank Jones and Miss Lydia Bird are visiting in Trenton.

Mrs. Elizabeth Hickman and Miss Dorothy Gale are visiting relatives in New Gretna.

Mr. and Mrs. Harry Falkenburg, sons Harry and Francis, Mr. and Mrs. Herbert Andrews, son Addison and Jos. Dempsey, of Atlantic City, spent Sunday with Mr. and Mrs. Ralph Falkenburg.

Calvin Adams was a week end visitor in Millville.

Mr. and Mrs. D. S. Mathis, Mrs. Harvey Mathis, Mrs. John Webb and

Mrs. E. Moss Mathis attended the funeral services of the late Prentice Bugbee in Barnegat on Thursday last.

Mr. and Mrs. Joseph M. Thompson, of New Egypt, were in town during the week. Mrs. Thompson is a Candidate for Assembly on the Republican ticket.

R. F. Weigand, R. F. Weigand, Jr., Frank and Leonard Weigand, Leonard Habig, Charles Dorsbater, Louis Schick, Louis Belkey, Louis Unverzagt, and Fred LaGay were recent guests of Howard White on a fishing trip on Tuckerton Bay. They sailed with Capt. Del. White.

Mr. and Mrs. Harry Peterson, son Robert of Atlantic City, Dorothy and Virginia Mathis; Mrs. Kelly of Vineland; Mrs. Murtens of Millville, were recent visitors at the home of Mr. and Mrs. A. J. Rider.

Mrs. Susanna Gifford and Mrs. A. J. Rider spent last week in Atlantic City visiting Mrs. Rider's sister, Mrs. Harry Peterson.

Warden A. J. Rider has been on the State yacht "New Jersey" the past week.

Mrs. Howard Hicks, who spent her honeymoon with A. J. Rider a few weeks ago, is very ill with typhoid fever at her home in Inwood, L. I.

Joseph Andrews, of Longport C. G. S., spent the week end with his family.

The Tuckerton Baseball team was defeated Saturday by Egg Harbor by the close score of 3 to 2. The local team will play the Cedar Brook team at the ball park Saturday at 2.30.

MOSQUITO AUTHORITIES EXPLAIN PRESENCE OF LARGE FLIGHTS

The Mosquito commission of Ocean County and Prof. T. J. Headlee, the State entomologist, who is the head of the mosquito fighters of the state, have been investigating the flight of mosquitoes for the last two or three weeks and blame it on the June drought. Here is the explanation.

"The long spell of dry weather dried all the pools and killed the fish, then a high tide came just sufficient to percolate the meadows and fill these holes, but not sufficient to prevent the grass from keeping the minnows in deep water. Therefore, when the eggs hatched the wrigglers had an easy time of it. Then when the adults were ready for flight, instead of a sea breeze, there was a land breeze, so that all the beaches had had more or less mosquitoes during the last two weeks. The fish are the best friends the people have and are very necessary to supplement our drainage system."

Professor Headlee places the blame for the mosquitoes at Manasquan and Sea Girt upon the flooding of marsh and beach land when the Manasquan Inlet was closed, and the pools left from this high water, when the inlet was opened, forming ideal mosquito breeding pools.

ATTENTION! EX-SERVICE MEN

Raymond P. White, Field Agent for State Bonus Commission will be with Tuckerton Post, American Legion on Wednesday evening at 8 P. M. August 10, to receive applications for Soldier Bonus. The time is growing short, and no applications will be received after Nov. 30. All should be in long before that time.

Application blanks can be obtained from Sterling Otis, Adjutant, Tuckerton Post.

Bank Should Help Community in Which it is Located

It doesn't, something is wrong and either the bank is neglecting the advantages offered or the community is not functioning properly.

Bank should help the merchant in time of depression or when extraordinary season purchases necessary; the farmer who needs some labor device but lacks the ready funds to buy it; the cooper, or planter who needs financing through the long period; it being understood always that security shall be offered the institution in return for the accommodation.

These are only some of the ways in which a bank should help its patrons and stimulate the business of its vicinity.

Use US. Your Account Solicited.

DRESSMAKER MADE WELL

Followed a Neighbor's Advice and Took Lydia E. Pinkham's Vegetable Compound

Vernon, Tex.—"For three years I suffered untold agony each month with pains in my sides. I found only a very slight relief in doctor's medicine or anything else I took until my husband saw an advertisement of Lydia E. Pinkham's Vegetable Compound. I mentioned it to a neighbor and she told me she had taken it with good results and advised me to try it. I was then in bed part of the time and my doctor said I would have to be operated on, but we decided to try the Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am a dressmaker and am now able to go about my work and do my housework besides. You are welcome to use this letter as a testimony as I am always glad to speak a word for your medicine."—Mrs. W. M. STEPHENS, 1108 N. Commerce St., Vernon, Texas.

Dressmakers when overworked are prone to such ailments and should profit by Mrs. Stephens' experience.

Write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., about your health. Your letter will be opened, read and answered by a woman and held in strict confidence.

Perverse Little Girl.
The British ambassador said at a luncheon in New York:

"The advocates of world peace are opposed with so many silly arguments that they begin to think it's a very perverse and naughty world indeed."

"And isn't the world indeed getting rather perverse and naughty? I was buying gifts in a toyshop the other day when I heard a beautifully dressed little girl say to a salesman:

"I want a doll, please, that will say 'D—n it' when I hit it!"

To Have a Clear Sweet Skin

Touch pimples, redness, roughness or itching, if any, with Cuticura Ointment, then bathe with Cuticura Soap and hot water. Rinse, dry gently and dust on a little Cuticura Talcum to leave a fascinating fragrance on skin. Everywhere 25c each.

Home Builders Who Suspend.

The St. Louis Home and Housing association, organized with a capital of two million dollars to help solve the housing problem by building houses and selling them at approximate cost, has suspended building operations because there is no demand for the houses. Since its organization a year ago the association has built 127 houses, of which 26 remain unsold.

The streak of yellow in the average man is larger than his streak of genius.

Get Back Your Health

Are you dragging around day after day with a dull headache? Are you tired and lame mornings—subject to headaches, dizzy spells and sharp, stabbing pains? Then there's surely something wrong. Probably it's kidney weakness. Don't wait for more serious kidney trouble. Get back your health and keep it. For quick relief get plenty of sleep and exercise and use Doan's Kidney Pills. They have helped thousands. Ask your neighbor!

A New York Case

M. S. Earl, tax collector, 47 Main St., Oswego, N. Y., says: "I suffered from kidney disorder. I had a sharp pain caught me in my back. I had to get up during the night and the sensations were unnatural. When I caught cold it settled on my kidneys. I took Doan's Kidney Pills and the first box made me feel better. I continued and the pains and aches left me."

New Life for Sick Man

Eatonic Works Magic

"I have taken only two boxes of Eatonic and feel like a new man. It has done me more good than anything else," writes C. O. Frappier.

Eatonic is the modern remedy for acid stomach, bloating, food regurgitation and indigestion. It quickly takes up and carries out the acidity and gas and enables the stomach to digest the food naturally. That means not only relief from pain and discomfort but you get the full strength from the food you eat. Big box only costs a trifle with the druggist's guarantee.

Grandeur of Mount Rainier

Avalanche Lily Slope, Rainier National Park.

(Prepared by the National Geographic Society, Washington, D. C.)

As the famous Japanese mountain, Fuji, dominates its section of Japan, so the great white cone of Mount Rainier dominates the Pacific Northwest, a landmark and beauty-spot from the populous cities of Puget sound, from the prairies of eastern Washington, and even on clear days from far at sea. It is the glacier mountain without a peer in the United States, and is estimated by one authority to radiate a greater volume and area of ice than any other one mountain in the world. Its area of glacial surface is estimated at 52,000 acres.

To the stranger in Puget sound it appears to be less than ten miles away, but on further inquiry the tourist learns that it is more than forty miles distant in a direct line from sea-level at Puget sound, from where mountain survey measurements are made and all Rainier park travel starts. Studying it more in detail, he begins to comprehend its size and rugged anatomy. But the scene is beginning to change; the sun is low in the west; the lower end of the glaciers, white a few minutes ago, become a graded tint of rose pink; the blue has changed to a purple, but the summit is still white, for it is 7,000 feet higher than the snow-line and projects up into the white rays of the setting sun. The red rays are slowly moving up the mountain; the summit has changed to rose hue, the last coloring of day, which it holds for some minutes after the sun has left the landscape, and then changes back again, finally, from warm to the cold purple afterglow that generally precedes a summer night on Puget sound.

Its Cap a Weather Sign.

Viewing Mount Rainier after the weather has been fair for some days, it is common to see the summit covered with a cloud. This cap is very interesting and is always looked at for a forecast of a change of weather, especially when it forms immediately in contact with the summit, hugging down closely like an inverted saucer. When the cap forms suddenly, like the sudden drop of a barometer, the change of weather is not long coming. The cap does not always touch the mountain top, but is occasionally some distance above and holds its shape during a whole day or more.

From a far distance this cap appears to be a still cloud with no motion, but in studying it from close range one will observe that at the west edge the cap develops rapidly, dissolving to invisible condition at the east edge. Evidently it is a stationed point of condensation, but not a stationed accumulation of moisture.

The crater of Rainier, concerning which many questions are asked, is not dangerous, but rather a life-preserver, and has been so used during storm. There are no openings within the crater large enough to be dangerous. The whole circle of 1,800 feet diameter is filled with fallen black lava and covered with a thick pack of snow the year round, except at the edges near the crater's rim. The main crater was the mountain's principal vent of eruption, but there is one other place called the little crater; it and a few other spots near the top are also warm.

The first parties to the summit always made the crater their inn, where they stayed at night, warmed by the steam that issues from the small fissures just within the crater's rim; but of late the plan has been to reach the summit from Camp of the Clouds (elevation, 5,500), starting about 1 a. m., reaching the summit just after noon, and, after some hours' rest, returning to camp the same evening.

Hot Steam of the Crater.
In making a trip to the mountain's summit, August, 1911, the writer took along a thermometer to ascertain the steam temperature, and found the steam of the main crater in places to be about 150 degrees F. There are other places where the heat is above boiling point.

The steam is evidently snow water that seeps down and comes in contact with the internal heat, returning in vapor through the same general openings. It seems to contain no gas or fumes, and is of feeble force and little volume, soon disappearing in the high, dry atmosphere. It is not seen from a far distance and is not a factor in producing the cloud cap that forms on the summit previous to storm.

HARP OF THE MOSQUITO.

There is an apparatus, for a long time overlooked or neglected by the investigators, at the base of the mosquito's wings, whereby the characteristic humming of that insect may be produced. The speeces examined is the Anopheles maculipennis and the apparatus consists of a slightly movable bar provided with a series of well-marked teeth which, as the wings are raised and lowered, rasp across a series of ridges.

Publications stating that smoke and fire come from this volcano during seismic disturbance have no foundation of fact, for it is evident that no civilized man ever witnessed such a sight, and that volcanic action in this section is a phenomenon of the long past. People have been misled in seeing a cloud that appears like smoke.

Since 1870, when the first ascent was made, hundreds of people have stood on the summit of our great white "Templed Hill." A climb to the summit and return the same day is a long, wearisome undertaking, slightly dangerous, especially at one place rounding the upper part of Gibraltar rock, from which there is an occasional shower of small pieces of rock that fall loose from the snow patches above. So far as is known, there has been but one life lost in climbing the mountain, due to natural cause; the few others were lost owing to recklessness and lack of judgment. The crevasses are very bad if one gets into them, but they have generally been cleverly avoided.

Studying the crevasses and the actinic blue coloring they reflect will repay any one who has a day to devote to the climb. The higher up, the more curious are the carvings of the snow surfaces, which would indicate that the winds are the chief factor in making the peculiar whittlings.

This great pile of lava, heaped to an elevation of nearly 15,000 feet, is characterized by several features deserving of special individual study. The geologist, geographer, botanist, poet, painter, landscape gardener and specialist all find a wealth of interest throughout this 324 square miles of reserve, besides much adjacent territory comparatively unexplored.

Special Features of Interest.

To a woods-dweller the timber is a matter of course, but to those who have not been amid large forests it is one of the very special features of the reserve and an educator in forestry of the best kind. From the dense forests of the valleys and on the lower slopes, where trees grow to a height of over 300 feet, some with a diameter of 12 feet, the forester can trace the diminution of growth as the ascent is made to the scrubby brush-like trees at timber-line, struggling, as it were, for their existence.

The unvisited portions of the Rainier park without doubt contain, yet unseen, such features as hot and cold springs, falls, small lakes, and botanical rarities. High on the ridges and slopes of the neglected corners of the park the wild goats make their home. Sometimes they have been seen in numbers of 30 or more together. The deer, which are more abundant than any other of the large game, are occasionally seen from along the government road. The black and brown bear are also seen, and at rare intervals the stealthy cougar or puma.

At between 5,000 and 8,000 feet elevation the botanist finds Rainier park his paradise, wherein there have already been found over 250 varieties of plant life, a dozen or more kinds belonging to this region alone. The majority of the flowers are of light tint, but there are a liberal quantity of blue, red, and yellow, so deep and pure of color that artificial pigments fail to imitate them. The distribution of several species of heather is a technical touch of finish in the evergreen, tipped in summer with clusters of small bells in colors purple, pink, yellow, and white.

The first white man to visit the mountain was Dr. William F. Toime, of the Hudson's Bay Company, from Fort Nisqually, who in 1833 closely approached some of its glaciers. Gen. A. V. Kautz, in 1857 made an attack on the mountain, but it has never been affirmed that he reached the true summit of the highest peak.

The Rainier park was not much visited until 1900. In the years since then thousands of tourists have registered at the park entrance each season. Since the days of early travel by pony and stage have given place to railway and auto, the tourist can make the journey from Seattle or Tacoma to the mountain snow-line in a few hours' drive.

No Rust.

If you go away for several months during the summer, apply kerosene oil to your stove with a soft cloth before leaving. When you return the stove will be in excellent condition.

HONEY MENTIONED IN BIBLE.

There are references to honey in the Bible, in the sacred books of the Hindus and in the Koran. In the Far East new honey has for ages been esteemed as a laxative and old honey as an astringent. Honey was one of the materials which the Egyptians used in embalming, and others of the ancients used it as a food preservative. There was a considerable traffic in bird's eggs and eggs packed in honey were shipped long journeys.

IMPORTANT NEED FOR MORE TREES

Three-Fifths of Primeval Forests Have Been Cut Away, Says Forester Greeley.

SUPPLY OF WOOD NECESSARY

Despite Fact That Many Substitutes Have Been Devised Demand for Timber Continues to Grow—Much Land is Idle.

(Prepared by the United States Department of Agriculture.)

Timber depletion has now reached a point in this country where three-fifths of the primeval forests are gone and where 61 per cent of the timber that is left is west of the Great Plains, Col. W. B. Greeley, chief forester, forest service of the Department of Agriculture of the United States, recently told the members of the Chicago Association of Commerce.

Liberal use of American forests was a necessary part of the commercial growth of this nation, Colonel Greeley believes, but reforestation should have been practiced, if not from the start, at least in late years. There is an abundant area of forest land in this country to support all industries, and a liberal supply of wood is most necessary to the people of this country. It was thought that, like the European countries, we would use, when our civilization was older, but one-third or one-half as much wood per capita as we did in the early days. But this rule does not affect the American people. The older the states and communities in this country grow the more timber they seem to require in one form or another.

Demand Continues to Grow.

Many substitutes have been devised for wood, and yet the great demand of the country for timber continues to grow. More wood is used in construction today than before the discovery of concrete, and more wood is used in building railway cars than before the steel or part-steel car was developed. This is apparently true in nearly every industry.

Abundant and widely distributed forests have meant to the United States homes for the masses of the people beyond the standards of any other nation. They have placed newspapers and magazines on the average family table. They have contributed largely to social and industrial conditions which promote democracy and constructive energy rather than discontent and destructive social forces bred by hard and comfortless conditions of life.

The idleness of 81,000,000 acres of forest land, an area increased by 8,000,000 to 10,000,000 acres annually, destructive logging, and still more destructive forest fires are the factors at work to increase the timber shortage. Land Enough if Kept Growing Trees. The exhaustion of American timber

Hill Land Orchard Near Lynchburg, Va.

has not come about because the forests have been used so freely but because of the failure to use forest-growing land. In a nutshell, the problem is that the United States is cutting wood out of its forests three or four times as fast as it is being grown. Much of the land on which timber stands or has been cut off will always be forest land. It is ample to grow all the wood needed for the use of the people of this country and for export trade in lumber and products manufactured from lumber, if the land can be kept at work growing trees. Timber for the future is simply a matter of putting idle land to work.

Every reasonable encouragement should be given to the landowner to grow timber on his own account in the ways best suited to his own purposes, but by some means or other the public must see to it that forest lands not needed for agriculture do not lie idle. The regulations imposed must be reasonable and equitable. Obviously the owner of the land cannot do it all. The public must aid him in overcoming the hazard of forest fires and must recognize that the present methods of taxing forests in many regions are equivalent to taxing a farm crop twice a week during the growing season.

RAISING FOWLS ON INSECTS

Good Plan for Farmers in Grasshopper Infested Regions to Use Turkeys and Guinea.

Turkeys and guinea fowl are voracious insect eaters. Would it not be a good plan for farmers in the grasshopper infested areas of the West to buy, rent or import all the birds of these breeds they possibly can, instead of poisoning the bugs?

DIFFERENT WAYS FOR GIRL TO MAKE MONEY

Poultry, Dairy or Garden Are Good Suggestions.

Parents Should Encourage Young Woman to Establish Herself as Semi-Independent Member of the Farm Family.

(Prepared by the United States Department of Agriculture.)

When a city girl feels the need of money—her own money, to pay for the things girls imagine they must have these days—she goes to work in an office, a store, or a factory, according to her education and opportunity. In the country a girl, with much the same longings for nice things and "good times," looks to the poultry yard, the milk house, or the garden for her spending money. If her parents are the right kind, if they are intelligent

Preparing Vegetables for City Market.

enough to help her and encourage her in her work, she will soon establish herself as a semi-independent member of the family. If, as often happens, the parents are not disposed to have such goings-on, and there is no home-demonstration agent, no girls' club, no extension work of any kind in the community, the country girl goes to the city and the farming regions have lost one more potential home and family.

No doubt exists in the minds of men and women of large experience in the extension work carried on by the United States Department of Agriculture in co-operation with state agricultural colleges that the economic appeal is the entering influence needed in getting their clubs or bureaus started in rural regions. Once the young people have learned a way to earn money the desire for the things it will buy asserts itself, and home betterments and improved living conditions follow naturally.

Down in Arkansas a girls' canning club started a contest to determine which of the members could produce the most tomatoes at the least expense, and with the lowest percentage of waste. Annet Sargo, on the Mount Valley route, near Hot Springs, grew 3,140 pounds of tomatoes on one-tenth of an acre, at a cost of \$31.40 and net returns of \$109. With the same expense her sister, Fannie, grew 3,020 pounds and had a net return of \$107.80. Ada Rosamond grew 2,803 pounds, costing \$27.42, with a net return of \$78.93, and Ruby Waddell, at Bonnaville, had 3,070 pounds, costing \$29.91, with net returns of \$68.

HENS IN GOOSEBERRY PATCH

Fowls Will Do Much Toward Clearing Out Fruit-Worm From Under Trash in Garden.

One gooseberry insect we have with us that isn't easy to control is the fruit worm. It doesn't often become a serious pest but occasionally it has been known to take a whole crop. The worm eats into the partly grown berry and feeds on the pulp. Hand-picking is still the method used to hold this worm in check. Poultry ought to be turned into the gooseberry patch after the fruit is picked, as the hens will do a lot toward clearing the worms from under the trash. Poultry and fruit are a good combination when run right.

LIVE STOCK FLY REPELLENT

Care Should Be Exercised to Prevent Getting Mixture Too Strong, Causing Hair Shedding.

When mixing a repellent to put on the live stock to keep the flies away, care should be taken to prevent getting too strong a mixture. It may cause shedding of the hair. The following mixture has been found by the United States Department of Agriculture to give good results for a short time; where applied lightly but thoroughly: One gallon of fish oil, two ounces of oil of pine tar, two ounces of oil of pennyroyal and one-half pint of kerosene. The horses and milk cows will appreciate some preparation.

ROTATION URGED IN GARDEN.

Disease Spores and Insects Attack Crops Where Same Vegetables Are Planted.

The same kind of vegetables should not be grown twice, in succession in the same part of the garden, if this can be avoided. If a radically different kind is grown disease spores and insects, though present in the soil, are not liable to attack the second crop.

CELERY INJURED IN TRANSIT

Damage Caused by Loading Too High in Cars and Thus Preventing Ventilation.

Celery is injured in transit because it is loaded too high in the cars to permit proper air circulation and rapid cooling, says the United States Department of Agriculture. Smaller crates or less of them in the load would help to insure rapid cooling.

DEMAND FOR TANLAC BREAKS ALL RECORDS

Amazing Success Achieved by Celebrated Medicine Not Only Phenomenal, But Undented—Over 20,000,000 Bottles Sold Years—Foreign Countries Clamor for

Never before, perhaps, in the history of the drug the demand for a proprietary medicine ever approached a record that is now being made by Tanlac, a celebrated medicine which has been accomplishing such able results throughout this country and Canada. As of fact, the marvelous success achieved by this medicine only phenomenal, but unprecedented.

The first bottle of Tanlac to reach the public was sold just a little over six years ago. Its success was immediate and people everywhere were quick to recognize it as a medicine of extraordinary merit. Since that time there have been sold throughout this country and Canada something over Twenty Million (20,000,000) bottles, establishing a record which has probably never been equalled in the history of the drug trade in America.

Fame is International.

The instant and phenomenal success which Tanlac won when it was first introduced has been extended to practically every large city, small town, village and hamlet in North America. Its fame has become international in its scope and England, Japan, Mexico, Cuba, Hawaii, Alaska, Porto Rico and many European countries are clamoring for it.

From coast to coast and from Great Lakes to the Gulf, Tanlac is known and honored. Millions have taken it with the most gratifying and astonishing

Guessed Near Enough.

I have rather a variety of flowers in my garden, and when picking them I occasionally give a few sprays to Grace, my neighbor's daughter, who seems to enjoy the gifts. At such times I make it a point to impress upon her the names of the flowers. The other day I gave her some forget-me-nots, telling her what they were. Her mother was out on the lawn, and, running up to her, Grace said: "Mamma, look—my think-of-mes."—Exchange.

A Feeling of Security

You naturally feel secure when you know that the medicine you are about to take is absolutely pure and contains no harmful or habit producing drugs.

Such a medicine is Dr. Kilmer's Swamp-Root, kidney, liver and bladder remedy. The same standard of purity, strength and excellence is maintained in every bottle of Swamp-Root.

It is scientifically compounded from vegetable herbs. It is not a stimulant and is taken in teaspoonful doses.

It is not recommended for everything. It is nature's great helper in relieving and overcoming kidney, liver and bladder troubles.

A sworn statement of purity is with every bottle of Dr. Kilmer's Swamp-Root.

If you need a medicine, you should have the best. On sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to try this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.

AFFIXED CAN TO CAR PEST

Effective Way by Which Sweet Young Thing Got Rid of a Too Common Nuisance.

The Sweet Young Thing did not object when the man alongside read her newspaper over her shoulder, but she drew the line when he commenced to read a note which she undertook later to pencil to an Equally Sweet Young Thing, who was at the moment out of town. The man followed every word of the note with interest until the Sweet Young Thing calmly wrote: "I was about to tell you the reason why Dot broke off her engagement to Terry, but I cannot do it now because a man sitting alongside me is reading everything I write."

The man alongside turned his head the other way quickly and fligeted in embarrassment, and at the next station he got out. Then the Sweet Young Thing wrote: "That finished him, dearie. And as I was about to say when he interrupted me, Dot broke it off because—" etc.—New York Sun.

Independence.

Is Saved by Golf Ball

Amateur Champion Sees His Shot Go True by Remarkable Roundabout Drive.

MOUSE IS CAUSE OF IT ALL

Champ Maria Ball at Fleeing Rodent, Misses, Ball Rebounds, Hitting Waiter, Who Drops Tray and That Ends Mouse.

Chgo.—Seated about a table at dinner in a loop restaurant recently, three Hammond residents carried on an animated conversation about golf. Earlier the talk had dealt with animals, a official ice and Admiral Sims' speech, but had veered around due to a sincere effort on the part of two women present to please their male escort, Freddie Beckman, champion amateur golfer of Hammond.

Since this story deals particularly with Freddy, it must be understood he has several laudable characteristics and accomplishments. Beckman really is a good golfer. Back in civilization he is at a disadvantage because of his acute bashfulness, but this affliction is remedied for him in circumstances demanding instant action.

Beckman was very polite and nodded briskly whenever he was appealed to during the golf discussion, but signally failed to register enthusiasm.

Golf Ball to Rescue.

It was just after the conversation had swung back to animals that Beckman's moment came. His companions, Mrs. Elene Meyn and "L. M.," had just finished their dessert when an uproar arose near the band.

A woman shrieked and another and a third. As one person, patrons of that entire end of the restaurant rose to their feet and mounted chairs.

"It's a mouse and coming this way," cried Mrs. Meyn to Freddy.

There was no question it was a second just made for the amateur golf club of Hammond. His hand stole into his coat pocket and brought out a golf ball. It was one he had made a hole in "1" with just the day before, and he was keeping it as a souvenir.

Balancing the ball in his hand, he gazed earnestly at the fleeing rodent, headed straight for him. Then he swung his arm in a long underhand stroke and let the ball fly.

It flew across the ten feet of space between Freddy and the mouse with a swish. Perhaps the mouse moved a trifle or maybe the ball was not exactly round—at any rate, the shot missed by a hair.

Gets the Rodent.

A gasp went up, and ended in a shout of wild laughter, for the ball,

Widow Gets Half Cent in Breach of Promise Suit

London.—One-half cent damages was awarded to Mrs. Winifred Coates, a widow with two children, of Blackborough road, Reigate, who sued William C. Cromwell, a motor engineer's clerk, of Brighton road, Redhill, for alleged breach of promise of marriage, which she said was made a few days after the death of her husband, who was serving with the Rhine army.

Scouting for a New Scenic Road

Mrs. Mary J. Burton of Los Angeles is pointing, for the benefit of Miss Barbara Babcock of Salt Lake City, to the wonderful view of southern Utah's "Dixie country" as they stand on a high plateau. The girls are members of a party opening the new scenic road from Zion National park, Utah, to the north rim of the Grand canyon.

BOARDING HOUSE FOR BLIND

James Reilly and Wife Have Unique Institution—Runs Without Rules and Harmony Reigns.

New York.—New York has a boarding-house that is without doubt the only kind not alone in America, but in the world. It is a boarding-house for blind men, and between Mr. and Mrs. James Reilly, who run it, and the blind men who live there complete harmony reigns.

For in this interesting menage exists none of the rules and regulations which are usually the cause of conflict between boarders and boarders. The guests are privileged to throw things around on the floors if they wish, and there is never any trouble about forgotten latchkeys.

There are 15 regulars at the boarding-house and anywhere from 35 to 50 drop in daily for luncheon—all totally blind. Outwardly the house is the counterpart of the boarding-house known as "typical" in New

Octopus Seizes Boy, Who Is Saved by Sister

Eureka, Cal.—Word reached here that a 16-foot octopus was killed at Samoa, Humboldt county, after it had seized in its tentacles eight-year-old George Peterson, son of a Eureka tug captain. The octopus lashed out with the other tentacles and wrenched an ear from the hands of a sister, who was trying to rescue the lad. With another ear she smothered the animal, which loosened its hold on the boy and crawled to nearby rocks, where it was beaten to death.

As the platter fell, Beckman watched it with pop eyes, and then, as the last echo of the crash died away, he murmured to his companions: "By goah, I got that mouse after all."

Yes, you have guessed it—the platter killed the mouse. Freddy's shot cost him \$7.70 and a golf ball, however.

WALES GETS FEUDAL GIFTS

Ceremonies 600 Years Old Are Given on Visit of Prince of Cornwall.

Launceston, Cornwall, England.—Picturesque feudal ceremonies 600 years ago were revived here when the prince of Wales, who is also duke of Cornwall, paid a visit to the old-time capital of his duchy. Launceston has been a royal borough since about 1086.

The ceremonies included the presentation of meat and "offerings of fealty" in kind, according to ancient custom. The mayor presented to the prince 100 shillings and one pound of pepper on a silver dish.

To Sir Hugh Molesworth St. Aubyn fell the duty to offer a brace of greyhounds. According to ancient usage, they should be pure white, but the nearest obtainable approach was a well-matched piebald couple.

Another feudal tenant tendered a pair of gilt spurs, and others presented

a pound of cumlin, a salmon spear, a faggot of wood, a pair of white gloves and a hose.

Strangest of all these curious terms of tenure is one requiring the representatives of the manor of Swannacot and St. Mary, Week to present themselves at the local court clad in mantles of goatskins. The present-day incumbent, Bethuel Hutchings, stoically endured this attire over the ordinary clothes on a broiling hot day.

His appearance suggested a blend of a modern duntry tourist and Robinson Crusoe.

The prince, much amused at the variety of gifts, solemnly "confirmed all the local tenants in their holdings."

TWO SWEEP THROUGH TUBE

Erie Workers Carried Nearly a Mile When Temporary Dam Lets Go in Storm.

Erie, Pa.—Carl Henderson and Axel Mackl, employed in the construction of the Mt. Creek water tube, were swept nearly a mile through the 18-foot concrete tube when a temporary dam let go during a terrific rainstorm.

Both men were working inside the big tube when the dam let go. They were carried to the lake and thrown out upon the sand. Both will recover.

Nearly an inch and a half of rain fell in 20 minutes, flooding many cellars and interfering with traffic.

Coralie was not listening. She had bent her pretty head to examine the jeweled bracelet that Constance wore. The bracelet was as unusual as valuable—one of Aunt Millicent's gifts.

"Queer," muttered the girl, "how one person will have all the good gifts of life, while another—"

When, after a time, she looked down absently toward her hand resting against the chair's arm, Constance's bracelet was no longer there. Without alarm she arose to search her surroundings. The costly trinket must be near by, but it was not. The conductor, happening along, joined her in the search, the porter also was called, passengers in proximity offered their services, but the jeweled bracelet had disappeared. Roger Compton came slowly forward at the commotion, concern banishing for a moment his offended attitude.

Coralie's old mother came too—then abruptly the conductor called for a detective who was in another section of the train. Some of the passengers were indignant at the suggestion of a search; others, willingly agreeable. Coralie smiled contemptuously at Roger, "Much a-do," she quoted with a shrug of her shoulders. But Constance white and wide eyed was gazing into the anxious face of Coralie's old mother.

"The conductor," trembled the mother, "must be quite crazy, Miss Lynd. He actually thinks my daughter has your bracelet; insists, that he saw her slip it into her blouse as he came along. My Coralie—the best girl that ever lived."

Suddenly Constance bent to snap open her traveling bag. With a cry she caught from its depths a small velvet case. Beneath the conductor's eyes she opened it. An unusual jeweled bracelet glinted within. "A mistake," she said steadily. "Please pardon me—everybody. Here—is my bracelet."

When the excitement had abated, when the train went rolling into the city station, Coralie DeBall stooped to kiss forcefully Constance's averted face. Into Constance's hand she pressed a hard object.

"Tell me," whispered the strange, somber, young woman, "why you lied for me, when you knew I took the thing? It was mad for a moment, with the thought of all you possessed—it seemed that some part should be rightfully mine. But why—"

Constance smiled through her tears. "Your mother's faith," she answered, "must not be destroyed." Roger waited to draw Constance close to his side, as she stepped from the train.

"Dearest," he said, "that was the most generous deed. You see, I happen to know that you had two bracelets exactly alike. Your Aunt Millicent 'old me only last night of the old-fashioned pair she had given you. Constance, dear, can you forgive what has never been disloyal but only a passing doubt of your love?"

And happily Constance forgave!

Moth or Butterfly? There are certain simple indications by which one can tell a moth from a butterfly. The antennae (feelers) of the butterfly usually terminate in a knot, while the antennae of a moth taper to a point. When a moth rests it keeps its wings in a horizontal position, while a butterfly places its wings together in a perpendicular position.

Forgetting Soap an Ill Omen. Stage people regard it as unlucky to leave soap behind in their dressing rooms when on tour.

THE BRACELET

By MILDRED WHITE.

(© 1921, Western Newspaper Union.)

Constance turned, with a sigh of impatience, as a handsome young woman with somber eyes took the chair close by. Though the car was filled, she fancied that her companion guest of the recent house party had maneuvered for just this position.

Constance did not wish to act a friendly part which she did not feel; she was too heartsick for pretense.

Roger, who had loved her always—Constance thought of the "always" with a catch at her throat—Roger had won away by this gypsy-eyed stranger.

In her heart, his fiancée knew that the designing and unscrupulous one must have carried into action the saying that "all is fair in love." For it was undoubtedly true that the young woman of many charms and many admirers had fallen in love desperately and immediately with Roger who had been invited to the Carruth's party to be her own cavalier, as a matter of course.

The coldness in his demeanor which puzzled her began, she remembered, after his second evening in Coralie DeBall's playful society.

Then daily the breach widened, until now, upon the return trip of the house party, Roger found his chair on one side of the Pullman, while she, with Coralie installed nearby, found hers upon the other. Coralie, in passing, had stooped so that her dusky hair brushed Roger's cheek, to whisper some word or message. Presently the dark-eyed young woman spoke.

"And you," she said bitterly, "are going back, I suppose, to continue the holiday game, while I go back to work. It has not occurred to you, probably, Miss Fortune Lynd, that I am obliged to work. I am social secretary to a woman who prefers to pay more for her stationery than she pays her help. I have a mother to support. You have met my mother?"

Constance nodded.

"She is a dear old lady, I quite loved her. Perhaps you would like me to exchange chairs so that she may sit near you now?"

"Heavens, no!" exclaimed Coralie. "Mother is all right opposite. I thought I'd like to talk with you. I suppose in her many confidences mother enlarged upon her youthful romance and runaway marriage with her foreign music-teacher who was my father."

Coralie was not listening. She had bent her pretty head to examine the jeweled bracelet that Constance wore. The bracelet was as unusual as valuable—one of Aunt Millicent's gifts.

"Queer," muttered the girl, "how one person will have all the good gifts of life, while another—"

Shame on Them.

PERHAPS there are a few mothers who do not know the virtues of Fletcher's Castoria. Perhaps there are a few who know that there are imitations on the market, and knowing this demand Fletcher's. It is to ALL motherhood, then, that we call attention to the numerous imitations and counterfeits that may be set before them.

It is to all motherhood everywhere that we ring out the warning to beware of the "Just-as-good". For over thirty years Fletcher's Castoria has been an aid in the upbuilding of our population; an aid in the saving of babies.

And yet there are those who would ask you to try something new. Try this. Try that. Even try the same remedy for the tiny, scarcely breathing, babe that you in all your robust womanhood would use for yourself. Shame on them.

Children Cry For Fletcher's CASTORIA

Your Friend, the Physician.

The history of all medicines carries with it the story of battles against popular beliefs; fights against prejudice; even differences of opinion among scientists and men devoting their lives to research work; laboring always for the betterment of mankind. This information is at the hand of all physicians. He is with you at a moment's call be the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you can always look for advice even though it might not be a case of sickness. He is not just a doctor. He is a student to his last and final call. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—as he will—that Fletcher's Castoria has never harmed the littlest babe, and that it is a good thing to keep in the house. He knows.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS Bears the Signature of

THE CENTAUR COMPANY, NEW YORK CITY.

History Made Interesting.

It was during ancient history period one day that I felt so embarrassed. I was tired of reading about Julius Caesar and wanted something new. I pulled off the old stunt of placing a book, a story book at that, in front of my history, and the old camouflage held good until I was called on to read.

Thoughtlessly I stood up and in an excited voice began to read: "The lights! The lights! The boat is sinking. As the cold water rushed on the deck—" Here my voice ran off to a mere whisper as I realized what I had been reading.

"Interesting history," my teacher commented dryly as I hastily sat down. O, man! How the class roared!—Chicago Tribune.

Not Getting Care.

"How's your garden getting along?" "It's terrible. I stupidly can't get the wife to hoe it!"

Skin Troubles

Soothed With Cuticura

Too Much Detail.

Critic Brander Matthews said at a Columbia tea:

"Suggestion rather than detail makes the most vivid picture. Detail, indeed, may spoil a picture completely."

"A preacher was describing heaven to a widow whose husband had just died. He said that the separation of dear ones was not for long, and then with elaborate detail he painted the happiness of those whom death reunites in Paradise.

"When the preacher stopped for breath the widow observed thoughtfully:

"Well, I suppose his first wife has got him again, then."

His Recipe.

"Bragg never afflicts you with his long-winded stories. How is it you escape?"

"I first lent him \$25, then told him all the clever things the baby said and, last of all, treated him to cigars my wife gave me on my last birthday. I've not seen him since."

Question Answered.

"Hello, old top. New car?" "No! Old car, new top."—Lafayette Lyre.

Western Canada Offers Health and Wealth

and has brought contentment and happiness to thousands of home seekers and their families who have started on their FREE homesteads or bought land at attractive prices. They have established their own homes and secured property and independence. In the great grain-growing sections of the prairie provinces there is still to be had on easy terms

Fertile Land at \$15 to \$30 an Acre—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. Healthful climate, good schools, churches, schools, rural telephone, excellent markets and shipping facilities. The climate and soil offer inducements for almost every branch of agriculture. The advantages for

Dairying, Mixed Farming and Stock Raising make a tremendous appeal to industrial settlers wishing to improve their circumstances. For certificate entitling you to reduced railway rates, illustrated literature, maps, description of farm opportunities in Manitoba, Saskatchewan, Alberta and British Columbia, etc., write

Thursday Afternoon, August 4, 1921

Oscar Holmes and family of New York have been visiting the former's mother, for the past week.
Miss Alva Bell Palma of Mantoloking is visiting her cousin, Miss Ruth Paul for a week.
Newell Falkenburg and family of Barnegat, spent a day with Mrs. Mary Sprague recently.
Ephraim Lowery has been home from New York for a few days.
Earl McAnney's new garage is a

great improvement to the corner of Bay avenue and Main street. He has it equipped with the Delco lighting system, and a lot of other improvements and is open for business.
S. C. Shutes is very ill at this writing.
Mrs. Josephine Bershall of Borden-town, has been visiting Mr. and Mrs. William Malbury.
Jason Fenimore and family have moved to Harvey Cedars for a few weeks.

Jack Patterson has moved in the property belonging to E. A. Shinn on Beach Avenue.
Mrs. Fannie Inman spent Sunday at Beach Haven with her parents.
Harold Cranmer and friends have returned to their home in Trenton after spending a week at his home here with his parents, Mr. and Mrs. Chas. Cranmer.

"Be Sure You Are Right"
"Be sure you are right, then go ahead." The foregoing was the maxim of David Crockett, a scout of pioneer days in America, also a soldier and politician, unlearned but shrewd and skillful. He was born in Limestone, Tenn., in 1780. His training was that of the wild frontier, typical of the early Nineteenth century. At the Alamo in 1836 he was one of the six survivors of the siege who, upon their surrender to General Santa Anna, were massacred by the Mexicans.

TANLAC
Your house is worth as much again as it was a few years ago.
For your own protection, you should have more insurance on both your house and furniture.
When you need insurance, you need it bad, and you don't know how soon you are going to need it.

Barnegat
S. E. Badanes Company have opened their factory on Railroad avenue, Barnegat and will be glad to interview everyone who is willing to work and who has a little experience in sewing on a machine.
Geo. H. Cranmer entertained his two daughters from Elizabeth and Red Bank for the week end and Sunday.
Mrs. W. Perrine and two children are spending a few days in Cedar Run with the former's parents.
The men are now wearing bobbed mustaches. The bobbed hair women have one on the men now.
Roy Cox is erecting a garage on the rear of his property on Maple avenue.
The entertainment for the benefit of the organ fund held at the Opera House gave satisfaction to all concerned.
The Mosquito Extermination Commission will have to get a move on quit the business as the mosquitoes are out in full force, seeking whom they might devour.
J. K. Ridgway has been confined to his home here for some time.
Don't forget the services at the Friend's Meeting House. Max Reich, of Morrisville, Pa., is expected to be present.
Ice cream, soda and soft drinks, have been in demand the past few days.
Augustus Conklin and brother-in-law of Cedar Run, motored up the past week and enjoyed the sights of Barnegat.
Some of the telephone wires and hms from trees were broken down during the heavy winds the past week.
The hay is well attended on Sunday, if the churches are not.
An addition is to be made to the H. School building.
Mrs. Freeman W. Sprague and son, of Jersey City Heights are guests of the former's sister, Mrs. I. J. Cranmer on Railroad avenue.
Earl Brandt was a guest of his parents over Sunday.
Frank Somers has purchased a new power boat.
Charles Reeves broke his right arm Monday while cranking his Ford.
Chas. H. Soper broke his collar bone Sunday.
The bungalow on Brook street, occupied by Walter Perrine, has been rented for the month of August by two ladies from Ardmore, Pa.
Mr. and Mrs. Joseph Willits of Smithville spent Monday and Tuesday as guests of Mrs. Elizabeth Woodmansee. They attended the funeral of Mrs. Sarah Bowker.
Mrs. Hannah Ridgway is ill at the home of her son, George Ridgway on Center street.
Howard Malcolm of Jersey City, is a guest of his grandfather, Leslie Malcolm on Brook street.
Rev. O. W. Wright preached at the M. E. Church on Sunday evening last.
W. H. Cranmer of Beach Haven, spent Sunday with his parents.
County Collector Cranmer of West Creek, was a caller on Monday.
Thomas Hazelton Jr., of Manahawkin, was a Monday caller.
Miss Phyllis Rutter entertained a friend over Sunday.
Dr. Francis McDermott of Ashbury Park, will preach at the M. E. church on Sunday evening next.
Missionary Day will be observed in the M. E. Sunday School next Sunday.
H. A. Tolbert has returned from the Philadelphia Hospital and is much improved.
Mrs. Sara B. Hernburg spent Monday at Beach Haven.
Miss Sarah M. Bowker passed away on Friday last after a few days illness at the age of 82. Funeral services were held at her late residence on Monday in charge of Rev. Pennington Corson. Interment in the Masonic Cemetery.
The time for the clam bake at Pine Beach is near at hand, Thursday, August 18th. Al. Brown will be in charge which is a sure guarantee that all will be taken care of and plenty of eats.

3 Years of Faithful Service
My previous term in the Sheriff's office—three years of faithful service to Ocean County and its people—is my guarantee of faithful performance of duty if once more chosen to that office of responsibility by the voters. Surely past achievement is a stronger guarantee than any promise of future performance.
Thanking you in advance I am,
Yours very truly,

Blame the Dentist.
The gums more frequently lose their strength and become feeble from lack of care, but sometimes a poor dentist does much to bring about Riggs' disease. Ill-fitting crowns and bridges are a great menace to the gums and often result in the formation of pus, as do stumps of teeth and half-decayed roots which are attempted to be saved by crowning or are permitted to remain in the mouth.
Them Were the Happy Days.
In those cave days a man was his own barber, his own plumber, his own grocer and everything, if married, except his own boss.—Detroit News.

STAFFORD TOWNSHIP
NOTICE OF SALE OF LANDS FOR DELINQUENT TAXES FOR THE YEARS 1919 AND 1920.
Notice is hereby given by the undersigned, Collector of the Township of Stafford, in the County of Ocean and State of New Jersey, that on the 18th day of August, A. D. 1921, at two P. M. at the Township Office, Manahawkin, in said Township, he will sell at public auction each of the following described lands, or parcels of real property, together with the tenements and hereditaments thereunto belonging, or any part thereof, sufficient for the purpose, to such person as will purchase the same, subject to redemption, at the lowest rate of interest, but in no case in excess of eight per cent. per annum, and pay the tax lien thereon including interest and costs of sale, payment to be made before the conclusion of the sale or the property to be resold.
The said lands, parcels of real property, etc., so to be sold, the delinquent owners thereof and the amount of the delinquent taxes interest and costs due thereon are as follows:

Eatonie W.
"I have taken only two Eatonie and feel like a new man. It has done me more good than anything else," writes C. O. Frappier.
Eatonie is the modern remedy for acid stomach, bloating, food repeating and indigestion. It quickly takes up and carries out the acidity and gas and quibbles the stomach to digest the food naturally. That means not only relief from pain and discomfort but you get the full strength from the food you eat. Big box only costs a trifle with a druggist's guarantee.

FISK TIRES
CORDS FABRICS
REDUCTION in Fisk prices does not mean a lowered quality.
Every Fisk Tire, large or small, is a standard Fisk Tire.
Present low prices are on tires which have made the name Fisk famous for quality and mileage.
There is no better tire value in the world than a Fisk Tire at the present price.

Fishing News

E. T. Barstow, E. Jones, E. D. Davis, T. Shirley, W. Harrison, W. Richmond, H. Stocker, J. Fisher and Albert Hill went out the Bay with Capt. D. P. Crowley and caught 20 fine fish.
Capt. Chas. E. Jones took a party on board the "Uncle Joe," A. M. Kopp, George Hughes, M. Mutelesse, Fred Simmons, Henry Armstrong, and Henry Hand. They returned with 20 fish.
George Wadas, Thos. Sivil, Herman Block, John Lutz, Herbert Hoesback, John Cain and Wm. Ballwin went fishing in Capt. Del. White's yacht, the "Mattie H." This party was one of the liveliest to visit Tuckerton this season and we are truly sorry they didn't catch the number of fish they said they had caught, at first. We hope they may soon come to Tuckerton again and be even more successful.

Mr. and Mrs. John S. Lutz of Trenton, Chester Lutz of Highrock, Pa., Miss Jennie Cross, of Laurel, Pa., Cyrus Schaaf, of Chester, Pa., and Austin Schaaf of Mt. Holly, had a delightful fishing trip on our bay, July 23, with Capt. Adelbert Marshall. 48 fish were caught.
Capt. Joseph P. Smith took a party from fishing on Tuckerton Bay. They were Messrs. Harrison Piper, Joseph McQuig, John Pettit, Frank Carrigan, Chas. Wright, Geo. Wright, Alfred Steamer, Geo. Loveland, Lisle Wright and Norman Boger. They caught 55 fine fish and returned to dock much pleased with their success.

Thomas Strain, Thomas H. Strain, Miss A. Strain, M. Penn, Miss Elizabeth Muenster, Mr. and Mrs. J. L. Moore, James Moore, Jr. and Miss Mary Charman of Moorestown and Merchantville went fishing on our bay July 23, with Capt. Harvey Sapp on board the "Kindergarten." They caught 34 fish, 32 of them being fine large weak fish.

Capt. Ira Mathis took Messrs. D. A. Woodhouse, Daniel Woodhouse, F. M. Buckman and R. D. Lind of New York City fishing on Tuckerton Bay on board the yacht, "Alida Day." They caught 29 fish.
July 24, Capt. Harvey Gale, Jr. of Tuckerton, took a party of nine from Harrisburg, Pa., fishing on Tuckerton Bay, where they caught 108 fine fish.

E. H. Linberg, E. N. Hodges, E. J. Hodges and W. V. Hokenberger of New York spent Saturday, July 16, on Tuckerton Bay with Capt. Walter Sapp on board the "Mattie H." They caught 46 fish.
Mr. and Mrs. Thos. Erving, Mr. and Mrs. Herman Edwards, Mr. and Mrs. C. B. Sanford, Mr. and Mrs. Jesse Lewis of Chester, Pa., caught 89 fish on a trip on Tuckerton Bay, July 15, with Capt. Ernest Smith. The men declared they had a fine time and the ladies, not to be surpassed by their husbands, pronounced their trip "delightful." We hope they will come again.

George Everett of Haddonfield and a party of four caught 34 fine fish.

Messrs. Harry Smith and Miller Mecouch of Atlantic City, William Atkinson of Absecon, Chester Berry of Collingswood and Samuel Atkinson of Pleasantville, spent a pleasant afternoon on Tuckerton Bay, July 26. They went fishing with Capt. Walker Sapp on board the yacht "Mattie A." and caught 60 nice fish.

Geo. Watson, G. F. Everett of Haddonfield, Walter H. Everett and H. P. Brown of Philadelphia, enjoyed a fishing trip on Tuckerton Bay, Saturday, July 30. They went out with Capt. J. N. Bennett and caught 46 fish.

Messrs. H. Nawnen Sr., H. Nawnen Jr., Alfred Nawnen and Wm. Fullton, of Carteret and Woodbridge spent Saturday, July 16, on Tuckerton Bay on board the "Florence" with Capt. J. N. Bennett. They caught 72 fine fish. One weak fish weighed 7 lbs. Needless to say these gentlemen were delighted with their trip, especially the one who got the "big fish."

Messrs. Hayes, Daniel Wells and Spencer Powell of Lumberton, N. J., caught 45 large weak fish while fishing on Tuckerton Bay with Capt. Harvey Gale Sr., July 18.
Mr. Burrell Smith, Mr. and Mrs. Edward Wells, Mr. and Mrs. Elmer Dorigan and Messrs. Walter Dunna-haur and Albert Shinn of Medford, Burlington, and Mt. Holly went fishing on Tuckerton Bay Saturday, July 16 with Capt. Claude Smith on the "Edna Ray." They caught 78 fish and returned to the landing delighted with their success.

Messrs. A. H. Asten, J. B. Garrison, Charles Brock and Jacob Cook of Trenton went fishing on Tuckerton Bay with Capt. Jos. P. Smith on the yacht "Mabel." They caught 45 fish.
Messrs. Frederick Brusnamah, Harry Brusnamah, Joseph Weisberber, Jos. G. Metler and Harvey Licap of Trenton spent Wednesday, July 20, at Tuckerton. Capt. Chas. E. Jones took them fishing on Tuckerton Bay, where they caught 82 fine fish.

Wm. Henry Sr., V. Russell Henry, Robert T. Henry, Oscar J. Hillman, Robert Y. Garrett, Sr., and Robert Y. Garrett Jr., of Haddonfield, caught 21 large weak fish while fishing on our bay, July 20, with Capt. J. B. Marshall.
Dr. and Mrs. Sturtevant, Messrs. H. R. Omwake, V. K. Irvine, and Miss Sarah Irvine of Philadelphia, had a pleasant fishing trip on Tuckerton Bay with Capt. Ira Mathis in the yacht "Alida Day." They caught 25 fish.

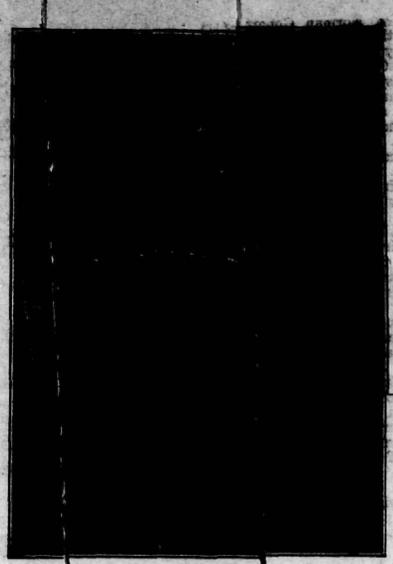

A party of men from City Hall, Philadelphia, enjoyed fine fishing on Tuckerton Bay, July 25 and 26. They were Frank Schelber, Sam Morris, C. D. Grover, Edward J. O'Mally and Capt. Thomas B. Thomas. They went out with Capt. Del. White on board the "Mattie H." and caught 24 fish the first day and 62 nice ones the next.

Messrs. Harry Smith and Miller Mecouch of Atlantic City, William Atkinson of Absecon, Chester Berry of Collingswood and Samuel Atkinson of Pleasantville, spent a pleasant afternoon on Tuckerton Bay, July 26. They went fishing with Capt. Walker Sapp on board the yacht "Mattie A." and caught 60 nice fish.

Geo. Watson, G. F. Everett of Haddonfield, Walter H. Everett and H. P. Brown of Philadelphia, enjoyed a fishing trip on Tuckerton Bay, Saturday, July 30. They went out with Capt. J. N. Bennett and caught 46 fish.

JAMES H. BOGERT

To the Voters of Ocean County:

I HEREBY ANNOUNCE MYSELF AS A CANDIDATE FOR SHERIFF IN THE REPUBLICAN PRIMARIES TO BE HELD ON SEPTEMBER 27, 1921, AND WOULD APPRECIATE YOUR SUPPORT.
JAMES H. BOGERT
Paid for by James H. Bogert Campaign Committee.

The Celebrated HOMER FURNACE
AND A FEW OF ITS MANY GOOD POINTS
1. Made from Special Stroked iron by expert workmen.
2. Extra Heavy Double ribbed fire pot with heavy dome and Radiator with large flue space and two large clean out holes.
3. Inside cases galvanized iron with asbestos lining thus retaining the heat where it belongs.
4. Heavy cast iron register connected to heater by galvanized pipes.
5. All parts made with deep flanges where furnace cement goes thus insuring tight joints.
6. Smoke pipe can be taken out of cases at any angle thus doing away with extra elbows on smoke pipe, which so often makes a poor draft and prevents the furnace from doing its best work.

L. Bamberger & Co. of Newark
Start Work on \$1,500,000 Addition to Their Store

Four old buildings, including the historic eight-story Metropolitan Building at Market and Washington Streets, are being razed, and ground will soon be broken for what in all probability is the most extensive downtown building operation that Newark has witnessed in many years. The four bays at the extreme left of the picture show the extent of the Market street side of the new building.
Shortly after the completion of the present Bamberger store in 1912, this firm, realizing that future expansion would be necessary, began to acquire additional land in the block in which the new building was situated. Parcel after parcel passed into their hands until the entire block bounded by Market, Halsey, Bank and Washington Streets came under Bamberger's control.
It is upon the Washington and Market Street corner that the firm is now preparing to erect an addition which, when completed, will increase the size of the present store by 25 per cent., or, in round numbers, afford an additional 100,000 square feet, giving the greater store in the neighborhood of a half million gross square feet of floor space. The present frontage on Market Street is 144 feet. The new building will increase this to 250 feet. The present frontage on Washington Street is 137 feet, which will be increased to 200 feet.
There will be three large entrances on Market Street and one on Washington Street. The Halsey Street entrances, of which there are three, will remain as they are.
The same dignified Gothic architecture which marks the present store will be faithfully adhered to, thus giving, in point of extent and architectural beauty, will have few counterparts in America today.
The new addition will be part and parcel of the present store. There will be no doorways or walls to obstruct the view. There will be a system of up and down escalators in the new building from the first to the third floors. The present escalators will, of course, remain as they are.
On the roof of the new building there will be a recreation room and restaurant for the co-workers of the store. This room, which will be constructed entirely of glass, will be one of the finest and most modern of its kind in the United States. It will contain over 2,000 square feet of floor space and accommodate about 500 diners at one time. Modern electric kitchens will be installed as well as special refrigerating facilities. From the factitious restaurant and rest room will be afforded a view of the four sides of Newark.
In the rear of the restaurant will be a 10x25 ft. 50 ft. room in which co-workers may rest or read.
A portion of the basement of the new store will be excavated to a double level. The secondary level, which will be used for the present, as a storage place for merchandise, will eventually provide space for a vast extension of the present engine room and refrigerating plant.
Twenty-eight years ago, L. Bamberger & Co. occupied two floors in a building 50x200 feet. A few years later the little store had grown to such an extent that the three-story building was no longer sufficient. Another building was added in 1891, which increased the Bamberger floor space by 100 per cent. In 1898 another addition was built extending clear back to Bank Street.
1914 saw the opening of the new store—the "Great White Store," as Newark proudly calls it. This building, which is regarded as one of the most notable department stores in the country, will be vastly improved by the addition of the new corner.
Jarvis Hunt, of Chicago, the architect of the present building, has drawn the plans for the new addition. Martin Schwab, of Chicago, is the consulting engineer. Tausig, on the floor, also at Newark, are the architects. The new building will be a structure of the highest quality.

A Man for the

A Story of the Builders of Democracy

By IRVING BACHELLER

CAPTAIN LINCOLN.

Synopsis.—Samson and Sarah Taylor, with their two children, Josiah and Betsy, travel by wagon from their home in Vergennes, Vt., to the West, the land of plenty. Their destination is the country of the Sangamon, in Illinois. At Niagara Falls they meet John McNeill, who also decides to go to the Sangamon country. Sarah's ministrations save the life of Harry Needles and he accompanies the Taylors. They reach New Salem, Illinois, and are welcomed by young Abe Lincoln. Jack Kelo and his pretty daughter Bim and others. Samson raises his cabin. Lincoln thrashes Armstrong. Harry strikes Bap McNeil. Harry is attacked by McNeil and his gang, and Bim drives off his assailants with a shot gun. McNeil is markedly attentive to Ann Rutledge. Lincoln is in love with Ann, but has never had enough courage to tell her so. Harry loves Bim. Taylor helps two slaves, who had run away from St. Louis. Elphinst, Bliggs, owner of the slaves, has his arm broken by Taylor. Bliggs meets Bim and makes love to her.

CHAPTER VIII.

Wherein Abe Announces His Purpose to Be a Candidate for the Legislature, at Kelo's Dinner Party.

Harry Needles met Bim Kelo on the road next day, when he was going down to see if there was any mail. She was on her pony. He was in his new suit of clothes—a butternut background striped into large checks.

"You look like a walking check-board," said she.

"This—is this my new suit?" Harry answered, looking down at it.

"It's a tiresome suit," said she impatiently. "I've been playing checkers on it since I caught sight of you, and I've got a man crowned in the king row."

"I thought you'd like it," he answered, quite seriously, and with a look of disappointment. "Say, I've got that razor and I've shaved three times already."

"Don't tell anybody," he warned her. "They'd laugh at me. They wouldn't know how I feel."

"I won't say anything," she answered. "I reckon I ought to tell you that I don't love you—not so much as I did, anyway—not near so much. I only love you just a wee bit now."

Harry's face fell.

"Do you—love—some other man?" he asked.

"Yes—a regular man—mustache, six feet tall and everything. I just tell you his name."

"Is it that rich feller from St. Louis?" he asked.

She nodded and then whispered: "Don't you tell."

The boy's lips trembled when he answered. "I won't tell. But I don't see how you can do it."

"Why?"

"He drinks. He isn't respectable."

"That's a lie," she answered quickly. "I don't care what you say."

Bim touched her pony with the whip and rode away.

Harry staggered for a moment as he went on. His eyes filled with tears. It

seemed to him that the world had been turned. On his way to the village he tried and convicted it of being no fit place for a boy to live in. Down by the tavern he met Abe, who stopped him.

"Howdy, Harry!" said Abe. "You look kind of sick. Come into the store and sit down. I want to talk to you."

Harry followed the big man into Offut's store, flattered by his attention. There had been something very grateful in the sound of Abe's voice and the feel of his hand. The store was empty.

"You and I mustn't let ourselves be worried by little matters," said Abe, as they sat down together by the fire. "Things that seem to you to be as big as a mountain now will look like a mole hill in six months. You and I have got things to do, partner. We mustn't let ourselves be fooled. I was once in a boat with old Cap'n Chase on the Illinois river. We had got into the rapids. It was a narrow channel in dangerous water. They had to keep her headed just so or we'd have gone on the rocks. Suddenly a boy dropped his apple overboard and began to holler. He wanted to get out of the boat. For a minute or two he was a nuisance. You sat. Big boys only costs a trifle with a druggist's guarantee."

"Do You—Love—Some Other Man?" He Asked.

"Ah, Doctor! Long life has made you as smooth as an old shilling and nimbler than a sixpence," Kelo declared. "And, speaking of life, Aristotle said that the learned and the unlearned were as the living and the dead."

"It is true," Abe interposed. "I say it, in spite of the fact that it slays me."

"You? No! You are alive to your finger tips," Kelo answered.

"But I have mastered only eight books," said Abe.

"And one—the book of common sense, and that has wised you," Kelo went on. "Since I came to this country I have learned to beware of the one-book man. There are more living men in America than in any land I have seen. The man who reads one good book thoughtfully is alive and often my master in wit or wisdom. Reading is the gate and thought is the highway of real life."

"I think that most of the men I know have read the Bible," said Abe.

"A wonderful and a saving fact! It is a sure foundation to build your life upon."

Kelo paused to pour whiskey from a jug at his side for those who would sit with him.

"I feel sad when I think of Abe," said Harry. "He don't know what is ahead of him, I guess. I heard Mrs. Taylor say that he was in love with Ann."

"I reckon he is, but he don't know how to show it. He's never told her. I reckon he's mighty good, but he don't know how to love a girl."

apples and calling for the boat to stop. Soon we find out that there are many apples in the world as good as that one. You have all come to a stretch of bad water up at your house. The folks have been sick. They're a little lonesome and discouraged. Don't you make it any harder by crying over a lost apple. Ye know it's possible that the apple will float along down into the still water where you can pick it up by and by. The important thing is to keep going ahead."

This bit of fatherly counsel was a help to the boy.

"I've got a book here that I want you to read," Abe went on. "It is the 'Life of Henry Clay.' Take it home and read it carefully and then bring it back and tell me what you think of it. You may be a Henry Clay yourself by and by. The world has something big in it for every one if he can only find it. We're all searching—some for gold and some for fame. I pray God every day that He will help me to find my work—the thing I can do better than anything else—and when it is found help me to do it. I expect it will be a hard and dangerous search and that I shall make mistakes. I expect to drop some apples on my way. They'll look like gold to me, but I'm not going to lose sight of the main purpose."

When Harry got home he found Sarah sewing by the fireside, with Joe and Betsy playing by the bed. Samson had gone to the woods to split rails.

"Any mail?" Sarah asked.

"No mail," he answered.

Sarah went to the window and stood for some minutes looking out at the plain. Its serene grasses, protruding out of the snow, hissed and bent in the wind. In its cheerless winter colors it was a dreary thing to see.

"How I long for home!" she exclaimed, as she resumed her sewing by the fire.

Little Joe came and stood by her knee and gave his oft repeated blessing:

"God help us and make His face to shine upon us."

She kissed him and said: "Dear comforter! It shines upon me every time I hear you say those words."

"Would you mind if I called you mother?" Harry asked.

"I shall be glad to have you do it if it gives you any comfort, Harry," she answered.

She observed that there were tears in his eyes.

"We are all very fond of you," she said, as she bent to her task.

Then the boy told her the history of his morning—the talk with Bim, with the razor omitted from it.

"Well, Harry, if she's such a fool, you're lucky to have found it out so soon," said Sarah. "She does little but ride the pony and play around with a gun. I don't believe she ever spun a hank o' yarn in her life. She'll get her teeth out by and by."

Then fell a moment of silence. Soon she said:

"There's a bitter wind blowing and there's no hurry about the rails, I guess. You sit here by the fire and read your book this forenoon. Maybe it will help you to find your work."

So it happened that the events of Harry's morning found their place in the diary which Sarah and Samson kept. Long afterward Harry added the sentences about the razor.

One evening Sarah and Samson, with Harry, went to a debate in the tavern on the issues of the day, in which Abe won the praise of all for an able presentation of the claim of Internal Improvements. During that evening Alexander Ferguson declared that he would not cut his hair until Henry Clay became President, the news of which resolution led to a like insanity in others and an age of unexampled hairiness on that part of the border.

For Samson and Sarah the most notable social event of the winter was a chicken dinner at which they and Mr. and Mrs. James Rutledge and Ann and Abe Lincoln and Doctor Allen were the guests of the Kelses. That night Harry stayed at home with the children.

Kelo was in his best mood.

"Come," he said, when dinner was ready. "Life is more than friendship. It is partly meat."

"And mostly Kelo," said Doctor Allen.

"Ah, Doctor! Long life has made you as smooth as an old shilling and nimbler than a sixpence," Kelo declared. "And, speaking of life, Aristotle said that the learned and the unlearned were as the living and the dead."

"It is true," Abe interposed. "I say it, in spite of the fact that it slays me."

"You? No! You are alive to your finger tips," Kelo answered.

"But I have mastered only eight books," said Abe.

"And one—the book of common sense, and that has wised you," Kelo went on. "Since I came to this country I have learned to beware of the one-book man. There are more living men in America than in any land I have seen. The man who reads one good book thoughtfully is alive and often my master in wit or wisdom. Reading is the gate and thought is the highway of real life."

"I think that most of the men I know have read the Bible," said Abe.

"A wonderful and a saving fact! It is a sure foundation to build your life upon."

Kelo paused to pour whiskey from a jug at his side for those who would sit with him.

"I feel sad when I think of Abe," said Harry. "He don't know what is ahead of him, I guess. I heard Mrs. Taylor say that he was in love with Ann."

"I reckon he is, but he don't know how to show it. He's never told her. I reckon he's mighty good, but he don't know how to love a girl."

"I am a legislator," said Harry. "The town is in water, a 'If you had to it, I'd like the voters of Samson's appeal as follows: 'He said that confidence and citizens. This by doing something him worthy of it. ing of the count, do more for it than a railroad would. Improvement of the was the next best. a usury law and say talk he had just heard to favor the improve-

ing of schools, so that every one could learn how to read, at least, and learn for himself what is in the Bible and other great books. It was a modest statement and we all liked it."

"Whatever happens to Sangamon, one statement in that platform couldn't be improved," said Kelo.

"What is that?" Abe asked.

"It's the one that says you wish to win the regard of your fellows by serving them."

Early in April an Indian scare spread from the capital to the remotest corners of the state. Black Hawk, with many warriors, had crossed the Mississippi and was moving toward the Rock River country. Governor Reynolds called for volunteers to check the invasion.

Abe, whose address to the voters had been printed in the Sangamon Journal, joined a volunteer company and soon became its captain. On the tenth of April he and Harry Needles left for Richland to go into training. Samson was eager to go, but could not leave his family.

Bim Kelo rode out into the fields where Harry was at work the day before he went away.

"I'm going away," the boy said, in a rather mournful tone.

"I hate to have you go. I just love to know you're here, if I don't see you. Only I wish you was older and knew more."

There was half a moment of silence. She ended it by saying:

"Ann and I are going to the spelling school tonight."

"Can I go with you?"

"Could you stand it to be talked to and scolded by a couple of girls till you didn't care what happened to you?"

"Yes; I've got to be awful careless."

"We'll be all dressed up and ready at quarter of eight. Come to the tavern. I'm going to have supper with Ann. She is just terribly happy. John McNeil has told her that he loves her. It's a secret. Don't you tell."

"I won't. Does she love him?"

"Devotedly—but she wouldn't let him know it—not yet. I reckon he'll be plumb anxious before she owns up. But she truly loves him. She'd die for him."

"Girls are awful curious—nobody can tell what they mean," said Harry. "Sometimes they don't know what they mean themselves. Often I say something or do something and wonder what it means. Did you ever ride a horse sitting backwards—when you're going one way and looking another and you don't know what's coming?" she asked.

"What's behind you is before you and the faster you go the more danger you're in?" Harry laughed.

"Isn't that the way we have to travel in this world, whether we're going to love or to mill?" the girl asked, with a sigh. "We cannot tell what is ahead. We see only what is behind us. It is very sad."

Harry looked at Bim. He saw the tragic truth of the words and suddenly her face was like them. Unconsciously in the midst of her playful talk this thing had fallen. He did not know what to make of it.

"I feel sad when I think of Abe," said Harry. "He don't know what is ahead of him, I guess. I heard Mrs. Taylor say that he was in love with Ann."

"I reckon he is, but he don't know how to show it. He's never told her. I reckon he's mighty good, but he don't know how to love a girl."

Blame the Dentist.

The gums more frequently their strength and become feeble. It ain't purty lack of care, but sometimes a dentist does much to bring a Riggs' disease. Ill-fitting crowns bridges are a great menace to gums and often result in the formation of pus, as do stumps of teeth half-decayed roots which are attended to be saved by crowning or permitted to remain in the mouth.

Them Were the Happy Days.

In those cave days a man was his own barber, his own plumber, his own grocer and everything, if married, except his own boss.—Detroit News.

STAFFORD TOWNSHIP NOTICE OF SALE OF LANDS FOR DELINQUENT TAXES FOR THE YEARS 1919 AND 1920.

Notice is hereby given by the undersigned, Collector of the Township of Stafford, in the County of Oneida, and State of New Jersey, that on the 13th day of August, A. D. 1921, at two P. M. at the Township Office, Manassawick, in said Township, he will sell at public auction each of the following described lands, or parcels of real property, together with the tenements and hereditaments thereunto belonging, or any part thereof, sufficient for the purpose, to such person as will purchase the same, subject to redemption, at the lowest rate of interest, in no case in excess of eight per cent per annum, and pay the tax thereon including interest and costs, to the satisfaction of the Township.

Excitement Harry forgot the spelling school. To Bim it was a tragic thing. Before he went to bed that night he wrote a letter to her.

Abe and Harry in the Black Hawk war.

(TO BE CONTINUED.)

APRON WORN AS ORNAMENT Women of Czechoslovakia Don Garment With a View of Attracting Masculine Eyes.

In the villages and country portions of Czechoslovakia the women do not wear aprons as a badge of work. On the contrary the Czechoslovakia maid does not put her apron on when she enters the house—she dons it only when she is going out to capture the eye of some swain who long has paid her court. And these aprons usually are heirlooms. Green is the favorite color. Next in popularity come gold or yellow, silver, pink, blue, cerise and flaming rose. Usually the embroideries which display these colors are upon dark foundations. Some, however, are white. In both types gay ribbons sometimes play a part. And often the white mutton sleeves of the waists are gayly embroidered to complete the radiant effect the wearer's apron lends as she strolls down the street or along the country lane.

Their skirts are usually black and always short. Their stockings are for protection in their walks as well as for display. Some have small, bright designs knitted into the dull black. The waist-length jackets they wear are usually quite plain, save for the hand-made lace around the bust and on the sleeves. The head shawls sound the varying color note. But it is in the aprons that the love of color is more clearly shown.

BROUGHT VENDER TO TIME Loyal Small Girl Convinced Him What a Very Important Person Her Daddy Was.

The admiration of four-year-old Mary Elizabeth for her father had been the cause of much comment in the family circle. Mary Elizabeth was simply filled with adoration, which seems entirely old-fashioned.

So when the circus came to town Dad the Magnificent said there could be a box party, and added to the thrill by volunteering to escort his daughter and her little playmates to see the wonders of the greatest show. During the very first part some bright eye chanced to discover a balloon vender. Immediately there was a unanimous vote that balloons were next in line, and Mary Elizabeth was dispatched hastily to bring the vender, and, of course, keeping an eye on her retreating figure.

When she returned with the man and the whole crowd had been presented with the bright-colored balloons—dad asked her how she had made out on the journey.

"Well," she informed him primly, "the man started to be very rude. I told him you wanted him to bring those balloons up to our seats, and he said he was busy and couldn't be bothered. Then I told him that he better come at once, 'cause he didn't know what an important person my dad is."—New York Sun.

Ancient Crown Preserved. The old crown of the Lombards is still preserved in the Church of St. John the Baptist at Monza. It is made of six pieces and adorned with 22 jewels, 26 golden roses and 24 emeralds. It was brought from Pateinca by the Empress Helena, and given by Pope Gregory I to the Lombard princess Theodelinda. The crown was used in crowning the Lombard kings and the German emperors as kings of Italy. Napoleon used it at Milan in 1805, and the Emperor Ferdinand I in 1833. It was carried off by the Austrians in 1850, but restored to Monza in 1833.

Evil of Discontent. Discontent is like ink poured into water, which fills the whole fountain full of blackness. It casts a cloud over the mind, and renders it more occupied about the evil which it than about the good.

AMERICANS CONSUME FEW FISH COMPARED WITH OTHER NATIONS

The sooner a fish can be served after being caught the more appetizing it will be.

(Prepared by the United States Department of Agriculture.)

Many families during the war formed the habit of having two or three fish days a week and some of them have kept it up ever since. Many others, if they tried it, would find that the use of more fish adds pleasant variety to the meals.

America has as good a fish supply as any country in the world, say food specialists of the United States Department of Agriculture, but Americans eat less fish than the people of many other countries. For instance, in England an average of 65 lbs of fish yearly for each person live, while here the average is only pounds.

All told, there are said to be about 100 kinds of edible fish available in the United States, but it persons are familiar with not more than a dozen. It is a good idea to try new kinds of fish whenever it is an opportunity and, if they are available in the local market, suggest to the fishman that he add them to his supply. Also, if fresh fish cannot be obtained, many kinds of salt, smoked and canned fish can be kept anywhere at any season of the year.

How to Select a Fish.

Whenever possible, it best to go to the market and select a fresh fish. A fish is full, bright eye bright red, firm flesh and a firm odor. The gills along the backbone should be examined with special care because that is where a fish spoils first.

Frozen fish should be kept in that condition and thawed in cool place just before cooking. Much of the prejudice against frozen fish has come from the fact that it was thawed out some time before it was sold. Fish does not change in flavor and food value so long as it remains frozen, but it spoils very quickly after it is thawed.

Broiled Fish.—Broiling over coals or under the gas flame until brown is a favorite way of preparing the smaller size, or smoked fish, such as finnan haddock or white fish, are delicious served in this way.

Wash the fish, split, season, dot with fat, place on a greased broiler and broil until the flakes can be easily separated. If a gas broiler is used, place the rack several inches below the flame and brown. Sliced lemon makes an attractive garnish and gives additional flavor and food value.

Boiled Fish.—Boiled fish is easily prepared and, when served with a well-seasoned sauce, is delicious. Cook whole or if too large, cut in pieces. Cover with boiling salted water, but do not allow it to boil rapidly, as hard boiling breaks the fish. Cook for ten minutes per pound. Strongly flavored fish, such as carp, is improved by adding a half cupful of vinegar to the cooking water.

Baked Fish.—Use the whole fish or a piece from the middle of a large one. If desired, stuff with mashed potatoes, cooked rice, or bread crumbs well seasoned. Cut gashes down the back and insert strips of salt pork or dot with fat. Dredge with fine corn meal or flour, place in a baking pan and cook till tender, allowing ten to twelve minutes a pound. Sometimes fish is baked in a tomato sauce or in milk enough to cover the bottom of the pan.

Fried Fish.—Small fish may be fried whole; larger ones should be cut into pieces suitable for serving. Roll the fish in corn meal or flour, or dip it in batter, or in bread crumbs, egg, and again in crumbs. Fry in deep fat, or in a small amount of fat in a skillet. Fish fried in deep fat is less likely to be greasy than when fried in a pan.

EGGS QUITE USEFUL FOOD FOR CHILDREN If Overcooked They Are Likely to Cause Indigestion.

Best Ways of Serving Them for Young People Are Poached, Soft Boiled or Coddled—They May Be Scrambled for Change.

(Prepared by the United States Department of Agriculture.)

Eggs are especially useful food for young children. The chief point to remember in preparing them for children is that they must not be overcooked for such are likely to cause indigestion, say food specialists in the United States Department of Agriculture. Every one knows how the heat of cooking hardens the egg, and it is easy to understand why the digestive juices might have difficulty in penetrating such hard substance as the white of a hard-boiled egg. Overcooked yolks are also thought to be hard to digest. However, when eggs are cooked in the shell, the heat reaches the white before it does the yolk, and there is no danger of the white being overcooked than of the yolk. The best ways of serving eggs for children are poached, soft boiled, or coddled, though they may be scrambled for a change if one is careful not to scorch the fat used, nor to overcook the egg.

Many means have been suggested for cooking eggs in such a way that the yolks will be cooked and the whites will not be overcooked. One of the most satisfactory is by cooking, which is done as follows: Allow a cupful of water to each egg, bring the water to the boiling point, remove it from the fire, put in the eggs, cover the dish closely, and leave the eggs in the water for about seven minutes. There is some uncertainty about this method, for eggs differ in weight and also in temperature at the time the cooking begins. One whole egg method can be modified upon the same principle. Good results are obtained by pouring water over eggs, if the same amount of water is used for each cook must be used.

RICE-STUFFED STEAK LIKED It is Good Eating and Possesses Advantage of Extending Small Amount.

Stuffed steaks are a good eating, and possess additional advantage of extending small amount of meat. The recipe for this dish is recommended by the United States Department of Agriculture:

1 pound round steak
2 cupfuls rice
Salt.

Blend the rice with the seasoning. Pound the steak with a layer of the rice about three-quarters inch thick. Roll and tie in shape or fasten with skewers. Put in a covered pan in water to keep from burning. Cook in the oven for 30 minutes. Remove the cover and brown the outside of the steak. Take care to remove the fat from the pan for gravy.

Or, if preferred, make individual servings. Cut a three-inch square of steak, place a tablespoonful of rice in the center, roll the steak around it, and fasten. Place it in a pan with a little water and cook as the roast was cooked. This steak is very good served with a tomato sauce.

HOUSEHOLD Questions

Place a broom on its handle end when not in use.

Before cleaning a radiator put damp newspapers under radiator to catch dust.

The general proportion for gelatin is one ounce of gelatin to a quart of liquid.

Fish can be scaled easily if put into boiling water for a minute before scaling.

Pieces of oilcloth pasted on the bottom of tin bread boxes will prevent them from rusting.

When sewing always thread needle cutting the cotton from the second make the knot at the fresh-jeweled end.

Roll Pastry Pastry should be rolled so the air may not be trapped.

Make Skirts Skirts keep their shape if hung up in a pressed folded band, or, if hand, a couple of the bands secure hanging.

The sooner a fish can be served after being caught the more appetizing it will be.

AMERICANS CONSUME FEW FISH COMPARED WITH OTHER NATIONS

The sooner a fish can be served after being caught the more appetizing it will be.

(Prepared by the United States Department of Agriculture.)

Many families during the war formed the habit of having two or three fish days a week and some of them have kept it up ever since. Many others, if they tried it, would find that the use of more fish adds pleasant variety to the meals.

America has as good a fish supply as any country in the world, say food specialists of the United States Department of Agriculture, but Americans eat less fish than the people of many other countries. For instance, in England an average of 65 lbs of fish yearly for each person live, while here the average is only pounds.

All told, there are said to be about 100 kinds of edible fish available in the United States, but it persons are familiar with not more than a dozen. It is a good idea to try new kinds of fish whenever it is an opportunity and, if they are available in the local market, suggest to the fishman that he add them to his supply. Also, if fresh fish cannot be obtained, many kinds of salt, smoked and canned fish can be kept anywhere at any season of the year.

Home Town Helps

SELECT TREES WITH CARE

Matter is of Greatest Importance When They Are Planted Along the Highways.

For many years it has been a custom with most people to plant trees without regard to the ultimate purpose they would serve. Little thought has been given as to the most suitable varieties for planting or that there might be sections along the roadway where it would be of advantage to cut the existing trees, and in this way make the roadside scenery more interesting and attractive. A closer study of the problem, however, shows that there are two distinct types of roadside scenery. The first may be said to be where the trees, shrubs, buildings and other objects that border the highway form the element of the picture, with the roadway as a central feature. Many places along the roadside have no inducements whatever as to special attractiveness, and in fact, the scenery may be of decidedly monotonous character. It is in such a place that one may feel at liberty to plant according to the so-called closed type.

The second type can be used where the wide meadows, fields and distant landscape compose the picture, with the roadside trees as frames. Examples of this type may be found in many sections of the state, where beautiful vistas could be enhanced by the presence of suitable shade trees. In many cases, trees along the highway form screens so as to break up the long stretches of views along openings here and there which make more attractive the roadside scenery.

ECONOMIC VALUE OF BEAUTY

Good Points Made by Governor Lake of Connecticut in Arbor and Bird Day Proclamation.

Governor Lake of Connecticut in his proclamation appointing Arbor and Bird Day made some excellent points. He recommended that all citizens, but particularly the teachers and pupils in schools, observe the day and add: "Let the pupils of our schools be taught that the planting and care of shade trees, the protection of birds and their eggs, is not only an economic measure, but contributes to the beauty of our state and the enjoyment of our homes. I further recommend the formation of town and village improvement associations to encourage tree planting and bird protection and to exercise interested care over matters relating to the scenic beauty of our towns and cities. Well-kept roads, streets and lawns enhance the value of property and promote the general welfare of towns and villages."

Observe especially the last sentence: "Well-kept roads, streets and lawns enhance the value of property and promote the general welfare of towns and villages."

Here is official recognition of the economic value of beauty. Common experience shows that Governor Lake is right. If every community continues its clean-up until every lawn is well kept and every building tidy and painted, won't the tendency be to increase property values?—Exchange.

City Planning in Schools.

"We have city planning courses in all of the schools," D. D. Pinkerton, president of the Kansas City board of education says. "We call them courses in civics. These courses deal with every phase of civil government and special attention is given to civic beauty. "Even young children are given instruction in civics. In the lower grades we use a primer which covers all the activities of a city in a comprehensive way. A good example of this type of primer is the one used by Walter Giddings, principal of Humboldt school."

In this primer there are some of the questions asked:

Is your neighborhood supplied with beautiful lawns and flower beds? Are the alleys and yards kept clean? Do the children take pride in keeping the school yard clean? How does the improvement of your property help the neighborhood? What conditions in your neighborhood might be improved?

Within His Rights.

"Is Mr. Grumpton a confirmed pessimist?"

"I don't think so. I've seen him pet newboys on the head and give dimes to beggars."

"But how does he conduct himself in a traffic jam?"

"He seethes a little, but not enough to attract the attention of a traffic policeman."—Birmingham Age-Herald.

Under City Management Plan.

Five cities of more than 100,000 population are now being administered under the city management plan—Albion, Dayton, Grand Rapids, Norfolk and Nashville. Cleveland and Kansas City are agitating the question of city management government.

Innovation in Pennsylvania.

Two second-class cities of Pennsylvania, Scranton and Pittsburgh, are empowered by law to adopt a system of separate assessment on land and on improvements, making the heavier burden come on the land.

The Unhappy Small Fish.

Sardines have disappeared from the Spanish coast. That's the way of the small fish—they always have to clear out for the larger.

Consolation Not Emphatic Enough.

"De voice of conscience ain't loud enough for most men," said Uncle Eben. "Dey needs an alarm clock."

Early President's Long Life.

John Adams died in his ninety-first year, the highest age attained by any President.

Fishing News

(continued from page 5)

Edward Cose, Edwin Morgan, Edgar Morgan, C. M. Wright, Leonard Burr, William Mezey, and John Henry of Burlington were very much pleased with their Saturday fishing trip on Tuckerton Bay. They went with Capt. Jos. P. Smith on board the "Mabel" and caught 60 large fish, the majority weak fish.

Mr. and Mrs. Stanley Rusk and son Stanley, Mr. and Mrs. G. Sherrerd, Mr. and Mrs. W. Pike and son, Mr. and Mrs. J. L. Schweyer and J. C. Johnson of Norristown and Haddonfield were delighted with their fishing trip on Tuckerton Bay with Capt. C. Ira Mathis on board the "Alida Day" July 30. They caught 54 fish.

Capt. N. Claude Smith took a party

from Columbus, Bordentown, Medford and Mt. Holly fishing on Tuckerton Bay. They were Mr. and Mrs. Benjamin Stiles, Mr. and Mrs. Franklin Brannin, Mr. and Mrs. Isaiah Prickett, Mr. and Mrs. Edward Engle and Mr. and Mrs. George Danse. These folks were much pleased with their trip and 54 fish were caught.

Luke Farley, Charles Mulford, Geo. Mulford, Herman Brenflock and Andrew G. Sedesze of Trenton went fishing on Tuckerton Bay, Saturday, July 30, with Capt. Del. White and caught 59 large fish.

O. V. Stockton and party of five from Philadelphia caught 27 fine fish while fishing on Tuckerton Bay, July 27, with Capt. N. Claude Smith.

Geo. Frederick, Robert Mills, John Becht, H. Vandergriff and George Wilbertson of Philadelphia, enjoyed a fishing trip on Tuckerton Bay Wednesday afternoon, July 27. They went fishing with Capt. Ernest Smith and caught 30 fish.

W. P. Bainbridge, C. L. Conard, Wesley Vern, and Ezra Megronigle of Trenton, were much pleased with their fishing trip on Tuckerton Bay, July 27. They went fishing with Capt. Adelbert White on board the "Mattie H." and caught 30 nice fish. One of the party caught a 9 pound flounder.

Messrs. Wells and Dish of the Ford Motor Co., of Philadelphia caught 42 fish while out on our bay, July 27, with Capt. Ezra Lippincott.

E. Wakefield, N. A. Conover, W. A. Conover, D. Garton, E. Carson, E. Cooper, E. Had, I. V. VanArsdale and E. S. Gray, of Plainfield, N. J., had a fine fishing trip on Tuckerton Bay, July 28, with Capt. Houston Driscoll catching 36 fine fish.

George Baker, Conrad Deuchler and A. R. Baker of Newark, were delighted with their trip on Tuckerton Bay, July 28. They went fishing with Capt. Del. White and caught 80 fine fish, one weak fish weighing 7 pounds.

"HOW I MADE WOODROW WILSON PRESIDENT"

William F. McCombs, National Chairman and Woodrow Wilson's personal manager writes an amazing historical document that will astound the Nation.

In the first chapter which appears in NEXT SUNDAY'S NEW YORK AMERICAN, he tells how the Princeton Trustees about to drop Wilson and "to let him down easy" suggest him for Governor of New Jersey.

Wilson asks McCombs to manage his Presidential campaign—Wilson's first speech shocks him—McCombs introduces McAdoo to Wilson. "Everybody is against Wilson!" says McAdoo—Penfield's large contribution of money and his subsequent appointment as Ambassador to Austria—Don't miss a single chapter of these startling revelations. Order next Sunday's New York American from your newsdealer today.

IN REMEMBRANCE

In loving memory of our darling daughter, Elizabeth Dunn Adams, born July 28, 1920, died Jan. 14, 1921. Empty is the little crib, The little clothes laid by, She has gone to live with Jesus, In the Mansion in the sky.

I strove so hard to keep you, Of sorrow, I've had my share, But when Jesus called you, I knew This grief was the hardest to bear. Sadly missed by Mother and Father.

OPERATES ON BRAIN

Invalid Surgeon Removes Bullet From Head of Convict.

Propped Up in Invalid Chair Dr. Chapman Performs Successfully Rare Operation in Surgery.

Ossining, N. Y.—The rare operation of removing a bullet from a man's brain was successfully accomplished in Sing Sing prison hospital. A remarkable feature was that Dr. William L. Chapman of Brooklyn, who performed the work, was propped in an invalid chair.

The operation was an attempt to cure insanity in a prisoner. The presence of two bullets in the brain was disclosed by X-ray, the one removed being imbedded almost two inches, while the other was lodged behind the right ear. When the first bullet had been extracted the other was found to be lodged solidly in the tissue. After a consultation it was decided not to touch it. The incision then was closed, and the patient regained consciousness.

The full operation lasted one hour. A piece of skull the size of a silver dollar first was removed, and into the aperture Dr. Chapman inserted his index finger gently, being careful not to rupture the brain tissue or draw blood. Deeper and deeper, with painful slowness, the surgeon probed until his finger came in contact with the bullet. Then the surgeon slowly worked his finger around and under the object, gradually forcing it through the tissue until it touched the side of the skull, and then half lifted, half pushed it, along the wall until it reached the opening, where it was taken out with forceps.

TO POPULARIZE LATIN STUDY

To popularize the study of Latin at Wilson college, Chambersburg, Pa., the young women students recently held a "Roman banquet," at which they appeared as characters famed in the history of ancient Rome. The banquet was served in Roman style by "slaves," while the diners reclined on couches and rugs about the hall. The picture shows Mrs. Jenn Sharp as she appeared as Nero at the banquet.

STEAR CRUTCHES OF CRIPPLE
Meanest of All Sneak Thieves Take Props From Detroit Man and Dash Away.
Detroit, Mich.—Albert C. Malone was the victim of what is believed to be one of the meanest thefts perpetrated in Detroit in several months, when sneak thieves robbed him of his crutches while he stopped to adjust his tie at Seldon and Cass avenues.

Malone notified the police that after alighting from a bus to go to his home he stopped beside a church on the corner, placing his crutches against the side of the building. Two men of about twenty years of age were standing on the corner and each grabbed one crutch and ran. The crutches had been purchased during the day at a downtown store and Malone was taking them home for the first time.

Wild Horses Roam No More.
Sometimes in the isolated mountain canyons of the West horses are fond of running loose, but while these might be termed wild, they usually belong to some rancher who has let them run loose. Wild burros are frequent in various parts of Arizona and occasionally are found in Utah. But the old wild horse herds of the mountain plateau regions have gone, probably forever.

PARKERTOWN

Mr. and Mrs. Norwood Parker spent Sunday at Ocean City. They were accompanied home by their daughter, Miss Grace, who has been attending Summer School there.

Mrs. Ryan has returned to her home here after spending a week in Philadelphia and Mount Holly with relatives and friends.

Almore Honan spent the week in Philadelphia at the home of his daughter, Mrs. Frank McGowan.

Capt. Timothy Parker, Mrs. Sanna Parker, Mr. and Mrs. J. C. Parker and children spent Sunday at Ocean City.

Mr. and Mrs. William Dixon and children of Eutherford are guests of the latter's sister, Mrs. Isaac H. Hiner. Mrs. Tillie McAnney, a niece is also spending some time there.

Mr. and Mrs. Frank McGowan of Philadelphia are rejoicing over the birth of a daughter, born July 27. Mrs. McGowan was formerly Mrs. Ethel Homan of this place.

Mr. and Mrs. Norman Gobert of Syracuse are the proud parents of a son, born July 16th. Mrs. Gobert is Miss Ida Cummings and all early life was spent here.

Edward Cranmer is visiting grandmother at Fieldsboro, Pa. Cummings and daughter, Evelyn Rose, Frances, Mary and Irma, spent Sunday at Sea Haven.

Mr. and Mrs. Samuel D. Parker of Philadelphia are entertaining Mrs. Fred L. Fitch daughter, Emma of Framingham, Mass.

Mr. and Mrs. Henry Parker are entertaining their daughter, Mrs. Pharo and children, Mr. and Mrs. Good, all of Camden.

John Cranmer is improving his home here after spending a week at the home of his grandmother at Fieldsboro.

Julia Allison of Cedar Run, Pa. is a week here with her aunt, Mrs. Cranmer.

Mr. and Mrs. John Cranmer returned Sunday Jos. Durham, Durham, Frank Baxter, Andrew ham of Collingswood; Mr. and Mrs. Jos. Dowdell and Mrs. Ada M. Munn of Atlantic City.

Mrs. Mildred Allison and daughter, Adele, spent Saturday with Mr. and Mrs. J. Cranmer. Charlotte Cranmer is visiting aunts, Mrs. Julia Dowdell and Mrs. Hugh Anderson in Atlantic City.

Doctrines of Reincarnation. The doctrine of a previous existence being made manifest to an individual is very old, and certain sects, especially in the Far East, believe that man experiences many incarnations, carrying the memory to a greater or less degree from one incarnation to the other. Theological writers have taken up this strange state of feeling as an evidence that our mentality had an existence before our present bodily life—souls being created from the beginning.
